

The Caregiver Samuel Park, 2019-07-09 From the critically acclaimed author of *This Burns My Heart* comes a “luminous mother-daughter saga” (Entertainment Weekly) about a young woman who is forced to flee 1980s Brazil for California, and in doing so unearths the hidden life of her enigmatic mother. Mara Alencar’s mother Ana is her moon, her sun, her stars. Ana, a struggling voice-over actress, is an admirably brave and recklessly impulsive woman who does everything in her power to care for her little girl in perilous 1980s Rio de Janeiro. With no other family or friends her own age, Ana eclipses Mara’s entire world. They take turns caring for each other—in ways big and small. But who is Ana, really? As she grows older, Mara slowly begins to piece together the many facets of Ana’s complicated life—a mother, a rebel, and always, an actress. When Ana becomes involved with a civilian rebel group attempting to undermine the city’s cruel Police Chief, their fragile arrangement begins to unravel. Mara is forced to flee the only home she’s ever known, for California, where she lives as an undocumented immigrant, caregiving for a dying woman. It’s here that she begins to grapple with her turbulent past and starts to uncover vital truths—about her mother, herself, and what it means to truly take care of someone. A “lovely and heartbreaking” (People) story that is “simultaneously dreamlike and visceral” (The Atlantic), *The Caregiver* is “a beautiful testament to Samuel Park’s extraordinary talents as a storyteller...that reads, in some moments, like a thriller—and, in others, like a meditation on what it means to be alive...A ferocious page-turner with deep wells of compassion for the struggles of the living—and the sins of the dead” (Kirkus Reviews, starred review).

The 32 Paul McVeigh, 2021-07-08 We read because we want to experience lives and emotions beyond our own, to learn, to see with others’ eyes. *The 32* is a celebration of working-class voices from the island of Ireland. Edited by award-winning novelist Paul McVeigh, this intimate and illuminating collection features memoir and essays from established and emerging Irish voices including Kevin Barry, Dermot Bolger, Roddy Doyle, Lisa McNerney, Lyra McKee and many more. Too often, working-class writers find that the hurdles they come up against are higher and harder to leap over than those faced by writers from more affluent backgrounds. As in *Common People* – an anthology of working-class writers edited by Kit de Waal and the inspiration behind this collection – *The 32* sees writers who have made that leap reach back to give a helping hand to those coming up behind. Without these working-class voices, without the vital reflection of real lives or role models for working-class readers and writers, literature will be poorer. We will all be poorer.

Embedded Systems Design with the Texas Instruments MSP432 32-bit Processor Dung Dang, Daniel J. Pack, Steven F. Barrett, 2022-06-01 This book provides a thorough introduction to the Texas Instruments MSP432TM microcontroller. The MSP432 is a 32-bit processor with the ARM Cortex M4F architecture and a built-in floating point unit. At the core, the MSP432 features a 32-bit ARM Cortex-M4F CPU, a RISC-architecture processing unit that includes a built-in DSP engine and a floating point unit. As an extension of the ultra-low-power MSP microcontroller family, the MSP432 features ultra-low power consumption and integrated digital and analog hardware peripherals. The MSP432 is a new member to the MSP family. It provides for a seamless transition to applications requiring 32-bit processing at an operating frequency of up to 48 MHz. The processor may be programmed at a variety of levels with different programming languages including the user-friendly Energia rapid prototyping platform, in assembly language, and in C. A number of C programming options are also available to developers, starting with register-level access code where developers can directly configure the device's registers, to Driver Library, which provides a standardized set of application program interfaces (APIs) that enable software developers to quickly manipulate various peripherals available on the device. Even higher abstraction layers are also available, such as the extremely user-friendly Energia platform, that enables even beginners to quickly prototype an application on MSP432. The MSP432 LaunchPad is supported by a host of technical data, application notes, training modules, and software examples. All are encapsulated inside one handy package called MSPWare, available as both a stand-alone download package as well as on the TI Cloud development site: dev.ti.com The features of the MSP432 may be extended with a full line of BoosterPack plug-in modules. The MSP432

is also supported by a variety of third party modular sensors and software compiler companies. In the back, a thorough introduction to the MPS432 line of microcontrollers, programming techniques, and interface concepts are provided along with considerable tutorial information with many illustrated examples. Each chapter provides laboratory exercises to apply what has been presented in the chapter. The book is intended for an upper level undergraduate course in microcontrollers or mechatronics but may also be used as a reference for capstone design projects. Practicing engineers already familiar with another microcontroller, who require a quick tutorial on the microcontroller, will also find this book very useful. Finally, middle school and high school students will find the MSP432 highly approachable via the Energia rapid prototyping system.

The Provenance of Deuteronomy 32 Paul Sanders,2021-11-15 This study offers an extensive survey of previous literature dealing with the provenance of the song in Deuteronomy 32, a renewed discussion of its text and language as well as an analysis of its poetic structure with the help of a new method. The author tests the tenability of older theories and proposes a new theory based on systematic research into the intertextual links with other parts of the Hebrew Bible and extra-biblical literature of the Ancient Near East. Separate sections are dedicated to the song's descriptions of the relationship between YHWH and the gods and to the identity of the hostile people to which the song refers. The author concludes that a pre-exilic date is extremely likely for the song in its entirety.

Quarterly Essay 32 American Revolution Kate Jennings,2008-11-28 Where were you when America elected Barack Obama? Kate Jennings was in New York, eyes wide open, completing her take on an

amazing time: the run-up to the election ... a time when every day felt like a year and we became slightly crazed from worry but also mesmerised, unable to switch off the cable news stations, obsessively tracking the DOW, VIX, LIBOR spreads, polls in red states. So much at stake. American Revolution is a dazzling and perceptive look at the United States between hope and despair: an election-year kaleidoscope. Jennings describes how and why the US economy fell off a cliff and how an apparently endless run of primaries and an increasingly rancorous campaign culminated in a world-changing victory. She surveys the characters – Obama, Palin, McCain and the Clintons – and conveys the concepts – derivatives, bailouts and moral hazard. This is an essay that shows America in fascinating flux: it is witty and poetic, acute and evocative. ‘The television networks are justifiably in raptures about the historic election of an African-American as the president. All the same ... to reduce Obama to a label, to ‘African-American,’ does him – and us – a disservice. He wasn’t elected for the colour of his skin; he was elected because he offered the hope of a wise, steady and healing leadership to a country bullied and battered in the name of patriotism, plundered and pillaged in the name of free markets, neglected and abandoned in the name of small government.’ —Kate Jennings, American Revolution ‘Kate Jennings captures perfectly the intensity of the past months, the terrible anxiety we felt, the almost pathological conviction that the Republicans would do anything, say anything, pull out all the stops, and that the Democrats would just stand there like numbskulls while the election was stolen from them once again.’ —Christina Thompson, editor of Harvard Review Kate Jennings is a poet, essayist, short-story writer and novelist. Both her novels, Snake and Moral Hazard, were New York Times Notable Books of the Year. Her work has been in contention for the Booker, IMPAC, and Los Angeles Times literary prizes. She has won the prestigious Christina Stead and Adelaide Festival prizes and been honored with the Australian Literary Society's gold medal. Born in rural New South Wales, she has lived in New York since 1979.

Little Shoppe of Horrors #32 Little Shoppe of Horrors, Little Shoppe of Horrors #32 By 1973, Hammer had been sold by Sir James Carreras to his son, Michael Carreras, at a period when the British film industry was collapsing. Leaving Michael to search for new ideas and financing sources for Hammer films. This led him to the Shaw Brothers, the far East's major producer of movies. And out of that came THE LEGEND OF THE 7 GOLDEN VAMPIRES, which wildly integrated Western ideals of vampires with Eastern legends. Peter Cushing was back as Van Helsing for the last time, while Hong Kong super star, David Chiang, led the brothers and sister on a battle to save their village from the Golden Vampires. Little Shoppe of Horrors #32 takes you behind the scenes in that East did not always meet West as the two companies clashed on how the film should be made. But in the final analysis, it came out fun and very colorful. Featuring – “Black Belts Vs Black Magic” The Making of Hammer-Shaw Bros THE LEGEND OF THE 7 GOLDEN VAMPIRES by Bruce G. Hallenbeck.
