Extremism and Counter-Extremism Narratives in Pakistan

Sadia Nasir,2023-05-19 The book provides an extensive analysis of extremism, extremist narratives and counter-narratives and their role in consolidating exclusive religious, cultural and social identities in Pakistan. Focusing on the construction and institutionalization of extremist tendencies, the book studies the process of the adoption of the narrow interpretation of religion and society, which subsequently was equated with national identity. It looks at the efforts of counter-extremism narratives, which tend to focus on violent extremism while overlooking non-violent manifestations. The author highlights that the main issue with counter-narratives is the difficulty in presenting extremism and its narratives as a threat since they have been normalized with the state being part of facilitating and building them. A valuable and much-required contribution to the existing literature on extremism and narrative building in Pakistan, this book would help students, academics and policymakers in identifying the limitations of counter-narratives in Pakistan, while providing them with a detailed overview of extremism and extremist narratives. It will also be of interest to researchers studying Security Studies and Asian Politics, especially in the context of South Asia.

**Extremism, Counter-terrorism and Policing** Brian

Blakemore,2016-04-15 Extremism, Counter-terrorism and Policing brings together a diverse range of multidisciplinary studies to

explore the extent of extremism and how communities are policed. Through analysing the historical development, the present situation, and future trends in the forms and ability to police violent extremism and terrorism, this text provides a detailed contribution towards both academic and policy debate surrounding extremism, its causes, and treatments. With chapters written by experts in their fields, this book provides the reader with detailed definitions of extremism; the psychology of extremists and the causes of radicalisation; policing extremism within a counter-terrorism context; community policing approaches to combating extremism; the legal frameworks and legislation regarding extremism and its limitations in an international setting; and public perceptions and understanding of extremism. It is crucial for policing professionals, policy-makers and academics to have a detailed understanding of government policy and the methods towards tackling extremism from a policing and community level. *Extremism, Counter-terrorism and Policing* gives a policing rationale alongside specific community approaches towards tackling extremist threats and provides key details for policy readers as well as academics.

Dimensions of Counter-insurgency Tim Benbow, Rod Thornton, 2007-12-20 The once-neglected study of counter-insurgency operations has recently emerged as an area of central concern for Western governments and their military organizations. While counter-insurgency represents a hugely challenging form of contemporary warfare, there exists a considerable body of experience that offers assistance in the form of examples of

Counter-Globalization and Socialism in the 21st Century

Thomas Muhr, 2013-06-26 Framed by critical globalisation theory and David Harvey's 'co-revolutionary moments' as a theory of social change, this book brings together a multi-disciplinary team of researchers to empirically analyse how socialism is being constructed in contemporary Latin America and the Caribbean, and beyond. This book uses the case of the Bolivarian Alliance for the Peoples of Our America - Peoples' Trade Agreement (ALBA-TCP) to invite to a re-thinking of resistance to global capitalism and the construction of socialism in the 21st century. Including detailed theory-based ethnographic case studies from Bolivia, Cuba, El Salvador, Nicaragua, Venezuela and the USA, the contributors identify social and structural forces at different levels and scales to illuminate politics and practices at work. Centred around the themes of democracy and justice, and the more general reconfiguration of the state-society relations and power geometries at the local, national, regional and global scales, ALBA and Counter-Globalization is at the forefront in the trend of interdisciplinary approaches to the study of social phenomena of global relevance. Counter-Globalization and Socialism in the 21st Century will be of interest to students and scholars of Latin American politics, global governance, global regionalisms and rising powers.

*Aluminum Window Glass Counter* Violet V. Kisse, 1949

*Christ and Counter-Christ* Carl E. Braaten, 2016-10-19 The apocalyptic Jesus speaks directly to the crises of our time, Carl E. Braaten contends. Yet few modern theologians have come to terms with this aspect of Jesus' message. In these brief and provocative essays, Braaten reappraises theology and society from the point of view of apocalypticism. The author points out the relevance for contemporary Christians of the dualities found in apocalyptic thought: Christ and Counter-Christ, freedom and slavery, the present realm and future kingdom. People in today's counterculture are even seen to possess a vision of freedom similar to that in the apocalyptic sections of the Bible. The reader

will discover that apocalypticism opens up fascinating new dimensions of such issues as ecology, revolution, and secular Christianity. Each chapter displays a double emphasis on theological concerns and on concrete problems facing Christians today. Those who read in the fields of religion, ethics, or American culture will find this book intriguing. The breezy style and careful thinking will appeal to everyone from college student to systematic theologian.
