The Factory Behind the Car Buick motor company, Flint, Mich, 1924

The Buick Terry B. Dunham, Lawrence R. Gustin, Lawrence Gustin, 2002 From 1904 to the present, *The Buick: A Complete History* is the authoritative, intimately fascinating story superbly told by two of the most respected automotive historians, each having devoted more than a decade to researching, interviewing, documenting and recording one of the great sagas of our time. Here is a book that has become the most treasured and inexhaustible reference work on this great marque. And now, to commemorate Buick's centennial, the new sixth edition expands to include information through model year 2004. Eight sections of Appendices include chapters on Buick racing cars; the Buick in Hollywood; the custom-bodied Buick; the Royal Buicks; heraldry and mascots of the marque; Buick around the world, with new information on ventures into China. There can be no finer Buick book for the office, the showroom, or home library. For the Buick builder, the enthusiast, the collector, the dealer, the owner, it will be the bible on Buick.

Buick Byron Olsen, 2006-11-24 This new book highlights General Motors oldest division during some of its most successful and exciting years, 1946 through 1960. When World War II ended in 1945, Buick was champing at the bit to forge ahead in the sales race with its reputation for size, prestige and straight eight cylinder power in every model. By 1954, Buick succeeded in reaching third place in sales, ahead of Plymouth. But after a few heady years among the sales leaders, some unfortunate styling decisions in 1957 and 1958 would topple Buick from the leadership pedestal. Share these heady days of growth and success for an American automotive icon with superb quality original factory photos from the time when Buick was one of America's most popular automobiles. Relive the arrival of 'ventiports', Dynaflo drive, sweep spears of chrome, and all of the other Buick trademarks that became part of the American lexicon.

How to Build Max-Performance Buick Engines Jefferson Bryant, 2008-06-01 The photos in this edition are black and white. Skylarks, GSXs, Grand Nationals, Rivas, Gran Sports; the list of formidable performance Buicks is impressive. From the torque monsters of the 1960s to the high-flying Turbo models of the '80s, Buicks have a unique place in performance history. During the 1960s, when word of the mountains of torque supplied by the big-inch Buicks hit the street, nobody wanted to mess with them. Later, big-inch Buicks and the Hemi Chryslers went at it hammer and tongs in stock drag shootouts and in the pages of the popular musclecar magazines of the day. The wars between the Turbo Buicks and Mustang GTs in the 1980s were also legendary, as both cars responded so well to modifications. *How to Build Max-Performance Buick Engines* is the first performance engine book ever published on the Buick family of engines. This book covers everything from the Nailheads of the '50s and early '60s, to the later evolutions of the Buick V-8 through the '60s and '70s, through to the turbo V-6 models of the '70s and '80s. Veteran magazine writer and Buick owner Jefferson Bryant supplies

the most up-to-date information on heads, blocks, cams, rotating assemblies, interchangeability, and oiling-system improvements and modifications, along with details on the best performance options available, avenues for aftermarket support, and so much more. Finally, the Buick camp gets the information they have been waiting for, and it's all right here in How to Build Max-Performance Buick Engines.

Buick Muscle Portfolio 1963-73 R.M. Clarke, 2001-04-19 Amongst the wide range of Buick cars built in this period there were some muscle cars for the enthusiast. These were the cars that added glamour to the Buick name. From being front-runners in the late 1960s emissions controls and tightening safety regulations gradually emasculated these cars in the early 1970s. The oil crisis of 1973-4 finally killed off the muscle car genre altogether. This book is a compilation of road and comparison tests, driving impressions, model introductions and performance data. Models covered are:- Skylark Special, Wildcat, Electra 225, Super Wildcat, LeSabre 400 Sport CoupT, Skylark Gran Sport, Riviera Gran Sport, GS400, California GS, GS430, Stage 1 GS400, GS455, GS455 Stage 1, GS350, GSX455, GSX455 Stage 1, Centurion, Century Regal.

Buick Nailhead: How to Rebuild & Modify 1953-1966 Gary Weldon, 2020-10-15
Learn how to rebuild and upgrade your Buick Nailhead with the first book ever dedicated to the subject! In this all-new book from Nailhead racer and veteran engine builder Gary Weldon, you will learn everything you need to know about how to rebuild and upgrade the venerable Buick Nailhead engine. Weldon takes you through each step, including a review of the birth of the Nailhead, the benefits of its unique design, serial and casting number information to source and identify the best project, and a history of the engine in development. Also covered are the processes of rebuilding, including disassembly, inspection, sourcing the best parts, making critical upgrades, reassembly, and break-in. Of course, all the machine shop work is covered, and practical advice on building engines for competition is provided. The Nailhead was a throwback to the early overhead-valve engine design, and that unique design makes it a popular choice for period-correct hot rod projects. In addition, if your torquey Nailhead resides between the fenders of a Buick Special, LeSabre, Invicta, Roadmaster, Riviera, Century, Skylark, Wildcat, or Electra 225, this book will help you keep that old beauty on the road.

Buick Magazine , 1959-02

Buick R.M. Clarke, 2000-12-03 The early post war Buicks retained early-40s styling but this had changed by 1950. These years were very successful years even if the products were not always at the leading edge of technology, performance or styling. The Dynaflow automatic transmission was ordered on some 85% of all new Buicks by 1951 although the overhead-valve V8 was not introduced until 1953. After the chrome-and-fins era in 1958 the early 1960s produced some well proportioned cars. In this compilation of road tests, driving impressions, specification and performance data, and model introductions the cars covered are: Dynaflow Buicks, 50-series Super, Roadmaster 41, Super Riviera V8, Century, Century Special, Roadmaster Special, Special Estate Wagon, Century Hardtop, Limited, Invicta, Electra, Electra 225, Le Sabre, Special, Skylark, Wildcat.
