Bradford, Carole Robin, 2022-03-29 'A practical and timely book' - Arianna Huffington, Founder and CEO, Thrive Global 'Valuable for everyone' - Julia Samuel, bestselling author Biting your tongue? Bottling it all up? From marriage to management challenges, learn how to change your relationships from exasperating to exceptional with this expert guide. The ability to create strong relationships with others is crucial to living a full life and becoming more effective at work. Yet many of us find ourselves struggling to build solid personal and professional connections, or unable to handle challenges that inevitably arise when we grow closer to others. When we find ourselves in an exceptional relationship -- the kind of relationship where we feel fully understood and supported for who we are -- it can seem like magic. But the truth is that the process of building and sustaining these relationships can be described, learned, and applied. David Bradford and Carole Robin taught interpersonal skills to MBA candidates for a combined seventy-five years in their legendary Stanford Graduate School of Business course Interpersonal Dynamics. Now, they share their insights with you, including: - Why relationship-building is not the process of being with 'the right person' but rather creating the kind of relationship you want - Why deepening a relationship takes risk - The importance of vulnerability, curiosity and empathy in building relationships - How the modern world can help - and hinder - our ability to connect Filled with time-tested strategies for giving feedback, negotiating boundaries, and working through disagreements, Connect will be an important resource for anyone hoping to improve existing relationships and build new ones at any stage of life.

Connect Jonathan McKee, 2009 With all their social networks and virtual communities, you'd think your students are well connected. But they're still feeling alone and isolated. This book provides practical tools to help you engage students in meaningful, one-on-one dialogue to impact their lives beyond the youth room and into adulthood.

Connected Nicholas A. Christakis, James H. Fowler, 2009-09-28 Celebrated scientists Nicholas Christakis and James Fowler explain the amazing power of social networks and our profound influence on one another's lives. Your colleague's husband's sister can make you fat, even if you don't know her. A happy neighbor has more impact on your happiness than a happy spouse. These startling revelations of how much we truly influence one another are revealed in the studies of Dr. Christakis and Fowler, which have repeatedly made front-page news nationwide. In Connected, the authors explain why emotions are contagious, how health behaviors spread, why the rich get richer, even how we find and choose our partners. Intriguing and entertaining, Connected overturns the notion of the individual and provides a revolutionary paradigm—that social networks influence our ideas, emotions, health, relationships, behavior, politics, and much more. It will change the way we think about every aspect of our lives.

Connect Edward M. Hallowell,1999 The promise of wellness and satisfaction has never been as ubiquitous in our culture as it is now. Images of happy people stare out at us from magazine pages and television screens; they are successful and busy, hurrying from the office to the opera, eating healthfully and acting responsibly. We are a nation of achievers but, as Dr. Edward Hallowell makes clear inConnect, what sustains us--emotionally, psychologically, physically--is connectedness, the feeling that we are part of something that matters, something larger than ourselves that gives life its meaning, direction, and purpose. Hallowell examines the real life most of us lead--overwhelmed, harried, pressured--and outlines the steps we can take to connect ourselves to the people and things that matter to us. He elevates the simplest forms of communication, understanding, and self-knowledge as examples of the human moment: the basis for the bridges we build to one another. He tells stories of personal growth--one woman's plan to bring a neighborhood together, another woman's assembling of a makeshift family, a real estate developer's institution of company-wide weekly pizza dinners--and identifies in them twelve vital ties to a more connected life. Hallowell concludes that within each of

us exists the capacity to connect with the people around us--our parents, spouses, children, friends, and colleagues--to become who we want to be and to be happy with who we are.
