Yet, scholarship is only beginning to pay attention to these phenomena. This book presents in English translation a wide array of relevant source texts from ca. 650 to ca. 1450 originally written in medieval Greek: from administrative records, saints' lives and letters by churchmen to ego-documents by ambassadors and historical narratives by court historians. Each source text is accompanied by a detailed introduction, commentary and further bibliography, thus making the book accessible to both scholars and students and laying the groundwork for future research on the internal dynamics of Byzantine society.
