Private Pesticide Applicator Reference Manual University of Missouri--Columbia. Extension Division. Pesticide Applicator Training,2007 This manual is meant to be used as a training aid for private applicators who wish to be certified to apply restricted use pesticides. This manual includes much information about the effects of pesticides and how to ensure that they can continue to be used for the benefit of society with a minimum of risk to either people or the environment. All pesticide applicators should be familiar with the information in this manual to be able to handle and apply all pesticides in a safe and efficient manner.

Non-Soil Fumigation: A Pesticide Applicator Study Guide ,2023-08-10 This study manual will prepare individuals for the Department of Pesticide Regulation's (DPR's) commercial applicator Non-Soil Fumigation category (Category M) examination. Fumigants are a type of pesticide with unique physical and chemical characteristics. Fumigants are gases, or turn into gases, after application. Fumigants may be odorless and usually cannot be seen. DPR's Non-Soil Fumigation category is intended for individuals who perform pest control using a pesticide labeled as a fumigant. This category does not include structural pest control required to be licensed under Chapter 14 (commencing with Section 8500) of Division 3 of the Business and Professions Code. This study manual covers important aspects of pesticides used for non-soil fumigations. However, the study manual is not a substitute for reading and understanding the label of the specific fumigant product you will be using. Thoroughly read the label prior to purchase and application. Each chapter ends with review questions. After reading each chapter, test your understanding of the information presented in the chapter by answering the review questions. The review questions are similar to those that will be on the exam.

Dry Borax Applicator Dick Karsky,1999 Describes installation and operation of a dry borax

applicator designed by the Missoula Technology and Development Center. The applicator is attached to the back of the saw head of a feller-buncher. The applicator allows the operator to apply dry borax to a stump immediately after cutting a tree. Borax can reduce the incidence of annosum root rot, a fungus that spreads as spores land on freshly cut stumps.

Pesticide Safety: A Reference Manual for Private Applicators – 3rd Edition Shannah M. Whithaus,Lisa A. Blecker,2021-10-01 This manual covers information essential for anyone using pesticides on California farms, including growers, managers and employees in an easy-to-use format; now with color photographs and illustrations. Read this book carefully to prepare for the Private Applicator Certification test. DPR uses this test to certify farm owners, leaseholders, and managers who may have to purchase restricted materials, as well as farm employees who supervise pesticide handlers or will be training handlers and fieldworkers to work safely around pesticides. A list of knowledge expectations (descriptions of what you should know after reading the chapter) are given at the beginning of each chapter to guide you as you study. Individual knowledge expectations appear alongside relevant content throughout each chapter, which will help you focus on the information that is most likely to appear on the examination. Covers pesticide labels, worker safety (handlers and fieldworkers), how to mix and apply pesticides, calibration, the hazards of pesticide use including heat related illness, and pesticide emergencies. Presents an overview of integrated management principles. An appendix includes sample training forms for pesticide handlers and fieldworkers.

Applying Pesticides Correctly Sally A. McDonald,1993-10-01 This manual is for agricultural pesticide applicators who wish to become certified as private applicators of restricted-use pesticides under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act. It is a supplement to the 1991 revision of the national core training manual *Applying Pesticides Correctly -- A Guide for Private and Commercial Applicators*. This material has been taken from earlier editions of the national core training manuals, but has been updated and expanded to reflect changes in technology and to offer private applicators the depth of knowledge necessary to cope with the increasing complexity of pesticide use. Consists of 5 units, or modules, that include learning objectives and review Q and A.
