What Are Budgets? Andrew Einspruch,2008-06-05 Provides simple text, illustrations, and problems involving decimals to teach young readers about the components and uses of budgets in real-life situations.

The Federal Budget Allen Schick,2004-05-13 The U.S. government takes in and spends almost \$2 trillion annually, and setting the budget that guides federal spending is an enormously complex undertaking. The federal budget entails the active participation of the president, key advisers, and many members of Congress, the efforts of thousands of staff in the executive and legislative branches, and the attention of numerous interest groups. It consists of thousands of big and small decisions, complicated rules and procedures, and debate over the composition and amount of public revenue and spending. With so much at stake, it is not surprising that budgeting is often a difficult, conflict-laden process. As big as the budget is, there is never enough money to satisfy all demands. As the budget has grown and become more prominent in U.S. political and economic life, the scope for conflict has expanded. In some years the budget is the centerpiece of the president's agenda as well as the vehicle for enacting much of Congress's legislative output. This revised and significantly expanded edition of *The Federal Budget* concerns the politics and processes of federal budgeting and the policies that emerge from them. It describes how budgeting works at each stage of executive and legislative action—from preparation of the president's budget through the appropriation and expenditure of funds—and assesses the impact of budget rules on policy decisions. It explains how the budget was transformed from deficit to surplus over the past five years and discusses various proposals to change the rules. It analyzes the changes in the appropriations process, friction between the president and Congress, and the reliance on omnibus legislation to resolve budget impasses. In addition to vital statistics and extracts from important documents, the book also features case studies that dramatize contemporary budgetary politics, providing readers with a you are there appreciation of how budgeting decisions are made in Washington.

10 Steps to Successful Budgeting Lianabel Oliver,Eduardo Nin,2019-01-15 Calculate for Business Success The budgeting process may produce anxiety, but it can be managed. The keys are planning, organization, documentation, preparation, and follow-up. The essence is plan first, budget later. 10 Steps to Successful Budgeting walks you through the fundamentals, explaining your role in your organization's planning and budgeting process. Authors Lianabel Oliver and Eduardo Nin start with a macro perspective, providing an overview of the planning and budgeting process and how it is typically structured within an organization. They then move to preparing a sound budget and defending it to the next level of management. Their combined experience of over 30 years in planning and budgeting will help you navigate this process successfully. The authors' simple, clear explanations and true-to-life examples of budgets and planning tools will help you clarify your departmental spending needs for yourself and others. Each planning and budgeting cycle, the authors explain, represents an opportunity for change. It is a chance to revisit the old and embrace the new. The budget is not something to fear on your to-do list, but a time to reexamine who you are, what you do, and how you can use your resources more effectively.

Biennial Budgeting Susan J. Irving,2000-10 Congress has periodically expressed interest in converting the Fed. budget process from an annual to a biennial cycle (BC). However, proposals to move to a BC raise a number of concerns. Both opponents and proponents of a BC have used states' experiences to support their positions. Currently, 23 states have all or part of their budget on a BC. This report studies the BC process of Arizona, Connecticut, and Ohio in detail. It examines how: (1) Arizona and Connecticut implemented their transition from an annual to a BC; (2) each of the 3 states budgets in the off year of its cycle, and (3) each of the states incorporates legislative oversight and program evaluation into its BC.
