The Reformability of China's State Sector Guanzhong James Wen, Dianqing Xu, 1997 China has achieved alarming success in accelerating the economic growth rate since it started economic reform about 16 years ago. However, its state sector is still running severe deficits. Even though its productivity might be improved since the reform started, its financial situation, nevertheless, has been worsening mainly as a result of increased competition from the rapidly expanding non-state sector. Therefore, the reform of this sector has become an urgent problem. All the papers collected in this book are closely related to the various issues that the reform of the state sector has to solve. Among the contributors are Professor Merton H Miller, a Nobel laureate and expert on firm finance and governance, Mr Ji Lin, the vice president of the Chinese Academy of Social Sciences, Dr Justin Y Lin, the director of Center of China's Economic Research at Beijing University, Professor Gang Fan, the well-known Chinese Economist and vice director of the Institute of Economic Research at the Chinese Academy of Social Sciences, Professor Guoqiang Tian, an expert on mechanism design at Texas A & M University, and many other researchers and professors from China and the North America's research institutes and universities. Therefore, this book will be extremely useful and relevant to those economists as well as government decision-makers working in the field of the transitional economy.

Sushi Minori Fukada, Kit Shan Li, 2013-08-13 For the uninitiated, sushi restaurants can be intimidating. But no more. Just like its irresistible predecessor Dim Sum, Sushi can be tucked into a purse or pocket for instant-expert reference. Fifty of the most popular sushi items are presented as colorfully as a Japanese restaurant's display case with clear photographs for easy identification, descriptions of flavors and textures, and phonetic pronunciations. Icons distinguish whether sushi is cooked (like unagi) or is vegetarian (like the cucumber roll). Covering nigiri, maki, and a few unusual sushi items (blowfish, anyone?), Japanese foodophiles can take it easy by ordering the crowd-pleasing California Roll, or go for broke and sample uni (sea urchin), an acquired taste, but a favorite of any sushi-lover worth their tobiko. With a short history of sushi, ordering and eating etiquette, and a simple glossary of out-of-the-ordinary ingredients, Sushi is the definitive guide to one of Japan's most intriguing culinary specialties. Itadakimasu! (enjoy).

Corporate Power, Oligopolies, and the Crisis of the State Luis Suarez-Villa, 2014-12-09 Addresses the power of oligopolistic corporations in contemporary society. The largest, wealthiest corporations have gained unprecedented power and influence in contemporary life. From cradle to grave the decisions made by these entities have an enormous impact on how we live and work, what we eat, our physical and psychological health, what we know or believe, whom we elect, and how we deal with one another and with the natural world around us. At the same time, government seems ever more subservient to the power of these oligopolies, providing numerous forms of corporate welfare—tax breaks, subsidies, guarantees, and bailouts—while neglecting the most basic needs of the population. In *Corporate Power, Oligopolies, and the Crisis of the State*, Luis Suarez-Villa employs a multidisciplinary perspective to provide unprecedented documentation of a growing crisis of governance, marked by a massive transfer of risk from the private sector to the state, skyrocketing debt, great inequality and economic insecurity, along with an alignment of the interests of politicians and a new, minuscule but immensely wealthy and influential corporate elite. Thanks to this dysfunctional environment, Suarez-Villa argues, stagnation and a vanishing public trust have become the hallmarks of our time. Luis Suarez-Villa is Professor of Social Ecology and of Planning, Policy, and Design at the University of California, Irvine. He is the author of several books, including *Globalization and Technocapitalism: The Political Economy of Corporate Power and Technological Domination* and *Technocapitalism: A Critical Perspective on Technological Innovation and Corporatism*.
