Songs of Slavery and Emancipation Mat

Callahan, 2022-06-16 Throughout the history of slavery, enslaved people organized resistance, escape, and rebellion. Sustaining them in this struggle was their music, some examples of which are sung to this day. While the existence of slave songs, especially spirituals, is well known, their character is often misunderstood. Slave songs were not only lamentations of suffering or distractions from a life of misery. Some songs openly called for liberty and revolution, celebrating such heroes as Gabriel Prosser and Nat Turner, and, especially, celebrating the Haitian Revolution. The fight for freedom also included fugitive slaves, free Black people, and their white allies who brought forth a set of songs that were once widely disseminated but are now largely forgotten, the songs of the abolitionists. Often composed by fugitive slaves and free Black people, and first appearing in the eighteenth century, these songs continued to be written and sung until the Civil War. As the movement expanded, abolitionists even published song books used at public meetings. Mat Callahan presents recently discovered songs composed by enslaved people explicitly calling for resistance to slavery, some originating as early as 1784 and others as late as the Civil War. He also presents long-lost songs of the abolitionist movement, some written by fugitive slaves and free Black people, challenging common misconceptions of abolitionism. *Songs of Slavery and Emancipation* features the lyrics of fifteen slave songs and fifteen abolitionist songs, placing them in proper

historical context and making them available again to the general public. These songs not only express outrage at slavery but call for militant resistance and destruction of the slave system. There can be no doubt as to their purpose: the abolition of slavery, the emancipation of African American people, and a clear and undeniable demand for equality and justice for all humanity.

Tristan McCarthy and the Invisible City Tim Gordon, 2017-03-25 Ten-year-old Tristan McCarthy is just like any other orphan living in London's Candlewick Children's Home. Well, perhaps a little smarter. But how is it that a simple stage magician named The Great Elias has the power to send him to the Other World of Rorrim? And why does this magician think Tristan has the ability to not only find The Invisible City, but save it? And why am I asking you all these questions? Sometimes, magic is real. Age Range: 8 - 12 years Grade Level: 3 - 7

In the Footsteps of Flora Tristan Máire Fedelma Cross, 2020 In the Footsteps of Flora Tristan is the first ever study devoted to Jules Puech (1879-1957), and is a double biography that examines his life's work on Flora Tristan (1803-1844), feminist and socialist. It begins by examining newly found press reports of Flora Tristan during her lifetime and subsequently, then positions Puech's discovery of her, as a postgraduate student in Paris in the 1900s. It continues with an account of how he embarked on the first in-depth biography published in 1925. Puech was unmatched in his expertise as a writer

on Flora Tristan having discovered her papers through his numerous political connections and having become a historian of Proudhon's legacy on the international aspirations of the labour movement. Together with his wife Marie-Louise Milhau (1876-1966), suffragist feminist, he was a militant in the early twentieth-century pacifist movement that advocated international arbitration. His research on Flora Tristan was enriched by his other projects but was thwarted by the wars of 1914-1918 and 1940-1945. The circumstances of the long gestation of Puech's biography are drawn from his letters and papers, hitherto unseen. The correspondence curated brings a new understanding to the multi-faceted nature of Puech's activism and rate of progress in the publication of his findings on his subject, Flora Tristan.

But they've just become coolhunters for a massively popular webspace and Mac is beyond excited. The catch: he has to find the Next Big Thing in NYC – or be sent home. Mac soon makes friends with Melody, an inventor with super-cool skates, who takes him to The Hive. It's an old boatshed where innovative kids are creating transport, sneakers and computer apps that are way

more cutting edge than anything you can buy. And the Hive kids are about to test an invention that could change the world. Mac's boss at Coolhunters is desperate for him to spill the beans, but Melody has sworn Mac to secrecy. He's found the coolest thing in NYC and he's not allowed to tell a soul! Friends or fame. Which would you choose?

Inside Knowledge Doran Larson, 2024-01-09 A powerful critique of mass incarceration by the people who have experienced it Inside Knowledge is the first book to examine the American prison system through the eyes of those who are trapped within it. Drawing from the writings collected in the American Prison Writing Archive, Doran Larson deftly illustrates how mass incarceration does less to contain any harm perpetrated by convicted

people than to spread and perpetuate harm among their families and communities. Inside Knowledge makes a powerful argument that America's prisons not only degrade and debilitate their wards but also defeat the prison's cardinal missions of rehabilitation, containment, deterrence, and even meaningful retribution. If prisons are places where convicted people are sent to learn a lesson, then imprisoned people are the ones who know just what American prisons actually teach. At once profound and devastating, Inside Knowledge is an invaluable resource for those interested in addressing mass incarceration in America.
