Cody's Dragon KM Mahoney, 2014-02-28 How far is Cody willing to go to keep his dragon? Kirit is lonely and he's sick of coming home from the king's assignments to a cold, empty cave. After searching for years for a mate, Kirit decides it's time to try a new approach. Against the advice of all his friends, he heads for the human side of the world. There he finds Cody, and the man is everything he could ever want. It takes a little bit of persuasion, but he manages to talk Cody into coming back with him to Faerie. Within a week of arriving, Cody is beginning to rethink his impulsive decision. He's trekked across more terrain than he would care to remember, been summoned to meet a king, and flown on a dragon—not an experience he's willing to repeat anytime soon. Kirit's growly possessiveness is starting to wear on his nerves, and the unexpected hostility he encounters at the palace is almost enough to make him give up. But Cody is stubborn. He may not be willing to admit it out loud, but Kirit has got under his skin. He may even, shockingly enough, love the big guy. Now Cody has to decide what he's willing to do to keep the man of his dreams.

What's Wrong with My Child? Elizabeth Harris, 2021-07-06 What's Wrong with My Child? reveals a mother's quest for answers about her son's psych symptoms that leads to shocking discoveries that could impact struggling families in the United States and possibly globally. Elizabeth Harris' son Cody was eleven when, out of the blue, he started exhibiting signs of Obsessive-Compulsive Disorder (OCD). The OCD turned into something far more sinister when Cody started having episodes where he seemed to lose total control over his actions, leading to Cody being committed to a county youth detention center. There, he was placed in solitary confinement for weeks. For five years, Elizabeth fought a hard battle to find out what was going on with her son and their family while simultaneously battling an unsympathetic judicial system. Driven to find a cure, Elizabeth visited countless doctors across the USA. She quickly became frustrated by the fact that there was no agreement in the medical community regarding PANDAS (Pediatric Autoimmune Neuropsychiatric Disorders Associated with Strep), the disease behind Cody's transformation. In her quest for answers, this science-minded spa owner found proof of weaponized bacteria not only impacting their extended family, but that could be making families around the USA and possibly globally sick as well.

Goose Chase Shawn Doyle, 2017-05-19 After Salems chief of police unexpectedly retires, Detective James OConnor is suddenly burdened with preparing the town for its annual sandcastle competition. As if that is not bad enough, a dead body has just been found, dressed like a leprechaun with a sword through his chest and the killers calling card tied to his big toe. With no witnesses except a freelance reporter whose vague description of the possible assailant is less than helpful, it appears OConnor is now immersed in a challenging case that he must try to solve before the sandcastle

competition begins. When an eight-year-old girl is abducted and killed while on her way to school, O'Connor once again finds the killers calling card attached to her toe with a strange message. Now O'Connor must rely on his street smarts and gut instincts to stay one step ahead of a serial murderer who appears to be randomly killing his victims and smart enough not to leave any concrete evidence behind. Will he manage to catch the killer before another victim falls prey? Goose Chase shares the gripping tale of a serial killers rampage and a determined police detectives quest to stop him.

Inner-city veterinarian Lindsey Ward always loved visiting her grandfather's Wyoming ranch, so it breaks her heart to have to sell it. She'll miss the scent of hay and sagebrush under the wide-open sky, but at least the sale will help fund the clinic she's always dreamed of. Ruggedly handsome foreman Shane Lockhart and his adorable son aren't making it any easier for Lindsey to focus on what has to be done. It's exhilarating going toe to toe with a rough, tough cowboy whose stubborn idealism matches her own, but it's Shane's tenderness that might tip Lindsey's heart over the fence. Bedtime for Cody Jerry Hastings,2023-10-06 Cody was a 24/7 little, and he was just trying to live his life. He was a college student, and he had to keep his deepest secret hidden from everyone. Thanks to his incontinence problems, he had to wear diapers all the time. It was during one of his most traumatic episodes that he learned about the ABDL universe, and since then he’d been a little. But living in a small, conservative town in Georgia didn’t make things easier for him. He had to hide himself all the time, though that didn’t impede the local eye candy from learning his secret... Matthew broke up with his former little, and he was sure that he was to blame. He was lumberjack. He didn’t need to work out to keep his dilapidated, well-built body in shape. His chiseled face alongside his designer stubble melted the hearts of many women in Owens, but he had eyes for someone else only. Cody. He knew he was a little, though he was in his shell. Shy, short, lacking in self-esteem – Cody hit all the right buttons, and as a Mister, he was willing to do everything to show Cody he was much more than he thought he was. “Bedtime for Cody” is an ABDL MM romance story. All characters are consenting

adults roleplaying. If you are looking for that heartwarming story, then this is the story for you. Also, be on the lookout for a free extra chapter. Instructions are at the end of the book.

The Armageddon Complex Ric Black,2006-06 In all my years as a scientist, I never believed the experiments I was involved in would lead to so many people dying. I've even put my only son at risk. Our lives are inexorably changed, coursing down a path that may see the very destruction of us all, should this virogene escape the confines of its sealed environment. All my background, both moral and academic, tell me what I am doing is wrong, but how am I possibly going to stop it now? Can it be stopped? Will all this end in the loss of more lives? Cody Jenkins' father, Ben, is a prominent biophysicist working under a government contract for a private foundation. His realm of expertise lies in the development of biological compounds that will lead to the creation of a genetically engineered super virus. Once created, however, the virus proves so deadly that it defies all biological and chemical means of slowing its devastating effects on its host subjects. Because the research project that results in the discovery of the virus is government funded, the military believe they have the right to it, regardless of what the virus would mean for humanity; the Corsican Brotherhood wants to steal it for profit-thus begins a battle of wit, intrigue, and violence in which Cody becomes an innocent pawn.
