Where the Hell Is Tesla? a Novel Rob Dircks,2015-01-16 I found the journal at work. Well, I don't know if you'd call it work, but that's where I found it. It's the lost journal of Nikola Tesla, one of the greatest inventors and visionaries ever. Before he died in 1943, he kept a notebook filled with spectacular claims and outrageous plans. One of these plans was for an Interdimensional Transfer Apparatus--That allowed someone (in this case me and my friend Pete) to travel to other versions of the infinite dimensions that make up the multiverse. Crazy, right? But that's just where the crazy starts. [back cover].

Spectral Line Shapes Joachim Seidel,2001-04-27 The biennial ICSLS conferences review the most recent theoretical and experimental advances in both fundamental and applied work dealing with the formation of spectral line profiles. Topics discussed in these proceedings include dense plasmas, hydrogen plasma broadening and asymmetry.

You're Going to Mars! Rob Dircks,2019-04-22 Living and slaving in Fill City One, you get used to the smell. We call it the Everpresent Stink. But every once in a while, on a spring day with a breeze, it clears away enough to remind us that there is something more out there. Most Fillers' wildest dreams would be just to get past the walls and live in the mainland. But my dream? It's a little bigger. I'm going to Mars. Well, I'm only going to Mars if I can find a winning Red Scarab to get on Zach Larson's crazy reality show. And then I'll have to figure out how to escape this hellhole. And then compete on live television for three months. And somehow win a spot on the crew of the very first manned mission to Mars. Oh, and one more slight obstacle? There might be a reason that by 2085 a human still hasn't set foot on the Red Planet. A dangerous reason. A reason worth killing for. In **You're Going to Mars!** Rob Dircks, Audible best-selling author of *Where the Hell Is Tesla?*, creates a near-future filled with family (the good kind and the insufferable kind), pop divas, mobsters, and the world's first trillionaire - and sends them all on a science fiction odyssey/comedy/love story/adventure that will change their world forever.

The Wrong Unit Rob Dircks,2016-07-04 I don't know what the humans are so cranky about. Their enclosures are large, they ingest over a thousand calories per day, and they're allowed to mate. Plus, they have me. An Autonomous Servile Unit, housed in a mobile/bipedal chassis. I do my job well: keep the humans healthy and happy. Hey you. Heyoo. That's my name, I suppose. It's easier for the humans to remember than 413s98-itr8. I guess I've gotten used to it.*** Rob Dircks, bestselling author of *Where the Hell is Tesla?*, has a unit with a problem: how to deliver his package, out in the middle of nowhere, with nothing to guide him. Oh, and with the fate of humanity hanging in the balance. It's a science fiction tale of technology gone haywire, unlikely heroes, and the nature of humanity. (Woah. That last part sounds deep. Don't worry, it's not.) ***

Unleash the Sloth! 75 Ways to Reach Your Maximum Potential by Doing Less Rob Dircks,2012-07-26 It's the self-help book you've always wanted. The one that tells you're fine just the way you are - and that you can probably get away with doing even less. It sounds like a paradox, I know. But just look at the mighty sloth, who makes no excuses for who he is - and becomes everything he needs to be. And now it's your turn. Take a nap instead of mowing the lawn. Save yourself a few steps and jaywalk. Save yourself a few pen strokes and replace your signature with an X. Make life easier, and you'll find that you'll be just as lovable, productive or unproductive as you would've been anyway - but without all the unnecessary stress and guilt. Now THAT'S what I call reaching your potential!

The Sixth Station Linda Stasi,2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when

ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

The Routledge Handbook of Language, Gender, and Sexuality Jo Angouri, Judith Baxter, 2021-04-26 Shortlisted for BAAL (British Association for Applied Linguistics) Book Prize 2022 The Routledge Handbook of Language, Gender, and Sexuality provides an accessible and authoritative overview of this dynamic and growing area of research. Covering cutting-edge debates in eight parts, it is designed as a series of mini edited collections, enabling the reader, and particularly the novice reader, to discover new ways of approaching language, gender, and sexuality. With a distinctive focus both on methodologies and theoretical frameworks, the Handbook includes 40 state-of-the art chapters from international authorities. Each chapter provides a concise and critical discussion of a methodological approach, an empirical study to model the approach, a discussion of real-world applications, and further reading. Each section also contains a chapter by leading scholars in that area, positioning, through their own work and chapters in their part, current state-of-the-art and future directions. This volume is key reading for all engaged in the study and research of language, gender, and sexuality within English language, sociolinguistics, discourse studies, applied linguistics, and gender studies.

Mozart in Vienna Simon P. Keefe, 2017-09-21 Mozart's greatest works were written in Vienna in the decade before his death (1781-1791). This biography focuses on Mozart's dual roles as a performer and composer and reveals how his compositional processes are affected by performance-related concerns. It traces consistencies and changes in Mozart's professional persona and his *modus operandi* and sheds light on other prominent musicians, audience expectations, publishing, and concert and dramatic practices and traditions. Giving particular prominence to primary sources, Simon P. Keefe offers new biographical and critical perspectives on the man and his music, highlighting his extraordinary ability to engage with the competing demands of singers and instrumentalists, publishing and public performance, and concerts and dramatic productions in the course of a hectic, diverse and financially uncertain freelance career. This comprehensive and accessible volume is essential for Mozart lovers and scholars alike, exploring his Viennese masterpieces and the people and environments that shaped them.

E-Business Essentials Nick Bontis, 2004-09-01 This special issue of QJEC marks the final instalment of the journal. The QJEC has had a long-standing history of international scholarship focused on the emerging field of electronic commerce with a broad, interdisciplinary approach. It has established the field's intellectual foundation with state-of-the-art research from business, computer science, engineering, law, psychology, and sociology. This particular issue focuses on an eclectic group of papers that are international in scope with authors from Canada, Australia, France, Germany, South Africa and Italy. The papers range in topics from valuing dot com companies, to mobile health and portals, to supply chain management.

Listen to the Signal Rob Dircks, 2019-02 Like episodes of *The Twilight Zone* or *The Outer Limits*, the sixteen stories contained in *Listen To The Signal*, Short Stories Volume 1 ask questions like, What would happen if an iPhone game was addictive - to everyone? and Are we all living inside a simulation? And if so, who's running it? and When a pilot has to emergency land in a remote town near Area 51 what does he find? Hi, Rob Dircks here. I'm the Audible bestselling author of *Where the Hell is Tesla?*, and I've been writing and narrating these stories since 2016 on my podcast,

Listen To The Signal. But now I've made them available ONLY here in this book. They include: Dakō - Today I Invented Time Travel - End Game - November 8, 2016 - Quick Fix - Horatio Breathed His Last - Purgatory - Out of the Blue - Tick Tick Tick - Rose - Red Parka - Bloop - Their DNA Was No Longer the Same - The Last One - Mister Personality - Christmas in Silver Peak. Back when I started this project, I was thinking what the heck, writing some short stories will keep me fresh, let me try things I might not try otherwise, act as a sort-of sketch book of my story ideas: the funny, the weird, the scary, the sappy, and sometimes all of that mashed up together. Well, two years later, I had no idea how proud I would be of this body of work, and how genuinely psyched I am to be sharing these stories with you in this format. I probably shouldn't pump up the hype too much, and let you decide on your own, but man, going through these again for production, I felt like a proud papa, gathering up all my little babies, or like I was collecting a bag of gems. Wow, I just wrote bag of gems in all seriousness, like it's a totally everyday phrase, like I might find myself out on horseback in some medieval European country and have the need to reach into my little leather sack for a gem to purchase an entire village. Anyway, it feels like a bag of gems to me, and I hope it does to you, too. P.S. Your enjoyment of these short stories doesn't end with this book! I'll continue to write more and publish them first free on the Listen To The Signal podcast, I try to do one a month (but you know how that goes). And if you'd like to be reminded when they come out, you can sign up for my very occasional and not-at-all spammy email newsletter at ListenToTheSignal.com or RobDircks.com. P.P.S. The introduction music and some of the individual story music snippets were composed and performed by Danny Greenlees, and used with his permission. You can find his music at zebfrinar.bandcamp.com.

Apocalypse Jacques Ellul, 2020-05-05 “There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.

Shaper #2 Eric Heisserer, 2013-12-11 **Heroes shape the future** Eighteen-year-old Spry has just learned that he is a member of the hunted race of shape shifters known as Shapers and that his newfound parents have been captured by the all-powerful Caliphate. Determined to rescue his parents, Spry discovers that the best bounty hunter in the galaxy owes his mom a favor . . . * _Nightmare on Elm Street_ screenwriter Eric Heisserer brings his cinematic vision to comics! * In the tradition of Arthurian legends and _Star Wars_.

Ray Bradbury Robin Anne Reid, 2000-09-30 Reviewers and critics have not always agreed on how well the science fiction label fit Ray Bradbury, but the immense popularity of works like *The Martian Chronicles* and *The Illustrated Man* leaves no doubt as to the enduring status of this important writer. This Critical Companion examines, in a Literary Heritage chapter, the situation of Bradbury's works within the science fiction genre and explores thematic concerns that set works like *Fahrenheit 451* and *Dandelion Wine* apart from conventional popular SF writings. This introduction to Bradbury, written especially for students, traces Bradbury's interesting life, examining his early literary efforts, his forays into Hollywood, and his recent writing projects. Eight of Bradbury's major works are discussed at length, each in its own chapter, including two works published within the last ten years: *A Graveyard for Lunatics* (1990) and *Green Shadows, White Whale* (1992). Clear, thoughtful analysis is also given for *The Martian Chronicles*, *The Illustrated Man*, *Something Wicked This Way Comes*, and *Death Is a Lonely Business*. In each chapter, analysis of the important literary components is given: plot, setting, characters, and themes. In addition, the genesis, critical reception, and an alternate reading of each work is also discussed in clear terms for students and general readers. Suggestions for further reading on Bradbury and his writings are also provided in a select yet extensive bibliography. This volume is ideal both for students reading Bradbury for the first time and for dedicated Bradbury fans who wish to appreciate his work with a deeper critical perspective.
