Back of Beyond C.J. Box, 2011-08-02 Edgar Award-winning and New York Times bestselling author C.J. Box delivers a thriller in Back of Beyond about a troubled cop trying to save his son from a killer in Yellowstone, now reissued with additional bonus content including an introduction from the author. Cody Hoyt, although a brilliant cop, is an alcoholic struggling with two months of sobriety when his friend Hank Winters is found burned to death in a remote mountain cabin. At first it looks like the suicide of a man who’s fallen off the wagon, but Cody knows Hank better than that. As Cody digs deeper into the case, all roads lead to foul play. After years of bad behavior with his department, Cody is in no position to be investigating a homicide, but he will stop at nothing to find Hank’s killer. When clues found at the scene link the murderer to an outfitter leading tourists on a multiday wilderness horseback trip into the remote corners of Yellowstone National Park—a pack trip that includes his son Justin—Cody is desperate to get on their trail and stop the killer before the group heads into the wild. In a fatal cat-and-mouse game, where it becomes apparent the murderer is somehow aware of Cody’s every move, Cody treks into the wilderness to stop a killer hell-bent on destroying the only important thing left in his life. *BONUS CONTENT: This edition of Back of Beyond includes a new introduction from the author and a discussion guide

Bicycling with Butterflies Sara Dykman, 2021-04-13 “What a wonderful idea for an adventure! Absolutely inspired, timely, and important.” —Alistair Humphreys, National Geographic Adventurer of the Year and author of The Doorstep Mile and Around the World by Bike Outdoor educator and field researcher Sara Dykman made history when she became the first person to bicycle alongside monarch butterflies on their storied annual migration—a round-trip adventure that included three

countries and more than 10,000 miles. Equally remarkable, she did it solo, on a bike cobbled together from used parts. Her panniers were recycled buckets. In *Bicycling with Butterflies*, Dykman recounts her incredible journey and the dramatic ups and downs of the nearly nine-month odyssey. We're beside her as she navigates unmapped roads in foreign countries, checks roadside milkweed for monarch eggs, and shares her passion with eager schoolchildren, skeptical bar patrons, and unimpressed border officials. We also meet some of the ardent monarch stewards who supported her efforts, from citizen scientists and researchers to farmers and high-rise city dwellers. With both humor and humility, Dykman offers a compelling story, confirming the urgency of saving the threatened monarch migration—and the other threatened systems of nature that affect the survival of us all.

Lone Wolf Kathryn Lasky, 2011 Abandoned by his pack, a baby wolf with a mysterious mark on his deformed paw survives and embarks on a journey that will change the world of the wolves of the Beyond.

Beyond: Our Future in Space Chris Impey, 2015-04-13 “Expansive and enlightening. . . . Impey packs his prose with wonderful anecdotes and weird factoids.”—New York Times Book Review Human exploration has been an unceasing engine of technological progress, from the first homo sapiens to leave our African cradle to a future in which mankind promises to settle another world. *Beyond* tells the epic story of humanity leaving home—and how humans will soon thrive in the vast universe beyond the earth. A dazzling and propulsive voyage through space and time, *Beyond* reveals how centuries of space explorers—from the earliest stargazers to today's cutting-edge researchers—all draw inspiration from an innate human emotion: wanderlust. This urge to explore led us to multiply around the globe, and it can be traced in our DNA. Today, the urge to discover manifests itself in jaw-dropping ways: plans for space elevators poised to replace rockets at a fraction of the cost;

experiments in suspending and reanimating life for ultra-long-distance travel; prototypes for solar sails that coast through space on the momentum of microwaves released from the Earth. With these ventures, private companies and entrepreneurs have the potential to outpace NASA as the leaders in a new space race. Combining expert knowledge of astronomy and avant-garde technology, Chris Impey guides us through the heady possibilities for the next century of exploration. In twenty years, a vibrant commercial space industry will be operating. In thirty years, there will be small but viable colonies on the Moon and Mars. In fifty years, mining technology will have advanced enough to harvest resources from asteroids. In a hundred years, a cohort of humans born off-Earth will come of age without ever visiting humanity's home planet. This is not the stuff of science fiction but rather the logical extension of already available technologies. *Beyond* shows that space exploration is not just the domain of technocrats, but the birthright of everyone and the destiny of generations to come. To continue exploration is to ensure our survival. Outer space, a limitless unknown, awaits us.

Beyond Control Rebecca York, 2005-08-02 The New York Times bestselling author of the Decorah Security series and dozens of other novels presents a gripping romantic thriller about two people whose intense attraction draws them deeper and deeper into each others' minds—and dangerous secrets... When journalist Jordan Walker asks Lindsay Fleming for help investigating the puzzling death of a local millionaire's son, he tells himself it's her Capitol Hill connections that he needs. But he can't quite forget the singular, intense reaction he had when he touched her hand the first time they met, and Lindsay is still reeling from the vivid dream she had about him that same night. Their need to connect to each other—mentally and physically—is stronger than anything either has ever felt before. As they delve deeper into a complicated web of military and scientific secrets, each new discovery brings more questions about their mysterious bond—and more danger. But they must join

together to uncover the truth about the power that lies at the very heart of their relationship—and fight against the sinister forces who would destroy them... “[Her] books...deliver what they promise: excitement, mystery, romance.” —The Washington Post Book World

The Bridge of Beyond Simone Schwarz-Bart, 2013-08-20 This is an intoxicating tale of love and wonder, mothers and daughters, spiritual values and the grim legacy of slavery on the French Antillean island of Guadeloupe. Here long-suffering Telumee tells her life story and tells us about the proud line of Lougandor women she continues to draw strength from. Time flows unevenly during the long hot blue days as the madness of the island swirls around the villages, and Telumee, raised in the shelter of wide skirts, must learn how to navigate the adversities of a peasant community, the ecstasies of love, and domestic realities while arriving at her own precious happiness. In the words of Toussine, the wise, tender grandmother who raises her, “Behind one pain there is another. Sorrow is a wave without end. But the horse mustn’t ride you, you must ride it.” A masterpiece of Caribbean literature, *The Bridge of Beyond* relates the triumph of a generous and hopeful spirit, while offering a gorgeously lush, imaginative depiction of the flora, landscape, and customs of Guadeloupe. Simone Schwarz-Bart’s incantatory prose, interwoven with Creole proverbs and lore, appears here in a remarkable translation by Barbara Bray.

The Back Of Beyond James Charles Roy, 2009-02-18 James Charles Roy, a noted authority on Irish history and travel, escorts a disparate group of Americans through the lonely backwaters of

ancient Ireland. Visions of a glorious enterprise evaporate as he sees a dejected and weary handful of aged American tourists disembark at Shannon Airport. Fortified by Guinness, Roy hurls himself into sharing with them the joys and wonders of Ireland's twisted byways. Determined to avoid cliché Roy leads his group to obscure Celtic coronation sites, monasteries, and remote abbeys as he spins a narrative that pulls Ireland's chaotic story into coherence. His unsuspecting charges begin to shed their hesitations, relishing their guide's idiosyncratic approach to Ireland. Black comedy aside, Roy touches an emotional chord: how the economic phenomenon known as the Celtic Tiger has transformed Old Ireland into a high-tech power. At the tour's end, Roy embarks alone for the inaccessible Ardoilean, a seventh-century Celtic hermitage in County Galway. His vision of an Ireland lost forever is an emotional tour de force.
