**Backdoor to Eugenics** Troy Duster, 2004-03-01 Considered a classic in the field, Troy Duster's *Backdoor to Eugenics* was a groundbreaking book that grappled with the social and political implications of the new genetic technologies. Completely updated and revised, this work will be welcomed back into print as we struggle to understand the pros and cons of prenatal detection of birth defects; gene therapies; growth hormones; and substitute genetic answers to problems linked with such groups as Jews, Scandinavians, Native American, Arabs and African Americans. Duster's book has never been more timely.

*The Backdoor* Will Anderson, 2007-07 Facing inevitable conflict with the West over reunification of Taiwan, China is using its trade surplus to acquire advanced weapons. Ground-based anti-satellite missiles have been demonstrated; space-based missiles follow logically. China hires a Russian firm to help develop a missile platform based on a planned Soviet era spacecraft designed to counter American Star Wars weapons. During development, Russian engineers hide a backdoor in the missile computers. After the missile platform is launched the engineers demonstrate the backdoor by firing a missile at the Space Station, damaging it. Islamic terrorists then pay them to destroy GPS satellites. The navigation system fails with horrific consequences. An angry U.S. destroys the missile platform. The baffled Chinese launch a replacement, threaten massive retaliation if the U.S. attacks. As events unfold, Peter Dime, covert CIA operative, and Heather Young, brilliant and beautiful analyst, lead a team to uncover the truth and prevent armed U.S./China confrontation. Subplots include romance between Dime and Young, plight of the Station astronauts, and terrorist intrigues. Along the way, readers are transported to exciting locales, from Washington to Moscow and Tehran, from California to Beijing and Jakarta. They also gain informative glimpses into the workings of spacecraft, missiles, and unique weapons.

The Backdoor Billionaire's Bride Roz Lee, 2016-04-06 Ford Adams had led a charmed life, but if he doesn't figure out how to make the equivalent of a silk purse out of a sow's ear, and sell a boat-load of them, he and his mother might find themselves flipping burgers. Determined not to let that happen, he'll need all the help he can get—especially from his sexy new business partner. If he can get her to take a chance on his crazy new idea, then maybe he can convince her to take a chance on him. Becky Jean Parker's life has been anything but what she'd imagined it would be, but she'd been content until a recent turn of events once again left her no choice. Unless she wants to wallow in bankruptcy for the rest of her life, she'll have to go along with her new business partner's insane plan and pray he knows what he's talking about. The only thing more insane than Ford's plan to sell sex toys is her attraction to him. Typical of her life, she'd had no choice but to fall for the one man she can't have.

The Song at Your Backdoor Joseph Horgan, 2010-03-03 Taking his backdoor as a starting point, Joseph Horgan explores the natural world. The book spans one autumn and one winter, framed by the departure of the swallows from the author's backyard and concluding with their return. In between, Horgan travels on foot or by bicycle along some still-quiet country lanes of 21st-century rural Ireland. Mingling his observations and thoughts with references from seventh-century poetry to modern geological studies, he encourages us to look again at nature around us and to respect and protect it.
