**Convoy** Martin Middlebrook,1976 An assured supply of armaments, petrol and foodstuffs from the US was vital to the British war effort, especially in the early days of the Second World War. The route across the north Atlantic, treacherous enough in itself, was made infinitely more so by German U-boats prowling in their wolf packs, ready for the quick kill. Merchant ships, slow and defenceless, were gathered in great convoys and shepherded across the pond by their escort destroyers, frigates and corvettes, offering at least some protection against the unseen enemy. Martin Middlebrook's account of two such convoys encompasses all the danger, drama and sheer awfulness of life - and death - at sea in the Battle of the Atlantic.

Convoy Ambush Case Studies Richard E. Killblane,2014-08-15 When the enemy adopts a policy to attack convoys, truck drivers become front line troops. Convoy commanders must then become tacticians. How to study war? The student of tactics studies previous fights and mentally places himself in the position of the participants. Knowing what they knew, how would he have reacted? In hind sight, what was the best course of action, remembering that there is no one perfect solution? Any number of actions would have succeeded. The tactician must learn what would have worked best for him. For this reason, I have pulled together all the examples of convoy ambushes. The 20th century, Vietnam War, and current war in Iraq provide a wealth of examples of convoy ambushes from which to study. Unfortunately, the US Army did not record many good accounts of ambushes during the Vietnam War. Much of what is presented in this text is based upon oral interviews of the participants, sometimes backed by official record, citations or reports. For this reason, some of the ambush case studies present only the perspective of a crew member of a gun truck or the convoy commander. Since this academic study works best when one mentally takes the place of one of the participants, this view of the ambush serves a useful purpose. After my own review of the ambushes, I have drawn my own conclusion as to what principles apply to convoy ambushes.

**Galactic Convoy** Bill Baldwin,1987 During the most chaotic year of his young life, Wilf Anzor Brim, Helmsman of the Imperial Galactic Fleet, faces many challenges while he comes to terms with his love for Princess Margot. Advertising in most science fiction magazines.

*Convoy Conspiracy* Robert P. Schoch Jr.,2012-01-18 This first story is about the historic missions done by Combat Airmen in Iraq during Operation Iraqi Freedom II in 2004. These Airmen went into Iraq untrained under the control of the U.S. Army for the first time since WW II. However, they persevered and overcame the many barriers they were constantly faced with in a war ravaged country. Although these Airmen felt as if they were at times abandoned by both branches of military they were called to serve, they pulled together and fought for each other in hopes of returning home to their country and loved ones.

**Convoy** Dudley Pope,2001 A deadly game of cat and mouse unravels its way out of this spine tingling war story as Lieutenant Yorke must find an answer to one vital question: how are German U-Boats sinking merchant ships from inside the convoys? In this gripping saga of heroism and intrigue, Yorke discovers the fate of one entire convoy. Only his wit and daring can lead to its survival and his.

*Critical Convoy Battles of WWII* Jürgen Rohwer,2015-11-15 Remarkable...a feat of

historical reconstruction.—Paul Kennedy, New York Times bestselling author of *The Rise and Fall of the Great Powers* *The Battle of the Atlantic*, the longest continuous campaign of World War II, climaxed in 1943, when Germany came closest to interrupting Allied supply lines and perhaps winning the war. In March of that year, German U-boats scored their last great triumph, destroying nearly 150,000 tons of supplies and fuel. • Blow-by-blow account of the largest convoy battle of the war • Analyzes the tactics, technology, and intelligence of both sides

**Convoy** Martin Middlebrook, 1978 Martin Middlebrook has written some of the greatest classics in military history, covering major turning points in the two World Wars. Here, using extensive primary research, he follows the Battle of the Atlantic from the perspective of two convoys eastbound from the U.S. in 1942. A detailed blow-by-blow record of the perilous crossing captures the danger as the vital convoys face U-Boat wolf packs. On-board accounts reveal what it was like as torpedoes hit, boats sank, men were rescued, and submarines went on the hunt.

**Forgotten Sacrifice** Michael G. Walling, 2012-10-20 Award-winning historian Mike Walling captures the essence of the Arctic Convoys of World War II. In 1941, Germany invaded the Soviet Union in the largest offensive operation ever undertaken. Operation Barbarossa saw defeat after defeat heaped on the Soviet army. With Russia's forces left staggering under the strain and in desperate need of supplies, Britain and the United States launched an ambitious operation to resupply the Soviet Union using convoys sent through the Arctic. Their journey was punctuated by torpedo attacks in freezing conditions, Stuka dive bombers, naval gun fire, and weeks of total darkness in the Arctic winter, with ships disappearing below the waves weighed down by the ice and snow on their decks. Drawing on hundreds of oral histories from eyewitnesses and veterans of the convoys, plus original research into the Russian Navy archives at Murmansk, historian Michael G. Walling offers a fresh retelling of one of World War II's pivotal yet largely overlooked campaigns.

*Arctic Convoy PQ8* Michael Wadsworth, 2009-11-30 When Robert Brundle took the SS *Harmatris* to Russia with Convoy PQ8 he was 47 years of age. Both ship and master were veterans and had already sailed in convoys across the North Atlantic and to South Africa. The 5,395 ton coal fired ship, laden with 8,000 tons of armaments originally set sail on 27 November 1941 to join convoy PQ6 but encountered a fierce storm in which a lorry broke free in the hold and started a fierce blaze below decks. Despite valiant attempts to extinguish the fire the *Harmatris* was forced to return to Glasgow for repair. Having discharged its cargo, examined and repaired the holds, it restowed and finally put to sea again on 26 December. She was now to join PQ8 and Brundle was elected Convoy Commodore. Two minesweepers, a cruiser and two destroyers escorted the eight merchant vessels. On 8 January the convoy left Reykjavik bound for Murmansk. *Harmatris* was struck by two torpedoes in No 1 hold which caused flooding. A third torpedo struck her a few hours later and the crew evacuated to HMS *Speedwell* in attendance. A volunteer crew reboarded and *Speedwell* took the wounded ship in tow. During the night the same U Boat that had struck *Harmatris* sunk the destroyer *Matabele* with the loss of all but two of her crew. A tug eventually replaced *Speedwell* and the entire crew now returned to their still stricken vessel. On 18 January the ships were twice attacked by low flying Heinkels. The stricken *Harmatris* finally berthed in Murmansk at 0800 on 20 January. Once unloaded the battered ship entered dry dock on 10 February. The damage was considerable. In a temperature of 40 degrees below zero the crew set about the repairs. It was difficult to locate engine parts and local labor was scarce. During the following months the crew continued to work on the ship, food was scarce and the port was frequently bombed by the Luftwaffe. Several ships close to *Harmatris* were sunk. It was 21 July when the ship finally left for Archangel. She took aboard a cargo of 3,000 tons of steel pipes and on 13 September she was instructed to join a convoy of 20 ships, QP14 for her return voyage. On 19 September the minesweeper

HMS Leda, steaming close by Harmartris, was torpedoed. The convoy was under almost continuous U Boat attack and suffered six losses. As a result of his heroic efforts to preserve his ship and crew Captain Brundle was awarded the OBE and the Lloyds War Medal. He died in 1960 at the age of 66.

The Convoy Drew Bell,

*The Baltic Convoy* Showell Styles, 2014-06-12 First published in 1979 The Baltic Convoy continues the adventures of Showell Styles's hero Michael Fitton. Now past middle-age and still only a lieutenant the widowed Michael Fitton is in command of the gun-brig Cracker and has sailed to the Baltics to escort a convoy bringing timber back to Britain. This is an important mission for Fitton for without the timber Britain's chances of winning the war with France are greatly reduced as too many of its fleet need substantial repairs and wood is scarce. The task is made doubly dangerous as Britain is also at war with Denmark. Having to navigate the eight vessels through enemy-occupied waters Fitton has an unexpected coup when he takes the vessel Amalie prisoner and discovers Baron La Haye - the most powerful Frenchman in Denmark - and his daughter Madame Brennier on board. Double-crossed and with his ship in peril Fitton must fight to get the convoy back to safety, even if it means losing the woman he loves for ever.

**Convoy** Philip Kaplan, Jack Currie, 1998 The ships and men of the Allied merchant navies. Without the British Merchant Navy, the American Merchant Marine and the Canadian Merchant Navy, Britain could not have survived even a few weeks of war.

**Vietnam Rough Riders** Frank McAdams, 2013-03-12 Black smoke drifted about the scene. The first thing I noticed was the huge crater yawning next to the damaged truck. In the Vietnam War, American rough riders drove trucks through hostile territory delivering supplies, equipment, ammunition, weapons, fuel, and reinforcements to troops fighting on the war's ever-shifting front lines. But, all too often, the convoys themselves became the front lines. Frank McAdams, a Marine Corps lieutenant, learned that the hard way during a tour of duty that began right after the 1968 Tet Offensive and the siege at Khe Sanh. In this compelling memoir he recounts his personal battles-not only with a dangerous enemy but also with an incompetent superior and a sometimes indifferent military bureaucracy. A decidedly different take on the Vietnam experience, his chronicle focuses on the ambush-prone truck convoys that snaked their way through dangerous terrain in narrow mountain passes and overgrown jungles. When an ambush occurred, strong leadership and quick thinking were required of officers like McAdams to protect both the convoy's mission and the lives of its men. McAdams describes convoys he led through hot zones like the notorious Ambush Alley stretching from Danang through Hai Van Pass to Phu Bai in the north, and the provincial area in the south known as the Arizona that surrounded the villages of Phu Loc and An Hoa. He also highlights the fierce three-day firefight that ensnared him and his men near the Song Cau Du River at Hoa Vang, and provides a particularly gripping account of the fighting at Thuong Duc. McAdams deals frankly with his fraught dealings with a commanding officer whose ineptness and treatment of his troops made the CO fear for his own life. And he writes movingly of his wife's love and encouragement in the face of an emotionally tough separation and also of his difficulty in re-engaging with life stateside. Fast-paced and compulsively readable, his book offers an insightful look at a largely neglected aspect of the Vietnam War, while reminding us of how frequently the crucible of war reveals one's true character.

Convoy Will Scatter Bernard Edwards, 2013-06-12 A naval historian reveals the full story of the HMS Jervis Bay and the merchant ships that valiantly saved lives during the WWII Battle of the Atlantic. On November 5th, 1940, the thirty-eight merchant ships of Convoy HX84 were making their way across the North Atlantic, escorted by the armed cruiser HMS Jervis Bay. In mid-ocean, they were attacked by the German pocket battleship Admiral Scheer. Though the Jervis Bay charged at the enemy, she was hopelessly outgunned. Within

twenty-two minutes, the ship was destroyed. Meanwhile, the merchantmen scattered under the cover of a smokescreen. But the radar-equipped Admiral Scheer was still capable of picking them off one at a time. Captain Hugh Pettigrew, commanding the highly armed Canadian Pacific cargo liner SS Beaverford, began a desperate game of hide and seek with the Scheer, which continued until the Beaverford was sunk with no survivors. Thanks to this sacrifice, thirty-three merchantmen were able to escape. Later the neutral flag Swedish freighter Stureholm, commanded by Captain Olander, picked up survivors from the Jervis Bay. While Jervis Bay's Captain Edward Fegen was rightly awarded the Victoria Cross for his bravery and sacrifice, the history books only mention the Beaverford and the Stureholm in passing. This thrilling book puts the record straight.
