Another Now Yanis Varoufakis,2021-09-14 What would a fair and equal society actually look like? The world-renowned economist and bestselling author Yanis Varoufakis presents his radical and subversive answer in a work of speculative fiction that recalls William Morris and William Gibson The year: 2035. At a funeral for Iris, a revolutionary leftist feminist, Yango is approached by Costa, Iris's closest comrade, who urges him to carry out Iris's last wish: plough into her secret diaries to tell their story. "But", Costa insists "leave out anything that might help Big Tech replicate my technologies!" That night Yango delves into Iris's diaries. In them he discovers a chronicle of how Costa's revolutionary technologies had unveiled an actually existing, fully democratized, postcapitalist society. Suddenly he understands Costa's obsession with the hackers trying to steal his secrets. So begins Yanis Varoufakis's extraordinary novelistic thought-experiment, where the world-famous economist offers an invigorating and deeply moving vision of an alternative reality. Another Now tells the story of Costa, a brilliant but deeply disillusioned, computer engineer, who creates a revolutionary technology that will allow the user a "glimpse of a life beyond their dreams" but will not enslave them. But an accident during one of its trial runs unveils a cosmic wormhole where Costa meets his DNA double, who is living in a 2025 very different than the one Costa is living in. In this parallel 2025 a global hi-tech uprising, begun in the wake of the collapse of 2008, has birthed a post-capitalist world in which work, money, land, digital networks and politics have been truly democratized. Banks have been eliminated, as well as predatory, data-mining digital monopolies; the gig economy is no more; and the young are free to experiment with different careers and to study "non-lucrative topics, from Sumerian pottery to astrophysics." Intoxicated, Costa travels to England to tell Iris, his old comrade, and her neighbor, Eva, a recovering banker turned neoliberal economics professor, of the parallel universe he has discovered. Costa eventually leads them back to his workshop in America where Iris and Eva meet their own doubles, and confront hard truths about themselves and the daunting political challenge that the Other Now presents. But, as their obsession with the Other Now deepens, time begins to run out, as the wormhole begins

to deteriorate and hackers begin to unleash new attacks on Costa's technology. The trio have to make a choice: which 2025 do they want to live in? Varoufakis has been claiming for a while that we already live in postcapitalist times. That, since the 2008 crisis, capitalism has been morphing into technofeudalism. Another Now, a riveting work of speculative fiction, shows that there is a realistic, democratic alternative to the technofeudalpostcapitalist dystopia taking shape all around us. It also confronts us with the greatest question: how far are we willing to go to bring it about?

Three Pianos Andrew McMahon, 2021-10-26 From beloved indie musician Andrew McMahon comes a searingly honest and beautifully written memoir about the challenges and triumphs of his life and career, as seen through the lens of his personal connection to three pianos. Andrew McMahon grew up in sunny Southern California as a child prodigy, learning to play piano and write songs at a very early age, stunning schoolmates and teachers alike with his gift for performing and his unique ability to emotionally connect with audiences. McMahon would go on to become the lead singer and songwriter for Something Corporate and Jack's Mannequin, and to release his debut solo album, Andrew McMahon in the Wilderness, in 2014. But behind this seemingly optimistic and quintessentially American story of big dreams come true lies a backdrop of overwhelming challenges that McMahon has faced—from a childhood defined by his father's struggle with addiction to his very public battle with leukemia in 2005 at the age of twenty-three, as chronicled in the intensely personal documentary Dear Jack. Overcoming those odds, McMahon has found solace and hope in the things that matter most, including family, the healing power of music and the one instrument he's always turned to: his piano. Three Pianos takes readers on a beautifully rendered and bitter-sweet American journey, one filled with inspiration, heartbreak, and an unwavering commitment to shedding our past in order to create a better future.

Brian Eno's Another Green World Geeta Dayal, 2009-11-01 The serene, delicate songs on Another Green World sound practically meditative, but the album itself was an experiment fueled by adrenaline, panic, and pure faith. It was the first Brian Eno album to be composed almost completely in the confines of a recording studio, over a scant few months in the summer of 1975. The album was a proof of concept for Eno's budding ideas of the studio as musical instrument, and a signpost for a bold new way of thinking about music. In this book, Geeta Dayal unravels Another Green World's abundant mysteries, venturing into its dense thickets of sound. How was an album this cohesive and refined formed in such a seemingly ad hoc way? How were electronics and layers of synthetic treatments used to create an album so redolent of the natural world? How did a deck of cards figure into all of this? Here, through interviews and archival research, she unearths the strange story of how Another Green World formed the link to

Eno's future -- foreshadowing his metamorphosis from unlikely glam rocker to sonic painter and producer.

Politics: Another Perspective Wilmer J. Leon III Ph.D., 2016-08-31 Over the past 8 years there have been significant shifts in the American political landscape. The election of Senator Barack Obama as America's 44th and first African American president signaled a giant leap forward in the American social, cultural, and political landscape. It has taken America 219 years to reach this point. Based upon Senator Obama's campaign promises many people looked forward to a more transparent and inclusive government. Others saw this election as a signal of a new post-racial America, but America has always been a country in conflict. As many basked in the comfort of Obama's historic election, others feared its backlash. History tells us that white supremacy dies hard in America and its proponents would not take America's victory lying down. The bigoted rants of the Tea Party and the ultra-right wing's obstructionist agenda have resulted in a political stalemate unlike any other in recent American history. These reactionary politics coupled with the Democratic Party and Obama Administration's inability to articulate an effective counter-narrative and employ effective countermeasures has left America in a political abyss. *Politics Another Perspective: Analysis of Race, War, Ethics and the American Political Landscape in the Age of Obama* is a collection of Op Ed's written by Wilmer J. Leon, III, Ph.D. As a collection, these writings provide cutting edge analysis of the various issues that influenced the American geopolitical landscape since 2006 and insight into the direction that the country is headed. "Wilmer Leon is one of the few Black prophetic voices in the age of Obama. This book confirms this status - courageous, visionary and consistent!" -Dr. Cornel West Dr. Wilmer Leon has assembled a collection that asks the right questions about race and democracy. In an era when too many are silenced for fear of rocking the boat of the status quo, Wilmer Leon has signaled his willingness to go out on a limb and speak truth to power. Bravo! -Dr. Julianne Malveaux, Economist and Author *Are We Better Off: Race, Obama and Public Policy*.

In Another Time Michael E. Tessier, 2007-05 There are no paradoxes in time, only looped back versions of history we call alternate realities. Under the sands of Egypt and near the Sphinx, two amateur archeologists make a most unexpected find. Instead of a Pharaoh's tomb, they uncover an ancient, dust-choked room filled with books, computers and modern equipment. The tomb is least five thousand years old. Slowly, the young spelunkers unravel the mystery of the apparent paradox. They also discover a working Time Machine. Time itself has taken an alternate

course. The powerful European Trade Confederation bullies a depressed, non-nuclear United States. The British Empire controls their colonial possessions with an iron fist. Time for the young discoverers is running out. Global events are slowly colliding where retaining the secret of their discovery is almost impossible. A race develops to get the secrets of time travel out of the country.

There Is Another Life! Mattie Cody, 2013-07 *There Is Another Life!* is a compelling and revealing journey of a mother's encounter with signs and wonders beyond the scope of imagination. It answers the hard questions we ask, after the loss of a child and or love ones. It will give hope to the hopeless and strength to those without strength. It is a true in depth experience of a woman after being plunged into a place of grief, sorrow and devastating despair, only to rise to a place of hope, understanding and reconciliation knowing the truth concerning life after death, both spiritual death and physical death, after tragic murder of her only son. Engulfed in darkness, shattered in pieces my heart slivered I was propelled into a dark and dreary grave, but through this miraculous journey from victim to victor to victory. I've seen a glimpse into another life changed my life forever. Grief no longer holds me captive.

Tales From Another Dimension Robbie Sheerin, 2021-12-03 How will HG Wells react when he awakes 200 years in the future on a strange planet, faced with a terrible truth? Two young brothers make a frightening discovery about the neighbors. Do robots secretly want to rule us all? A scientist goes to extremes to change the future of mankind. But is it possible to change our destiny? *Tales from another dimension* is a strange and fantastical collection of ten short stories. Robbie Sheerin is inspired by classic Sci-fi, invoking nightmarish twists and turns with each story. Travel to another dimension and meet strange characters, sometimes human, and at times not so human. They will make you question the solidity of the earth and mankind. Explore prejudice, fear, imagination, kindness, empathy, and human frailty. *The Truth Comes in Storms* is wonderfully evocative -and the twist caught me completely unawares. Sheerin is a writer to keep an eye on! - Rob Yescombe. Writer of the movie *Outside the Wire* These stories are strong echoes of the classic science fiction of the 1950's, and bring back fond memories of the Twilight Zone.-Noel Chidwick. Founder and editor of the award winning sci-fi magazine *Shoreline of Infinity*Sheerin's Sci-if shorts engage the mind and senses with dread and wonder at the same time. What happens on the moon....stays on the moon, even it's from different planets.- ARZONO Publishing With a voice of clarity and surprise, Robbie Sheerin is well worth the quick and wondrous read each of his stories provides, the insight into our humanity (or inhumanity) they present, and the lasting impression they leave. Indulge and entertain yourself! - Jason J. Marchi, author of *Venus Remembered* with Ray Bradbury and the Barnes & Noble recognized bestseller *The Legend of Hobbomock: The Sleeping Giant*. Robbie Sheerin's insightful story *The Protector* is a chilling tale that underscores humanity's most troubling shortcomings. At its core, it reminds us that we must remain open-minded and compassionate toward those who are not like us or suffer the consequences..... ...*The Future You Imagine, Doctor, Is Not The Future Of The Future* is inventive and imaginative. In my opinion, all tales about our future should be appropriately apocalyptic. They should shake the foundations of our hopes and dreams- Leith MacArthur, author of *The Death of Harry Crow*, from *The William Snow Series of thrillers*.

Glimpses of Another Land Eric Miller, 2012-08-16 In *Glimpses of Another Land*, Eric Miller takes the reader across the American landscape in quest of insight into our times. An age featuring 9/11 as its defining moment surely requires probing reflection and judgment. Here Eric Miller, with an

alert eye and keen voice, provides both.
