Ausmus,2008-06-30 In comparative tastings, wines from California's Central Coast rival those from such renowned regions as Bordeaux, Burgundy, and Napa, yet they also offer superb value. This is the first comprehensive guide to one of the world's most dynamic and beautiful wine regions-and the setting for the award-winning movie Sideways. An excellent, one-stop resource for touring and tasting at convenient wineries located from Monterey to Santa Barbara, the guide is organized into county-by-county alphabetical listings for this up-and-coming region. **Ghost Wineries of Napa Valley** Irene W. Haynes,1999-10-01 Extensively researched by a resident grape grower and historian, this is the fascinating photographic tour of historic Napa wineries. The historical details and photographs of more than 65 wineries bring vision of the vibrant California wine industry of more than 100 years ago and the roots of many of today's great vintners are exposed in these photos and historical vignettes.

**Sonoma County Wineries** Thomas Maxwell-Long,2001 As early as the California Gold Rush of the mid-19th century, the first settlers of Sonoma County recognized that the rich soil and unique array of climates of the region's valleys were particularly conducive for the ages-old livelihood of viticulture. Beginning in 1857 with Buena Vista Winery, Sonoma became one of the preeminent winemaking regions in the world. Chronicled here in over 200 vintage images is Sonoma's wine producing history, covering its many wineries, vineyards, towns, and townsfolk that grew up alongside the development of this fantastic agricultural enterprise.The first Sonoma County venture was Buena Vista Winery, founded in 1857 by the eccentric Count Agoston Haraszthy. Since then, and over the course of the next 150 years, hundreds of wineries would dot the landscape; while some succeeded and lasted through the years, others fell in the face of life's trials, including earthquakes, wildfires, and Prohibition. Covering three centuries of award-winning winemaking, this new book captures in photographs the history of some of the world's most famous wineries, their proprietors, workers, and families, including those from Korbel, Geyser Peak, Simi, Sebastiani, Pedroncelli, Orr, Seghesio, and Ravenswood.

**Seasons of a Finger Lakes Winery** John C. Hartsock,2011-04-15 June is a time when the vineyardist thins and trains shoots, which seem to grow inches a day. During thinning and training one learns intimately about the personality of the grapevine. It is a strange creature, and one can see why in ancient Greece and Rome it represented the cycles of life. The bark on the main trunk tends to be cracked and crumpled, hanging in threads in some places, and reminiscent of a withered old man. It's not pretty to look at. But the vine comes to life in the smooth brown canes that were young growth the year before, and then in the tender, rubbery green shoots of the current season. In 1998, Gary and Rosemary Barletta purchased seven acres of land on the eastern shore of Cayuga Lake. Descending to the west from the state route that runs along on the ridge overlooking the lake, the land was fertile, rich with shalestone and limestone bedrock, and exposed to moderating air currents from the lake. It was the perfect place to establish a vineyard, and the Barlettas immediately began to plant their vines and build the winery about which they had dreamed for years. The Barlettas' story, as John C. Hartsock tells it, is a window onto the world of contemporary craft winemaking, from the harsh realities of business plans, vineyard pests, and brutal weather to the excitement of producing the first vintage, greeting enthusiastic visitors on a vineyard tour, and winning a gold medal from the American Wine Society for a Cabernet Franc. Above all, Seasons of a Finger Lakes Winery describes the connection forged among the vintner, the vine, and terroir. This ancient bond, when tended across the cycle of seasons, results in excellent wines and the satisfaction, on the part of the winemaker and the wine enthusiast, of tasting a perfect harvest in a single glass. Today, Long Point Winery sits on seventy-two acres (eight of which are under cultivation with vinifera grapes) and produces sixteen varieties of wine, a number of which are estate wines made from grapes grown on their property. With interest in winemaking continuing to grow, the Barlettas' experience of making award-winning wines offers both practical advice for anyone running (or thinking of running) their own winery, whether in the Finger Lakes or elsewhere, as well as insights into the challenges and joys of pursuing a dream.

**California's Central Coast: The Ultimate Winery Guide** Mira Advani Honeycutt,2007-05-10 The winemaking region encompassed by Santa Barbara and San Luis Obispo Counties is hot among those in the know -- and with good reason. A huge variety of the finest wines are only a pour away, and the setting is as dazzling as what's in the glass. Yet, despite its recent surge in popular appeal, the coast retains the down-home feel and roll-up-your-sleeves attitude that made it famous. The wineries of the Central Coast offer the perfect mix of elegant hospitality and warm accessibility -- as often as not, the people who pour your wine in the tasting rooms are not only the winemakers, but the winery owners as well, and they are happy to spend time chatting about their passion. Mira Advani Honeycutt's affectionately detailed text is a perfect introduction to this exciting expanse of vineyards. She reveals how the many microclimates of the Santa Ynez, Santa Maria, Arroyo Grande, and Edna Valleys, as well as the area around Paso Robles, have led to the production of an amazing diversity of varieties by an equally varied collection of wineries. Whether you're looking for a lush picnic spot and a glass of bubbly or panoramic views accompanied by a tasting flight of robust Rhône blends, her helpful tips lead the way. In addition, she reveals the distinctive art and architecture that abound in the wineries, while fine cuisine, fresh produce, and eclectic historical sites are never far away.--

*Washington Wines and Wineries* Paul Gregutt, 2010 During the thirty-five years wine critic and writer Paul Gregutt has lived in the state of Washington, its wine industry has ballooned from a mere half dozen wineries to nearly five hundred. Washington Wines and Wineries offers a comprehensive, critical, and accessible account of the nation's second largest wine-producing region.

*Sonoma County Wineries* Gail G. Unzelman, 2006 Sonoma County, where California's state flag first flew, is also the birthplace of Northern California's wine industry. This vintage postcard journey reveals some of that rich history in its trek through Sonoma County's fertile plains and sun-drenched hillsides, from the vintners' cradle in the town of Sonoma, to its northernmost frontier near Cloverdale. Stops along the route include Glen Ellen and the Valley of the Moon, the Russian River valleys, and such industry giants as Italian-Swiss Colony and the California Wine Association. Once boasting the world's largest vineyard, wine tank, and grape arbor, Sonoma County has long bested its more famous neighbor in number of wineries and grape acreage. *Local Vino* James R. Pennell, 2017-02-15 The art and craft of winemaking has put down roots in Middle America, where enterprising vintners coax reds and whites from the prairie earth while their businesses stand at the hub of a new tradition of community and conviviality. James R. Pennell tracks among the hardy vines and heartland terroir of wineries across Illinois, Iowa, Indiana, and Ohio. Blending history and observation, Pennell gives us a ground-up view of the business from cuttings and cultivation to sales and marketing. He also invites entrepreneurs to share stories of their ambitions, hard work, and strategies. Together, author and subjects trace the hows and whys of progress toward that noblest of goals: a great vintage that puts their winery on the map.

*Wineries of Santa Clara Valley* Bev Stenehem, 2015 The Santa Clara Valley was the first premier wine production region in California. The valley's history of winemaking dates back to 1777, when Spanish padres founded Mission Santa Clara and planted their grape cuttings in order to make wine for religious purposes. Immigrants from around the world, following the American dream, were soon lured to the Santa Clara Valley for its rich soil and ideal growing climate. These immigrants brought centuries of winemaking traditions, passed down through the generations.

**The New Architecture of Wine** Heather Hebert, 2019-12-17 Celebrate the sophisticated blend of agriculture and style that defines California wine country. With well-told stories and stunning photography, author Heather Hebert features the architecture of 25 California wineries in her alluring new book, *The New Architecture of Wine*. As wine tourism has increased, California vintners have embraced the call to create splendid spaces where visitors can taste their unique varieties and enjoy conversation about wine. In place of imitating old-world European estates, grand architectural statements or quirky forays into bohemianism, the new architecture of wine has evolved into a celebration of California's topography, agricultural heritage, historic architectural vernacular, and forward-thinking passion for sustainability and design. The 25 wineries featured in *The New Architecture of Wine*, all built within the last ten years, include buildings designed by top architects Juan Carlos Fernandez and Howard Backen, among others. Together, these wineries form an authentic expression of the winemakers' passion for the land and its heritage—an homage to California. Heather Hebert, formerly the director of marketing for a San Francisco-based architecture firm with an international practice, spent 25+ years guiding the firm's marketing, brand identity, and positioning on a global scale. She works directly with clients to develop their brand strategy and design stories for their hotel, resort, winery, multi-family residential and urban mixed-use projects. Heather lives in Marin County, California, with her husband and four children. *The New Architecture of Wine* is her first book.

*Texas Hill Country Wineries* Russell D. Kane, 2015-01-19 The Texas Hill Country wineries have roots as old as any around. Texas grapes grow in soils made from ancient sea deposits, similar to the grape-growing regions of Europe. Texas wine culture arrived in the 1600s with Spanish missionaries who settled and planted vineyards in El Paso del Norte. The 1800s brought German and Italian immigrant farmers to Texas; they considered wine a staple of everyday life. In what is now America's No. 5 wine-producing state, the Texas Hill Country was named by *Wine Enthusiast* magazine to its 2014 list of best international wine destinations. It may surprise some, but not the wine aficionados who have visited the Texas Hill Country's 50 or more wineries, that wine-and-culinary tourism is currently the Texas Hill Country's fastest growing sector. This book is your guide to the Texas Hill Country winery experience. It is time to sip and savor Texas for yourself.

**The Vineyard** Louisa Thomas Hargrave, 2003 In the tradition of Peter Mayle and Frances Mayes, *The Vineyard* is a charming memoir of starting the first Long Island winery, and the bittersweet story of how one couple fulfilled their dream.

**Napa Valley** Antonia Allegra, 1997 The beautiful Napa Valley attracts ten million visitors per year. This book selects the best wineries in the area and provides substantial new information, including up-to-date prices, directions, and an improved regional map.

*Wineries of the Texas Hill Country Plus One Fine Brewery* John F. Aceti, Many people who visit wineries in the Texas Hill Country know and enjoy the social aspect of drinking a glass of exquisite wine along with some delicious food. Friends, spouses and even family members consider wineries as a sophisticated place to interact and socialize in a comfortable setting. Many of the owners have designed their tasting areas as places of enjoyment and cheerfulness. While drinking quality wines one can also view pieces of art on the walls, a great variety of wine related gifts, clothing and books. Many tour vehicles for "special groups" can be seen in parking

areas at all the wineries. On some days one needs to drive around awhile to find an open space. For those who have not visited a winery, I can assure you that it is a unique experience and you will probably make some repeated visits. People who drink wine and travel in the United States or abroad tend to visit wineries wherever they travel. You may even walk out with a bottle or two of your favorite wine!!

**Winery Utilities** David R. Storm, 2013-11-09 This book has been written for an eclectic audience of winery developers (owners), winemakers with utility responsibilities (real or implied), winery design professionals (architects and engineers), and university-level enology professors, all of whom at sometime in their careers must address the subject of winery site utilities as a distinct and important element of their jobs. Wine and other fermented beverages in one form or another are produced commercially in almost all temperate zones of the world. Utility requirements for wineries, which use grapes as the fermentable sugar source, are the focus of this reference book, although similarities in fundamental production processes for other subdivisions of the fermented beverage industry may find useful reference information in the chapters which follow. Wine production methods may differ somewhat from country to country, but the sizing, need for reliability, ease of operation, and cost-effectiveness of water, wastewater, electrical, fire protection, and other support systems remain nearly universally constant. Of necessity, the author's past planning and design experience with nearly 60 winery utility systems, will xi xii Preface emphasize contemporary design fundamentals related to the U.S. wine industry. However, where possible, opportunities will be taken to relate American practice to, for example, European, Australian, and South American wine industries where discrete differences in utility systems have been observed by the author or discovered in the literature research that was part of the production effort for this volume.
