3.6 Leadership Charles Farrior,2018-02-01 Move toward personal and professional success with the tools and strategies in 3.6 Leadership. Unlike most other self-help books, this one takes a balanced approach, with the author positing that if your personal life is not driving your compass, your chances of achieving professional success are slim. The last thing you want to do is embark on a career that leaves your family behind physically or emotionally while you are pursuing professional accomplishments. By following the strategies in this book, you'll learn how to: define, prioritize, and fulfill personal goals; determine if you're in the right job or not; boost performance on job interviews; and avoid toxic traps in the workplace. You'll also gain insights on making connections in person and online, cultivating rich friendships, creating resumes that capture attention, and telling your personal story. Moreover, you'll learn why it's important to write a personal mission statement and what you need to include to improve your chances of accomplishing your goals. Take ownership of your life and your career now, and enjoy dividends down the road by applying the lessons in this book.

‘Simplicius’: On Aristotle On the Soul 3.6–13 Carlos Steel,2014-04-22 This is the fourth and last volume of the translation in this series of the commentary on Aristotle On the Soul, wrongly attributed to Simplicius. Its real author, most probably Priscian of Lydia, proves in this work to be an original philosopher who deserves to be studied, not only because of his detailed explanation of an often difficult Aristotelian text, but also because of his own psychological doctrines. In chapter six the author discusses the objects of the intellect. In chapters seven to eight he sees Aristotle as moving towards practical intellect, thus preparing the way for discussing what initiates movement in chapters nine to 11. His interpretation offers a brilliant investigation of practical reasoning and of the interaction between desire and cognition from the level of perception to the intellect. In the commentator's view, Aristotle in the last chapters (12-13) investigates the different type of organic bodies corresponding to the different forms of life (vegetative and sensory, from the most basic, touch, to the most complex).

FrC 3.6 Kratinos Douglas Olson,Ryan Seaberg,2018-07-16 This volume is devoted to the over 200 fragments of Cratinus for which have no play title. Much of the material has never been commented on previously. Douglas Olson and Ryan Seaberg offer a close literary, philological and historical study of the fragments, with particular attention to textual, poetic and linguistic issues of all sorts and to the lexicographic sources that preserve the material. Their general goal is to open up problems and perspectives rather than to shut them down. By teasing out some of their individual puzzles and peculiarities they want to render the fragments accessible to further scholarly work. The commentary of the Fragmenta Comica series illuminate not only the genre history of comedy, but also the Greek literary history of the Classical and Hellenistic period.
