New Insights and Controversies in Diagnosis and Treatment of Adult Growth Hormone Deficiency Antonio Mancini, Luca Persani, Maura Arosio, Ilonka Kreitschmann-Andermahr, 2023-06-19 Adult growth hormone deficiency (aGHD) is the clinical expression of a reduced GH secretion caused by congenital or acquired diseases affecting the hypothalamus-pituitary axis. Once considered a rare clinical disorder, its prevalence is apparently increasing. Nevertheless, due to the subtle clinical manifestations, aGHD could be still underestimated. Thirty years of experience with recombinant GH (rh-GH) clearly indicate the beneficial effects of replacement therapy with amelioration of metabolic and inflammatory parameters, body composition, endothelial function, quality of life, and reduction of cardiovascular risk. Furthermore, the world of GH and aGHD is rapidly enriching: new information on GH physiology, regarding its metabolic role and pleiotropic activities, is spreading, thus even making inappropriate the same name of "growth hormone". The definition of "functional" and "partial" aGHD is still unclear and debated, although data about partially impaired GH secretion showed alteration of some metabolic and clinical parameters associated with cardiovascular risk. Current guidelines about GHD diagnosis and treatment have been elaborated, but many questions remain debated. New tests for diagnosis have recently been proposed, and non-conventional indications for diagnosis and treatment deserve further investigations. Controlled trials on the beneficial effects on morbidity and mortality are still lacking and new formulations of GH are under investigation. Several questions are related to the age of affected patients (from transition age to ageing) and no indications are available on how long the therapy should be considered. Other concerns are related to a possible pro-oncogenic effect, especially in patients who develop the deficiency after a removal of a hypothalamic-pituitary tumor. The interrelations with other pituitary axes need further clarification since isolate GHD and multiple pituitary deficiencies may have a different spectrum of manifestation. The aim of this Research Topic is to furnish deeper insight to questions related to aGHD: from molecular pathways involved in the pathophysiology to diagnostic tools and replacement therapy.

Species Imperative Julie E. Czerneda, 2014-09-02 Dr. Mackenzie Connor's goal in life is to be left in peace to study salmon. The only cloud on Mac's horizon is having to meet with the Oversight Committee to defend research intrusions in protected zones. But what Mac wants doesn't matter. There's a darker migration underway, across space. What created the Chasm has awakened to follow its need to feed on living worlds.

Migration Julie E. Czerneda, 2006-04-04 Senior co-administrator of the Norcoast Salmon Research Facility, Dr. Mackenzie Connor was a biologist who studied the spawning habits of salmon. Then, last season, just as she and Dr. Emily Mamani were starting their research, they were interrupted by the arrival of Brymm, the first Dhryn to set foot on Earth. And suddenly everything changed for Mac, Emily, Brymn, the human race, and all the member races of the Interspecies Union. Base was attacked, Em was kidnapped by the mysterious Ro, and Mac and brymn had to flee

for their lives to the Dhryn home world. What should have been Earth's best hope--an attempt to forge an alliance with the Dhryn against the Ro--went horribly wrong. Mac nearly lost her life, and the peaceful, isolationist Dhryn abandoned their world, hurtling out on an unfathomable path of destruction through civilized space. Now the members of the IU feel the only hope of stopping the Dhryn is to contact the Ro and ask for help. But no one knows how to accomplish that. As the enemy destroys life on planet after planet, the IU organizes a secret Gathering of every being with information on the Dhryn. With the data available there, Mac begins to suspect that the Dhryn may not be ruthless destroyers. Their actions may be a response to something simpler and more deadly--the imperative to migrate. But even if Mac is right, can she and her team discover why this is happening and how to halt the Dhryn?

A Concordance to the French Poetry and Prose of John Gower R. F. Yeager, Mark West, Robin L. Hinson, 2012-01-01 That the poet John Gower was a major literary figure in England at the close of the fourteenth century is no longer in question. Scholarly attention paid to him and to his work over the past twenty- five years has redeemed him from an undeserved obscurity imposed by the preceding two hundred. The facts of his life and career are now documented, and recent critical assessment has placed his achievement most accurately alongside Chaucer's, Langland's, and the Gawain- poet's. Unique among his contemporaries, all of whom undoubtedly read and used French in some measure, Gower alone has left us a significant body of verse and prose in Anglo-Norman; chiefly, the twelve-stanza poem *Mirour de l'Omme*, the *Cinkante Balades*, and the *Traitié pour les amantz marietz*. We are offered in this concordance of his Anglo- Norman work a unique opportunity to view a poetic language as it was written and read in England until Gower's death in 1408 and beyond.

The Washingtons. Volume 7, Part 1 Justin Glenn, 2016-08-19 This is the seventh volume of Dr. Justin Glenn's comprehensive history that traces the "Presidential line" of the Washingtons. Volume one began with the immigrant John Washington, who settled in Westmoreland Co., Va., in 1657, married Anne Pope, and became the great-grandfather of President George Washington. It continued the record of their descendants for a total of seven generations. Volume two highlighted notable members of the next eight generations, including such luminaries as General George S. Patton, the author Shelby Foote, and the actor Lee Marvin. Volume three traced the ancestry of the early Virginia members of this "Presidential Branch" back to the royalty and nobility of England and continental Europe. Volumes four, five, and six treated respectively generations eight, nine, and ten. Volume Seven presents generation eleven, comprising more than 10,000 descendants of the immigrant John Washington. Although structured in a genealogical format for the sake of clarity, this is no bare bones genealogy but a true family history with over 1,200 detailed biographical narratives. These strive to convey the greatness of the family that produced not only The Father of His Country but many others, great and humble, who struggled to build that country. Volume Seven, Part One covers the descendants of the immigrant's children Lawrence and John Washington, Jr. Volume Seven, Part Two covers the descendants of the immigrant's child Anne (Washington) Wright.

Rome and The Guidebook Tradition Anna Blennow, Stefano Fogelberg Rota, 2019-04-01 To this day, no comprehensive academic study of the development of guidebooks to Rome over time has been performed. This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century. It is based on the results of the interdisciplinary research project *Topos and Topography*, led by Anna Blennow and Stefano Fogelberg Rota. From the case studies performed within the project, it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance. The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform, with three important points of development: a turn towards a more user-friendly structure from the seventeenth century and onward; the so-called 'Baedeker effect' in the mid-nineteenth century; and the introduction of a personalized guiding voice in the first half of the twentieth century. Thus, the 'guidebook tradition' is an unusually consistent literary oeuvre, which also forms a warranty for the authority of every new guidebook. In this respect, the guidebook tradition is intimately associated with the city of Rome, with which it shares a constantly renovating yet eternally fixed nature.
