The Baby Book William Sears, Martha Sears, 1993-01 The baby bible of the post-Dr. Spock generation, already embraced by hundreds of thousands of American parents, has now been revised, expanded, and brought thoroughly up-to-date -- with the latest information on everything from diapering to day care, from midwifery to hospital birthing rooms, from postpartum nutrition to infant development. Dr. Bill and Martha Sears draw from their vast experience both as medical professionals and as the parents of eight children to provide comprehensive information on virtually every aspect of infant care. Working for the first time with their sons Dr. Bob and Dr. Jim, both pediatric specialists in their own right, the Seares have produced a completely updated guide that is unrivaled in its scope and authority. The Baby Book focuses on the essential needs of babies -- eating, sleeping, development, health, and comfort -- as it addresses the questions of greatest concern to today's parents. The Baby Book presents a practical, contemporary approach to parenting that reflects the way we live today. The Seares acknowledge that there is no one way to parent a baby, and they offer the basic guidance and inspiration you need to develop the parenting style that best suits you and your child. The Baby Book is a rich and invaluable resource that will help you get the most out of parenting -- for your child, for yourself, and for your entire family. Book jacket.

You and Your Baby Frances Thomson-Salo, 2019-07-11 This volume is to help parents understand what their baby is likely to be feeling in the first year. It describes how the baby's sense of self develops, with intentionality, empathy and recognition of the self. It focuses on the baby's subjective experience of the world, viewing the baby as a subject in his or her own right, and in this way makes a unique contribution in the area of understanding the early non-verbal experiences of infants. Each of the authors featured has published papers and books for the academic and clinical communities; the present volumes, however, are specifically aimed at parents.

The intent is not to convince but to inform the reader. Rather than offering solutions, we are describing, explaining and discussing the problems that parents meet while bringing up their children, from infancy through to adulthood.
