**China, Russia and Central Asian Infrastructure** Peter Krasnopolsky, 2022-08-17 This book evaluates Central Asian regionalism by analyzing the impact of Russia and China on physical infrastructure in the region. The narrative builds a picture of the nature of the two powers' influence on the development of regional connectivity in Central Asia. The study covers the 30-year period since the dissolution of the Soviet Union,

with a focus on the last decade preceding the global pandemic. Qualitative research methods, i.e., documentary analysis, media analysis, and elite interviews, are implemented to explore how activities of Russia and China impact regional cooperation among Central Asian states. Multiple case studies of projects in the networked sectors of infrastructure, i.e., transportation, energy, and telecommunications, are used to build the argument and demonstrate the ways in which Russia's and China's engagement influence regional connectivity. The book is of interest to the scholars who study international relations in Eurasia, major power relations, Sino-Russian relations, China foreign policy, international institutions in Asia, multilateralism, and regionalism. The empirical depth of the book attracts attention of area studies scholars who focus on Central Asia, Central Eurasia, and any of the five Central Asian states. Additionally, the scholars who analyze the roles of hard infrastructure find the book particularly important. The in-depth cases on multilateral financial institutions and regional networks, particularly energy, transportation, and telecommunication, are of great value to those interested in these respective sectors.

What I Talk About When I Talk About Running Haruki Murakami,2009-08-11 From the best-selling author of The Wind-Up Bird Chronicle and After Dark, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of

such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

**A History of Russian Philosophy 1830–1930** G. M. Hamburg, Randall A. Poole, 2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 - from the famous Slavophile-Westernizer controversy of the 1830s and 1840s, through the 'Silver Age' of Russian culture at the beginning of the twentieth century, to the formation of a Russian 'philosophical emigration' in the wake of the Russian Revolution. This volume is a major history and interpretation of Russian philosophy in this period. Eighteen chapters (plus a substantial introduction and afterword) discuss Russian philosophy's main figures, schools and controversies, while simultaneously pursuing a common central theme: the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity. As this volume shows, the century-long debate over the meaning and grounds of human dignity, freedom and the just society involved thinkers of all backgrounds and positions, transcending easy classification as 'religious' or 'secular'. The debate still resonates strongly today.
