55 James Delargy, 2019-09-19 TWO SUSPECTS. TWO IDENTICAL STORIES. WHO IS TELLING THE TRUTH? ***

On a scorching day in Western Australia, a man named Gabriel stumbles into the remote police station in Wilbrook. He is badly injured, covered in dust and dried blood. He has fought his way through the surrounding wilderness to escape a man named Heath. Heath drugged Gabriel, took him to a cabin in the mountains and tied him up. He told him that he would be his 55th victim. Heath is dangerous. He is a serial killer. Just as Police Sergeant Jenkins launches a manhunt to find him, Heath walks into the station with a story to tell: he was drugged by a man named Gabriel, chained up and told he would be his 55th victim. Gabriel is dangerous. He is a serial killer. The two victims are also the two suspects. Which one is telling the truth? ***For fans of Jane Harper's *The Dry*, don't miss James Delargy's masterful novel of a small Western Australian town and its people, swallowed whole by the hunt for a serial killer .

T-54/55 Anthony Tucker-Jones,2017-10-30 The Soviet T-54/55 is probably the best-known tank of the Cold War, and it was produced in greater numbers than any other tank in history. It first went into service just after the Second World War and over 70,000 were made, and its design was so successful that it even outlasted its successor the T-62. For a generation it formed the backbone of the armored forces of the Warsaw Pact and it was exported all over the world, remaining in the front-line until the 1990s. This photographic history in the Images of War series by Anthony Tucker-Jones is the ideal introduction to it. In over 150 archive photographs and a detailed analytical text, he traces the design and development of the T-54/55 and records its operational history. He describes how it was conceived as a main battle tank, an all-rounder, contrasting with the light, medium and heavy tanks produced in the past, and it proved to be extraordinarily effective. It was as adaptable as it was long-lasting, different versions being produced by China, Czechoslovakia, Poland and Romania. Its relatively simple design also meant

it was easy to maintain even in difficult conditions and it was used by armies across the Third World, in particular in wars in Angola, Ethiopia, Mozambique and Somalia. Anthony Tucker-Jones's history of this remarkable armored vehicle will be absorbing reading for tank enthusiasts and a valuable source for modelers.

T-54/55 Robert Jackson, 2019-01-30 A guide that blends the history behind this Soviet, Cold War-era battle tank with resources for military vehicle modeling enthusiasts. During the Cold War, the T-54/55 series of tanks represented the most serious threat to NATO land forces in Europe. Available in huge quantities, it formed the core of the Warsaw Pact armored warfare doctrine, which envisaged massed tank attacks against the weakest point in NATO's front-line defenses. Yet the T-54/55 could be stopped by smaller numbers of tanks which had the benefit of better technology and training, as was demonstrated during the Yom Kippur War of 1973 when Israeli tanks dealt out appalling punishment to T-55s of the Syrian army. Despite these limitations, the T-54/55 was one of the most successful tanks ever produced, and this volume in the TankCraft series by Robert Jackson is the ideal introduction to it. As well as tracing the history of the T-54/55, his book is an

excellent source of reference for the modeler, providing details of available kits and photographs of award-winning models, together with artworks showing the color schemes applied to these tanks. Each section of the book is supported by a wealth of archive photographs.

Going For 55 Christopher Jack, 2021-09-12 An insider's history of the Rangers Football Club's almost-decade-long climb back to the top of Scottish football and their fifty-fifth league title. In February 2012, Rangers faced an uncertain future and fans feared for their club as a Scottish institution was plunged into crisis. Just months later, Rangers would start out on what those supporters christened "The Journey" as they attempted to make their way back to the top of the game from the Third Division. The years that followed were amongst the most tumultuous and controversial in the club's illustrious history as financial results became as important and noteworthy as football ones. Through it all,

Rangers supporters followed near and far. In May 2021, Rangers completed their journey as Steven Gerrard's side were crowned Premiership champions. Going for 55 tells the story of the campaign, giving insight and offering analysis into how Gerrard revolutionised the club and restored Rangers to their place at the top of Scottish football. With interviews from the money men who funded the rebuilding job, the staff and players that made the dream a reality and those in the press that saw history being made, this is a sporting tale like no other.

Isaiah 40-55 Vol 1 (ICC) John Goldingay, David Payne, 2006-11-23 For over one hundred years International Critical Commentaries have had a special place among works on the Bible. They bring together all the relevant aids to exegesis - linguistic, textual, archaeological, historical, literary, and theological - to help the reader understand the meaning of the books of the Old and New Testaments. The new commentaries continue this tradition. All new evidence now available is incorporated and new methods of study are applied. The authors are of the highest international standing. No attempt has been made to secure a uniform theological or critical approach to the biblical text: contributors have been invited for their scholarly distinction, not for their adherence to any one school of thought.
