Reusable Booster System National Research Council, Division on Engineering and Physical Sciences, Aeronautics and Space Engineering Board, Committee for the Reusable Booster System: Review and Assessment, 2013-01-10 On June 15, 2011, the Air Force Space Command established a new vision, mission, and set of goals to ensure continued U.S. dominance in space and cyberspace mission areas. Subsequently, and in coordination with the Air Force Research Laboratory, the Space and Missile Systems Center, and the 14th and 24th Air Forces, the Air Force Space Command identified four long-term science and technology (S&T) challenges critical to meeting these goals. One of these challenges is to provide full-spectrum launch capability at dramatically lower cost, and a reusable booster system (RBS) has been proposed as an approach to meet this challenge. The Air Force Space Command asked the Aeronautics and Space Engineering Board of the National Research Council to conduct an independent review and

assessment of the RBS concept prior to considering a continuation of RBS-related activities within the Air Force Research Laboratory portfolio and before initiating a more extensive RBS development program. The committee for the Reusable Booster System: Review and Assessment was formed in response to that request and charged with reviewing and assessing the criteria and assumptions used in the current RBS plans, the cost model methodologies used to frame [frame?] the RBS business case, and the technical maturity and development plans of key elements critical to RBS implementation. The committee consisted of experts not connected with current RBS activities who have significant expertise in launch vehicle design and operation, research and technology development and implementation, space system operations, and cost analysis. The committee solicited and received input on the Air Force launch requirements, the baseline RBS concept, cost models and assessment, and technology readiness. The committee also received input from industry associated with RBS concept, industry independent of the RBS concept, and propulsion system providers which is summarized in Reusable Booster System: Review and Assessment.

Booster Shots for a Healthy Soul B. Lynn Chesnutt, 2016-10-07 Years ago, I sometimes gave the sermonette to a mixed audience of children from nursery school through high school at a designated time in the Sunday morning worship service at my church. I wanted the message to encourage them to develop a scholarly interest in reading and understanding the Bible. Many times I have heard adults, when questioned about what the Bible says or means about an issue, defer with comments such as Im not a Bible scholar or Ill leave that to the theologians. I wanted my own children to know that lessons taught in Sunday school and their daily living were based on Bible principles that they can comfortably and

intelligently talk about with believers or nonbelievers.

Everyone forgets things sometimes. But do you ever feel like you can't keep track of simple things like acquaintances' names, your car keys, and the two things you needed to pick up on the way home? As America's population ages, more and more people are struggling with the fact that their memory and mental power are not that they used to be. Maybe you've tried exercising your mind, or maybe you've just started keeping better to do lists. But a proven way to improve your mind, memory and mood is to feed your brain the nutrients it needs to function at its peak performance level. Over the past few years, scientists have discovered dozens of new supplements that enhance and sharpen memory, intelligence, vision, and mental performance. In *Mind Boosters*, one of the world's most respected nutritional experts examines the very latest research on these breakthrough brain nutrients, amino acids, herbs, and hormones. Along with a scientific and practical evaluation of their benefits and risks, Dr. Sahelian explains how to combine mind-boosting supplements to help patients with Alzheimer's, Parkinson's, depression as well as those with normal age-related mental decline. People of all ages can benefit from the sensible, step-by-step programs tailored to the differing needs of the young, the middle aged and the elderly.
