Values at Work George Cheney, 2018-08-06 *Values at Work* is an analysis of organizational dynamics with wide-ranging implications in an age of market globalization. It looks at the challenges businesses face to maintain people-oriented work systems while remaining successful in the larger economy. George Cheney revisits the famous Mondragón worker-owned-and-governed cooperatives in the Basque Country of Spain to examine how that collection of innovative and democratic businesses is responding to the broad trend of marketization. The Mondragón cooperatives are changing in important ways as a direct result of both external pressures to be more competitive and the rise of consumerism, as well as through the modification of internal policies toward greater efficiency. One of the most remarkable aspects of the changes is that some of the same business slogans now heard around the globe are being adopted in this set of organizations renowned for its strongly held internal values, such as participatory democracy, solidarity, and equality. Instead of emphasizing the special or unique qualities of the Mondragón experience, this book demonstrates the case's relevance to trends in all sectors and across the industrialized world.

Downsizing Issues Bonita J. Manson, 2014-01-14 This book examines the impact of downsizing on employee morale and productivity. Downsizing, due to economic changes, has played an integral part in business, the public sector, and schools. No longer are companies inclined to maintain the status quo for the sake of employee loyalty. Downsizing has have resulted in the lives and careers of employees being destroyed. The purpose of this study was to provide insight on the perception of the work environment in light of downsizing in the states of California and Illinois Cooperative Extension. The primary role of Extension is to plan pertinent programs that are effective in meeting the educational needs of the community in agriculture, family and consumer studies, and youth development. This study focuses on how to maintain professional competencies with less staff. Data was provided by the Manson's Workplace Environment Analysis Inventory, and original instrument, to secure reactions of employees in a downsized environment, specifically on morale, survivor job security, and trust. The findings suggested that even though there were discrepancies between the employees' and management's perceptions of morale and survivors job security, they did share similar perceptions on trust in the workplace. The results of this study can be used in designing leadership training programs for community based organizations and others faced with downsizing.

Risky Business William Winston, Lynne F McClure, 2014-06-03 *Risky Business* tells in plain language the specific behaviors that indicate an employee has the potential to become violent, and it tells managers what to do--and what not to do--to prevent workplace violence. Author Lynne Falkin McClure describes in clear detail the eight major categories of behavioral clues to violence and includes anecdotes from work settings to help managers and others identify potentially violent employees. Most importantly, she emphasizes the precautions and steps managers must take when they see these "clues" in an employee's behavior and how to create and maintain a work

environment that is likely to protect everyone. Including the hiring--appraisal--training process, Risky Business focuses on system-wide, ongoing prevention steps organizations can take to protect everyone in the workplace. The book points out for readers informal organizational 'policies' that unwittingly encourage potentially dangerous behaviors in employees and then offers alternative 'policies' that create and maintain a safer environment. Managers, members of personnel, and public relations representatives learn how to deal effectively with the fears of workers and customers should a violent event occur that affects the company's morale and image. However, readers are certain to gain the skills and foresight necessary to avert disaster before it strikes. Lynne Falkin McClure, PhD, is a management consultant, workshop designer/facilitator, and public speaker in Tempe, Arizona. President of McClure Associates Management Consultants, Inc., since 1980, she specializes in work relationships and conducts inhouse workshops for corporations and government agencies. Through The McClure Institute in Tempe, she offers intensive 5--day courses for executives, directors, and managers, as well as for EAP specialists and mental health professionals, on how to identify and prevent potential workplace violence. Dr. McClure has been a guest on several national shows, including appearances on "Maury Povich," "Between the Lines" (Associated Press Broadcast News), "Good Day Atlanta," "Market Talk" (KWHY-TV, America's first all-financial station), and "Wireless Flash" (San Diego).
