

**AOL**

**Jennifer Kaufeld**

**AOL in a Nutshell** Curt Degenhart, Jen Muehlbauer, 1998 This definitive reference breaks through the hype and shows advanced America Online users and sophisticated beginners how to get the most out of AOL's tools and features. Readers will learn how to customize AOL so it works the way they want it to, work around annoying idiosyncrasies, avoid unwanted email and Instant Messages, and turn off intrusive advertisements.

**AOL For Dummies** John Kaufeld, 2004-01-30 A traditional bestseller, AOL For Dummies is the only regularly updated reference book on the market for beginning AOL users. Covers the essentials of signing up for AOL, getting around the AOL channels, using AOL's e-mail and instant messaging, and exploring the Web browser. Helps first-time users take advantage of AOL's broadband content and the newest features of AOL 9.0 Optimized, such as improved safety features, e-mail systems, and on-demand programming. Highlights the changes that users of previous versions will encounter with AOL 9.0. Includes coverage of new high-speed services.

**CliffsNotes Going Online with AOL** Jennifer Kaufeld, 1999-09-09 The America Online service offers a great deal of content, especially when you include the over 320 million pages on the Internet that can be bewildering to newcomers. CliffsNotes Going Online with AOL covers all the essentials, including the channels, e-mail, chat rooms, and Internet browsing a user could ever want. Users will be exploring the fun and fantastic online world in just minutes with Cliffs Notes Going Online with AOL. America Online is the top Internet service provider with over 17 million subscribers. Cliffs Notes Going Online With AOL shows readers the easy way to use AOL's member features. This guide helps readers use AOL to surf the 'Net, send and receive e-mail, and take advantage of online shopping and other entertaining channels. Make online friends through AOL's hundreds of chat rooms and set up your own

custom chat groups

**Stealing Time** Alec Klein, 2004-06-02 A behind-the-scenes look at the largest corporate merger in history describes how AOL purchased Time Warner, only to find itself in increasing financial difficulties, under investigation by the SEC and Justice Department, with top AOL executives having resigned. Reprint. 35,000 first printing.

*AOL Keywords* Jennifer Watson, 1998-09-11 America Online makes surfing the Web fun and simple. And AOL Keywords, Third Edition makes learning the ins and outs of AOL just as entertaining. Author and keyword expert Jennifer Watson has updated her popular book to include all the newest and hottest keywords currently in use. Sorted alphabetically and by channel, this easy-to-use index will get you to your destination in a snap. AOL Keywords, Third Edition features over 10,000 keywords, special key chains for kids, parents, and professionals, a directory of keyboard shortcuts, a complete glossary of AOL lingo, surfing tips, and much more.

*Fools Rush In* Nina Munk, 2009-10-13 Every era has its merger; every era has its story. For the New Media age it was an even bigger disaster: the AOL-Time Warner deal. At the time AOL and Time Warner were considered a matchless combination of old media content and new media distribution. But very soon after the deal was announced things started to go bad—and then from bad to worse. Less than four years after the deal was announced, every significant figure in the deal -save the politically astute Richard Parsons—has left the company, along with scores of others. Nearly a \$100 billion was written off and a stock that once traded at \$100 now trades near \$10. What happened? Where did it all go wrong? In this deeply sourced and deftly written book, Nina Munk gives us a window into the minds of two of the oddest men to ever run billion-dollar empires. Steve Case, the boy wonder who built AOL one free floppy disk at a time, was searching for a way out of the New Economy. Meanwhile Jerry

Levin, who'd made his reputation as a visionary when he put HBO on satellite distribution, was searching for a monumental deal. These two men, more interested in their place in history than their personal fortunes, each thought they were out-smarting the other.

**Aol.com** Kara Swisher, 1999 In 1996, Kara Swisher, then a reporter at The Washington Post, was granted unprecedented access to one of the hottest and most closely watched companies in the world, America Online, Inc. In aol.com, Swisher has written a book that captures the secrets of how AOL beat the competition and became the world's biggest online company. Swisher also reveals the company's behind-the-scenes dealings with Microsoft cofounders Bill Gates and Paul Allen, CompuServe, Prodigy, Netscape, and the Christian Right. Throughout its existence, AOL has repeatedly been written off by the media and the high-tech world. Bill Gates threatened to buy it or bury it. Deep-pocketed competitors such as CompuServe and Prodigy thought little of their smaller rival. And AOL made matters worse by committing a series of public-relations and technical blunders that became front page news and enraged its subscribers. But the company--a cyber-cockroach--refused to die. Now, with over eleven million subscribers, AOL is the undisputed leader in the online world, vitally positioned at the nexus of big business, high tech, advertising, and new media. In telling the story of AOL, Swisher also conveys the fascinating history of the online business, which has its origins in the dreams of an eccentric and little-known entrepreneur named Bill Von Meister, whose grand ideas and big spending spawned the fledgling company that would become AOL. But it fell to a young marketing executive named Steve Case to build AOL while fending off an onslaught of wealthier competitors and suitors. Ultimately, as Swisher vividly illustrates, AOL gained supremacy because Case possessed the best vision for his company, establishing AOL as a vibrant virtual community rather than an online shopping center or business tool. Included

in that community is an array of enthusiasts, activists, and deviants who at times clash in battles over freedom of expression and family values, a flash point best illustrated here by AOL's fight against the Communications Decency Act. Re-creating all of the major moments in AOL's frenzied history, aol.com is a fascinating and important inside story about the birth of a new medium, the enterprising innovators who are leading it, and the way it is changing our culture.

*There Must Be a Pony in Here Somewhere* Kara

Swisher, 2003-10-14 "AOL had found itself at the edge of disaster so frequently that one of its first executives, a brassy Vietnam veteran and restaurateur named Jim Kimsey, had taken the punch line of an old joke popularized by Ronald Reagan and made it into an unlikely mantra for the company. It concerned a very optimistic young boy who happened upon a huge pile of horse manure and began digging excitedly. When someone asked him what he was doing covered in muck, the foolish boy answered brightly, 'There must be a pony in here somewhere!'" —From the Prologue If you're wondering what happened after "a company without assets acquired a company without a clue," as Kara Swisher wryly writes, it's time to crack open this trenchant book about the doomed merger of America Online and Time Warner. On a quest to discover how the deal of the century became the messiest merger in history, Swisher delivers a rollicking narrative and a keen analysis of this debacle that is a must-read for anyone who wants to understand what it all means for the digital future. Packed with new revelations and on-the-record interviews with key players, it is the first detailed examination of the merger's aftermath and also looks forward to what is coming next. It certainly has not been a pretty picture so far—with \$100 billion in losses, a sinking stock price, employees in revolt, and lawsuits galore. As Swisher writes, "It is hard not to feel a bit queasy about the whole sorry mess. . . . It felt a bit like I was watching someone fall down a flight of stairs in slow motion, and every

bump and thump made me wince. It made me reassess old ideas and wonder what I had gotten wrong. And it left me deeply confused as to what had happened and, more important, what was coming next." For Swisher, finding the answers to what went awry is important because she remains a staunch believer in the digital future—maybe not in the AOL Time Warner merger, but in the essential idea at the heart of it that someday the distinction of old and new media will no longer exist. Borrowing from Winston Churchill, Swisher calls it "the end of the beginning" of the digital revolution. "By that, I mean that it is from the ashes of this bust that the really important companies of the next era will emerge. And that evolution will, I believe, be shaped by what happened—and what is happening now—at AOL Time Warner." To figure it all out, Swisher takes her reader on a journey that begins with a portrait of two wildly different corporate cultures and businesses that somehow came to believe, in the crucible of the red-hot Internet era, that they could successfully join forces and achieve unprecedented growth and success. When the merger was announced in early 2000, the irresistible combination was hailed as the new paradigm and its executives—Steve Case, Jerry Levin, Bob Pittman—as popular icons of the future. But after the boom so spectacularly turned to bust and the visions of New Media Supremacy lay in ruins, Swisher searches for clues about where the merger went wrong and who is to blame. More important, she looks to the future of both AOL Time Warner and the Internet as she seeks to answer the key question that the noise of the disaster has all but drowned out. Will the demise of the AOL Time Warner merger be the final and inevitable chapter of the dot-com debacle or will it herald a new paradigm altogether? This book, then, is a primer for the time to come, using the story of the AOL Time Warner merger as the vehicle to show the troubled journey into the future.

AOL Paul Durand Degranges, 2001

**Summary: AOL.com** BusinessNews Publishing, 2013-02-15

The must-read summary of Kara Swisher's book: AOL.com: How Steve Case Beat Bill Gates, Nailed the Netheads and Made Millions in the War for the Web. This complete summary of the ideas from Kara Swisher's book AOL.com tells the story of Bill Von Meister and Steve Case and how they created AOL. In this book, the author explains how the company was built on the shaky foundations of the declining gaming industry, working fiercely against all odds and the technical slip ups which put them out of favor. But there was one thing they did exceedingly well, thanks to the guidance of their marketing executive Steve Case. AOL focused on communications, community and clarity - three areas which would enhance their users' online environments and their interaction with each other. This summary concludes with a useful list of the factors that led to AOL's success, as well as providing an insight into the challenges that it faces in the current market. Added-value of this summary: • Save time • Understand key concepts • Expand your knowledge To learn more, read AOL.com and discover the story behind this breakthrough company.

Get Your Family on AOL 5 in a Weekend Lisa Bucki, 1999 This project-oriented guide is designed to get your family up and running on AOL before the weekend is over. It's simple; just follow the weekend sessions and soon you'll discover how to maximize all the best features AOL has to offer! By the end of the weekend, your entire family will be navigating AOL like pros. Book jacket.

AOL 4 Quick Reference Gene Steinberg, 1999 American Online 4 Quick Reference delivers a valuable and convenient source of information on using common AOL 4 features. Lay-flat binding and highly visible design make this quick reference

extremely simple to use.

**AOL Keywords** Jennifer Marx, 1997 In spite of its problems, America Online is by far the largest commercial network, with a base of more than 8 million subscribers. One of the things that makes AOL so successful is its top-down organization -- unlike the vast, chaotic, and amorphous Internet, AOL actually is controlled by a central administration that organizes and categorizes the information available to its subscribers. And one of the best ways to mine this information, and get to where you want to go quickly and accurately, is to use keywords. This new edition of AOL Keywords contains more than 1500 new entries, and almost 7000 total, organized alphabetically, by channel and topic, and by online communities. Also included are lists of the hot, new, and most important keywords -- a real benefit to the AOL newcomer.

**AOL Keywords** Jennifer Marx, Jennifer Watson, 1996 A time-saving assistant provides information on the most important and most popular keywords currently appearing on America Online and offers tips on how to access desired sites in a minimum of time. Original. (Beginner).
