From Dissertation to Book William Germano,2014-02-27 How to transform a thesis into a publishable work that can engage audiences beyond the academic committee. When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. “You know something!” I would say if it could hear me. “Now tell it to us in language we can understand!” Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. He also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, he reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add “author” to their curriculum vitae.

How to Talk About Books You Haven't Read Pierre Bayard,2010-08-10 In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of non-reading-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to books, offering a whole new perspective on how we read and absorb them.

Different--A Great Thing to Be! Heather Avis,2021-06-29 NEW YORK TIMES BESTSELLER • This joyful rhyming book encourages children to value the “different” in all people, leading the way to a kinder world in which the differences in all of us are celebrated and embraced. Macy is a girl who’s a lot like you and me, but she's also quite different, which is a great thing to be. With kindness, grace, and bravery, Macy finds her place in the world, bringing beauty and laughter wherever she goes and leading others to find delight in the unique design of every person. Children are naturally aware of the differences they encounter at school, in their neighborhood, and in other everyday relationships. They just need to be given tools to understand and appreciate what makes us “different,” permission to ask questions about it, and eyes to see and celebrate it in themselves as well as in those around them.

Laws Relating to Fur-bearing Animals, 1918 David Ernest Lantz,1917 In the fiscal year ended June 30, 1917 the foreign trade of the United States in raw and manufactured furs reached nearly, if not fully, the high level of years preceding the war. The imports were valued at \$21,553,375, while the exports amounted to \$15,729,160, a sum exceeded in only one previous year, 1913 when they were \$28,389,586. Home manufacture and utilization of American furs has grown enormously since the beginning of the war. The large export trade of the past year shows, therefore, a production of pelts of unprecedented value, in spite of the fact that the actual number of skins collected must have been less than in previous years. Many former trappers were more profitably employed in other industries, and many were deterred from plying their vocation by the increased restrictions on trapping, especially the costly nonresident licenses. Trapping restrictions properly enforced and limiting the taking of fur to prescribed seasons will result not only in conserving the fur supply but in greatly increasing the quality and value of the annual catch. -- p.2
