The Impossible Collection of Design Frédéric

Chambre, 2014-10-01 In recent years, the decorative furnishings niche has become of tremendous interest to collectors, causing a surge in the auction market and bringing record sales. Chosen by design expert Frédéric Chambre, this selection of furniture designs unspools like the frames of a film, an epic picture composed of one hundred years of creative innovations in form, materials, and techniques. As in art history, themes can be traced across changing trends: design versus the machine, design versus craft, design versus art—a story that continues to unfold. This hand-bound oversize luxury edition traces the development of twentieth-century design from the Art Nouveau and Arts and Crafts movements through Bauhaus and Art Deco, Pop Art and the Memphis school, to today's digital age, illustrating the dynamic story of a groundbreaking century through the evolution of everyday human objects.

The Impossible Collection of Wine Enrico

Bernardo, 2016-11-01 In this stunning addition to the Assouline Ultimate Collection, Enrico Bernardo, the world's best sommelier, imagines the perfect cellar filled with the most exceptional wines of the twentieth century: *The Impossible Collection of Wine*. Weighing the virtues of rarity, terroir, taste, and historical mystique, Bernardo's is a list any connoisseur could only dream of. To turn grapes into bottled poetry, the winemaker must be a kind of alchemist. Despite changes in technology and tastes over the past 100 years, the craft has remained largely unchanged; a great wine remains the product of countless factors, not least of which is the smile of providence. In these pages, Bernardo celebrates the most exquisite vintages around the globe, from the 1928 Krug Champagne to the 1951 Penfolds Grange Bin 95 to the 1973 Stag's Leap Estate SLV, inviting the reader on a journey through history to savor an impossible collection. This hand-bound oversize luxury edition, featuring hand-tipped images and

presented in a wooden crate, will be a must-have for the library of any true wine connoisseur.

Our books—the ones we choose to keep—tell the story of who we are. They remind us who we once were and who we aspire to be. Thatcher Wine founded

Juniper Books in 2001. The company creates custom libraries and has perfected the art of turning books inside out to allow for books to tell stories not just to us, but about us. Working with booklovers, homeowners, and designers, Juniper Books has provided the world with a fresh new approach to the printed book. Thatcher grew up in New York City where his parents owned and operated The Quilted Giraffe, one of the most innovative restaurants in America. Thatcher graduated from Dartmouth College with a degree in history and art history and lives in Boulder, Colorado. Elizabeth Lane is the founder of Quarterlane, a quarterly subscription book service which merged with Juniper Books in 2018. She is also the book buyer for her local independent bookstore, Partners Village Store and Kitchen in Westport, Massachusetts. Prior to working in books, Elizabeth worked in contemporary visual art—in galleries, nonprofit initiatives and museums in New York, Austin, and Chicago. Elizabeth graduated from Davidson College with a degree in art history and received her masters degree from the School of the Art Institute of Chicago.

Active Collections Elizabeth Wood,Rainey Tisdale,Trevor Jones,2017-11-07 In recent years, many museums have implemented sweeping changes in how they engage audiences. However, changes to the field's approaches to collections

stewardship have come much more slowly. *Active Collections* critically examines existing approaches to museum collections and explores practical, yet radical, ways that museums can better manage their collections to actively advance their missions. Approaching the question of modern museum collection stewardship from a position of tough love, the authors argue that the museum field risks being constrained by rigid ways of thinking about objects. Examining the field's relationship to objects, artifacts, and specimens, the volume explores the question of stewardship through the dissection of a broad range of issues, including questions of quality over quantity, emotional attachment, dispassionate cataloging, and cognitive biases in curatorship. The essays look to insights from fields as diverse as forest management, library science, and the psychology of compulsive hoarding, to inform and innovate collection practices. Essay contributions come from both experienced museum professionals and scholars from disciplines as diverse as psychology, education, and history. The result is a critical exploration that makes the book essential reading for museum professionals, as well as those in training.
