European Seismic Design Practice - Research and Application A.S.
Elnashai,2022-03-24 It is evident that European earthquake engineering research and design practice is assuming a role of increasing importance on the international scene. This is primarily due to two considerations; firstly the emergence of a core of European earthquake engineers who are co-operating on a long-term basis for the development of seismic design criteria specific to the European environment and secondly the identification of new problems in existing design practice in the USA and in Japan. It is in this context that European earthquake engineering activities and publications are eagerly observed and awaited by the international community. Includes a compact set of papers from leading research institutions, laboratories and companies in Europe, with a healthy number of contributions from elsewhere. It represents the European state-of-the-art and practice in earthquake testing, analysis & design of civil engineering works as well as strong-motion & hazard studies.

I Succeeded Once Marie Hansen Fels,2011-05-01 In 'I Succeeded Once' – The Aboriginal Protectorate on the Mornington Peninsula,

1839-1840, Marie Fels makes the work of William Thomas accessible to anthropologists, archaeologists, historians and the descendants of the Aboriginal people he wrote about. More importantly, people who live, work, study, holiday or just have a general interest in the area from Melbourne to Point Nepean can learn about the original inhabitants who walked the land before it was cleared for agriculture and urban development. Of course, development of the Mornington Peninsula is ongoing and this book will help those involved in development or the management of Aboriginal cultural heritage to identify, document and protect Aboriginal places that may not be identifiable through archaeological investigations alone. Marie Fels supplements Thomas's writings with other contemporary accounts and her exhaustive historical research sheds new light on critical events and the significant places of the Boon Wurrung people. Of particular importance is the critical review of information about the kidnapping of Boon Wurrung people from the Mornington Peninsula.
