William Eggleston, 2 1/4, 1999 Born and raised in Mississippi and Tennessee, William Eggleston began taking pictures during the 1960s after seeing Henri Cartier-Bresson's *The Decisive Moment*. In 1966 he changed from black and white to color film, perhaps to make the medium more his own and less that of his esteemed predecessors. John Sarkowski, when he was curator of photography at the Museum of Modern Art, called Eggleston the first color photographer, and certainly the world in which we consider a color photograph

as art has changed because of Eggleston. From 1966 to 1971, Eggleston would occasionally use a two and one quarter inch format for photographs. These are collected and published here for the first time, adding more classic Eggleston images to photography's color canon.

The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife

rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Create Your Own Photo Book Petra Vogt, 2012-05-25 These days, photographs live on hard drives and DVDs in the company of several thousand other images, coming to light on a computer screen only for a short moment, if ever. In that respect our computer is a one-image-at-a-time exhibition of our photographic work. But as photographers, we like to print our best images, frame and show them at home or at an exhibition, or present a collection of prints in a portfolio. This book will guide you through the process of creating a printed and bound portfolio of your photographs, or even a bookstore-quality coffee table book. Learn about every step of the process, from selecting a book publishing service all the way through designing and proofing your photo book. You'll get practical advice on how to work with software provided by services such as Blurb or Viovio, and will learn about relevant concepts of book design, color management, and digital printing. Create your Own Photo Book is the perfect guide for the aspiring amateur photographer as well as the seasoned pro.

This volume, *Historic Photos of Nashville*, captures this journey through still photography from the finest archives of the city, state and private collections. From the Civil War, Exposition and the great fire of 1916, *Historic Photos of Nashville* follows life, government, education, and disasters throughout Nashville's history. The book captures unique and rare scenes and events through the original lens of hundreds of historic photographs. Published in striking duo tone these images communicate historic events and everyday life of two centuries of people building a unique and prosperous city.

Photo Archives and the Idea of Nation Costanza Caraffa,Tiziana Serena,2014-12-16 The question of the (photographic) construction and representation of national identity is not limited to the 'long 19th century', but is a current issue in the post-colonial, post-global, digital world. The essays by international contributors aim at studying the relationship between photographic archives and the idea of nation, yet without focusing on single symbolic icons and instead considering the wider archival and sedimental dimension.

PHOTO ART THERAPY Jerry L. Fryear,Irene E. Corbit,1992-01-01 **PHOTO ART THERAPY: A JUNGIAN PERSPECTIVE** illuminates and guides the reader through new possibilities for art therapy practice, approached by the authors as a creative interaction with different artistic media and therapeutic methods. Although the book is based on Jungian theory and practice, the authors

carefully explore cooperation with other therapeutic perspectives, all of which are in keeping with Jung's belief in transcendent universals and multifaceted therapeutic practices. The book is divided into four sections: Self-Understanding, Alleviating Distress and Symptoms, Group Therapy, and Discussion. Wherever possible and practical, photo art therapy work done by clients as illustrations of the concepts is included. The text not only demonstrates innovative ways of combining artistic media but allows clients to articulate the inner workings of the therapeutic process through an engaging series of dialogues and narrations. The book establishes a twofold landmark in elucidating art therapy's close and vital connections to both phototherapy and the discipline of Jungian psychotherapy.
