Gateway to Arabic Imran Hamza Alawiye,2001 Introduces the learner to a range of Arabic vocabulary grouped according to subject, including items within the home and school, animals, shapes, fruit and vegetables, and others. This work also provides learners with a basic knowledge of Arabic grammar, enabling them to take their first steps in understanding and using non-verbal sentences.

The Rise of the Arabic Book Beatrice Gruendler,2020-10-13 The little-known story of the sophisticated and vibrant Arabic book culture that flourished during the Middle Ages. During the thirteenth century, Europe's largest library owned fewer than 2,000 volumes. Libraries in the Arab world at the time had exponentially larger collections. Five libraries in Baghdad alone held between 200,000 and 1,000,000 books each, including multiple copies of standard works so that their many patrons could enjoy simultaneous access. How did the Arabic codex become so popular during the Middle Ages, even as the well-established form languished in Europe? Beatrice Gruendler's *The Rise of the Arabic Book* answers this question through in-depth stories of bookmakers and book collectors, stationers and librarians, scholars and poets of the ninth century. The history of the book has been written with an outsize focus on Europe. The role books played in shaping the great literary cultures of the world beyond the West has been less known-until now. An internationally renowned expert in classical Arabic literature, Gruendler corrects this oversight and takes us into the rich literary milieu of early Arabic letters.

Two Arabic Travel Books Abū Zayd al-Sīrāfī,Aḥmad ibn Faḍlān,2014-12-08 In its ports, we find a priceless cargo of information; here are the first foreign descriptions of tea and porcelain, a panorama of unusual social practices, cannibal islands, and Indian holy men--a marvelous, mundane world, contained in the compass of a novella. In *Mission to the Volga*, we move north on a diplomatic mission from Baghdad to the upper reaches of the Volga River in what is now central Russia. This colorful documentary by Ibn Fadlan relates the trials and tribulations of an embassy of diplomats and missionaries sent by caliph al-Muqtadir to deliver political and religious instruction to the recently-converted King of the Bulgars. During eleven months of grueling travel, Ibn Fadlan records the marvels he witnesses on his journey, including an aurora borealis and the white nights of the North. Crucially, he offers a description of the Viking Rus, including their customs, clothing, tattoos, and a striking account of a ship funeral.

It focuses on new fields of study and professional practice, such as community translation and interpreting, and offers fresh insights into the relationship between culture, translation and interpreting. Chapters discuss issues relating specifically to Arabic and the Arab cultural context and contribute views, research findings and applications that come from a language combination and a cultural background quite different from traditional Eurocentric theoretical and professional positions. This volume is a significant addition to resources on Arabic translation and interpreting and contributes fresh perspectives to translation studies in general. It is of interest to students, researchers and professionals working in public service, community, legal, administrative and healthcare translation and interpreting, as well as intercultural communication and translator education.

Pidginization and Creolization Kees Versteegh,C. H. M. Versteegh,1984 This book is concerned with the notions of "pidginization" and "creolization" and the role of these processes of language learning in the history of the Arabic language. It is argued that when a new type of Arabic emerged after the Islamic conquests in the 7th century AD, the language went through these processes, as can be concluded from the sociolinguistic context of the period. The radical changes in the language that led to the development of the modern dialects are then seen as the result of pidginization and creolization. Data from the dialects are compared with phenomena in pidginized/creolized languages, and suggestions are given for the application of this framework to the history of other languages.

Arabic Grammar and Linguistics Yasir Suleiman,1999 This book explores aspects of the Arabic Grammatical Tradition and Arabic Linguistics from both a theoretical and descriptive perspective. It also touches on issues of relevance to other disciplines, particularly Qur'anic exegesis and jurisprudence. The links between the fields of language and religion are historically strong in the Arabic and Islamic traditions as so much time and effort was spent by grammarians in interpreting the precise meanings of two of the main sources of Islamic jurisprudence - the Quran and Hadith. Prof Suleiman has assembled an international team of experts in this area and presents a thorough review of the sources and arguments. The book will be of interest to all students, researchers and teachers of Arabic Language and Culture.
