**Los cambios en el mundo del trabajo del periodista Figaro,**

Roseli,Nonato, Cláudia,Grohmann, Rafael,2016-09-02 El quehacer del periodista se ha modificado sustancialmente. Los materiales periodísticos impresos, televisivos o radiofónicos se producen hoy de manera completamente distinta a la de hace años. Las tecnologías de la comunicación y de la información posibilitaron que se redujera el tiempo y el espacio, lo que ha reducido el tiempo de reflexión y de investigación. El periodismo en línea, en tiempo real, los blogs y las herramientas de las redes sociales digitales constituyen innovaciones en las rutinas profesionales. Pero ¿cómo observa el profesional de la información esos cambios? ¿Qué piensa el periodista sobre su propio trabajo y sobre el periodismo en general? ¿Cómo la actividad laboral le organiza su vida? ¿Qué tipo de consumidor mediático es el periodista?

Enciclopedia de Lingüística Hispánica Javier Gutiérrez-Rexach,2016-01-29 The Enciclopedia de Linguistica Hispánica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics. Entries are extensively cross-

referenced and arranged alphabetically within three main sections: Part 1 covers linguistic disciplines, approaches and methodologies. Part 2 brings together the grammar of Spanish, including subsections on phonology, morphology, syntax and semantics. Part 3 brings together the historical, social and geographical factors in the evolution of Spanish. Drawing on the expertise of a wide range of contributors from across the Spanish-speaking world the Enciclopedia de Linguística Hispánica is an indispensable reference for undergraduate and postgraduate students of Spanish, and for anyone with an academic or professional interest in the Spanish language/Spanish linguistics.
