Kohei Arai

Proceedings of the Future Technologies Conference (FTC) 2021, Volume 1 Kohei Arai, 2021-10-23 This book covers a wide range of important topics including but not limited to Technology Trends, Computing, Artificial Intelligence, Machine Vision, Communication, Security, e-Learning, and Ambient Intelligence and their applications to the real world. The sixth Future Technologies Conference 2021 was organized virtually and received a total of 531 submissions from academic pioneering researchers, scientists, industrial engineers, and students from all over the world.. After a double-blind peer review process, 191 submissions have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies, but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. We hope that readers find the book interesting, exciting, and inspiring; it provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research.

Microsoft Exchange Server 2003 Advanced Administration Jim McBee, 2008-05-05 Building on the success of his Microsoft Exchange Server 2003 24seven, Jim McBee has fully updated Microsoft Exchange Server 2003 Advanced Administration for Microsoft Exchange Server 2003 SP2 and Windows Server 2003 R2. Starting where documentation, training courses, and other books leave off, McBee offers targeted instruction, practical advice, and insider tips. He covers security,

connectivity, anti-spam protection, disaster recovery, and troubleshooting using an informational and common sense approach that will save you time, improve efficiency, and optimize your day-to-day operations. You'll find: What you need to know about Exchange Server 2003 data storage and security. Real-world scenarios that focus on practical applications. Advice for managing interactions with Active Directory. Updates on mobile e-mail, including seamless Direct Push technologies, and enhancements to device security. The latest protections against spam, including updated Exchange Intelligent Message Filter and new support for Sender ID e-mail authentication. Deployment guidelines for Outlook Web Access. Information on what it takes to support POP3 and IMAP4 clients in the field. Part of the In the Field Results series. This series provides seasoned systems administrators with advanced tools, knowledge, and real-world skills to use on the job. Going beyond what the standard documentation or classroom training provides, these practical guides address the real situations IT professionals face every day, offering streamlined solutions to improve productivity.

Life and Death in the Central Highlands James T. Gillam,2010

Jim Gillam experienced real combat in his Vietnam tour. His stunning accounts of killing and avoiding being killed ring true. Although wounded several times, Jim did not leave the field for treatment in a field hospital, so he never generated the paperwork for a Purple Heart or two or three. Although he would be appalled at the thought, his attention to duty was 'lifer' behavior, a concern for the well-being of his squad that represents the best of NCO leadership in any army.---Allan R.

Millett, author of *Semper Fidelis* and coauthor of *A War to Be Won* [Gillam] looks back on his experiences of Vietnam not solely as a participant in the war, but also with the critical eye of a trained historian... [He] uses an impressive array of after action reports, duty officer logs, battlefield reports, and other primary source material, to back up and reinforce his recollections.---
Journal of Military History review by James H. Willbanks, author of *The Offensive* Gillam, a 'shake and bake' sergeant, presents a good account of small unit infantry action during the war. He is very good at explaining the weaponry, tactics, and living conditions in the field.---James E. Westheider, author of *The African-American Experience in Vietnam* In 1968 James T. Gillam was a poorly focused college student at Ohio University who was dismissed and then drafted into the Army. Unlike most African Americans who entered the Army then, he became a sergeant and an instructor at the Fort McClellan Alabama School of Infantry. In September 1968 he joined the First Battalion, 22nd Regiment of the 4th Infantry Division in Vietnam. Within a month he transformed from an uncertain sergeant---who tried to avoid combat---to an aggressive soldier, killing his first enemy and planning and executing successful ambushes in the jungle. Gillam was a regular point man and occasional tunnel rat who fought below ground, an arena that few people knew about until after the war ended. By January 1970 he had earned a Combat Infantry Badge and been promoted to staff sergeant. Then Washington's politics and military strategy took his battalion to the border of Cambodia. Search-and-destroy missions became longer and deadlier. From January to May his unit hunted and killed the enemy in a series of intense firefights, some of them in close combat. In those months Gillam was shot twice and struck by shrapnel twice. He became a savage, strangling a soldier in hand-to-hand combat inside a lightless tunnel. As his mid-summer date to return home approached, Gillam became fiercely determined to come home alive. The ultimate test of that determination came

during the Cambodian invasion. On his last night in Cambodia, the enemy got inside the wire of the firebase, and the killing became close range and brutal. Gillam left the Army in June 1970, and within two weeks of his last encounter with death, he was once again a college student and destined to become a university professor. The nightmares and guilt about killing are gone, and so is the callous on his soul. *Life and Death in the Central Highlands* is a gripping, personal account of one soldier's war in the Vietnam War

comprehensive history of Australian Aboriginal whaling and sealing. For most Australian Aboriginal people, the impact of colonialism was blunt—dispossession, dislocation, disease, murder, and missionization. Yet there is another story of Australian history that has remained untold, a story of enterprise and entrepreneurship, of Aboriginal people seizing the opportunity to profit from life at sea as whalers and sealers. In some cases participation was voluntary; in others it was more invidious and involved kidnapping and trade in women. In many cases, the individuals maintained and exercised a degree of personal autonomy and agency within their new circumstances. This book explores some of their lives and adventures by analyzing archival records of maritime industry, captains' logs, ships' records, and the journals of the sailors themselves, among other artifacts. Much of what is known about this period comes from the writings of Herman Melville, and in this book Melville's whaling novels act as a prism through which relations aboard ships are understood. Drawing on both history and literature, *Roving Mariners* provides a comprehensive history of Australian Aboriginal whaling and sealing. Lynette Russell is an Australian Research Council Professorial Fellow and Director of the Monash Indigenous Centre at Monash University. She has written several books, including *Appropriated Pasts: Indigenous Peoples and the Colonial Culture of Archaeology* (with Ian J. McNiven) and *Savage*

Introducing Geographic Information Systems with

ArcGIS Michael D. Kennedy, 2013-03-20 An integrated approach

that combines essential GIS background with a practical workbook on applying the principles in ArcGIS 10.0 and 10.1

Introducing Geographic Information Systems with

ArcGIS integrates a broad introduction to GIS with a software-specific workbook for Esri's ArcGIS. Where most courses make do using two separate texts, one covering GIS and another the software, this book enables students and instructors to use a single text with an integrated approach covering both in one volume with a common vocabulary and instructional style. This revised edition focuses on the latest software updates—ArcGIS 10.0 and 10.1. In addition to its already successful coverage, the book allows students to experience publishing maps on the Internet through new exercises, and introduces the idea of programming in the language Esri has chosen for applications (i.e., Python). A DVD is packaged with the book, as in prior editions, containing data for working out all of the exercises. This complete, user-friendly coursebook: Is updated for the latest ArcGIS releases—ArcGIS 10.0 and 10.1 Introduces the central concepts of GIS and topics needed to understand spatial information analysis Provides a considerable ability to operate important tools in ArcGIS Demonstrates new capabilities of ArcGIS 10.0 and 10.1 Provides a basis for the advanced study of GIS and the study of the newly emerging field of GIScience Introducing Geographic Information Systems with ArcGIS, Third Edition is the ideal guide for undergraduate students taking courses such as Introduction to GIS, Fundamentals of GIS, and Introduction to ArcGIS Desktop. It is also an important guide for professionals looking to update their skills for ArcGIS 10.0 and 10.1.

UML 2 Toolkit Hans-Erik Eriksson, Magnus Penker, Brian

Lyons, David Fado, 2003-11-04 Gain the skills to effectively plan software applications and systems using the latest version of UML. UML 2 represents a significant update to the UML specification, from providing more robust mechanisms for modeling workflow and actions to making the modeling language more executable. Now in its second edition, this bestselling book provides you with all the tools you'll need for effective modeling with UML 2. The authors get you up to speed by presenting an overview of UML and its main features. You'll then learn how to apply UML to produce effective diagrams as you progress through more advanced topics such as use-case diagrams, classes and their relationships, dynamic diagrams, system architecture, and extending UML. The authors take you through the process of modeling with UML so that you can successfully deliver a software product or information management system. With the help of numerous examples and an extensive case study, this book teaches you how to:

- * Organize, describe, assess, test, and realize use cases
- * Gain substantial information about a system by using classes
- * Utilize activity diagrams, state machines, and interaction diagrams to handle common issues
- * Extend UML features for specific environment or domains
- * Use UML as part of a Model Driven Architecture initiative
- * Apply an effective process for using UML

The CD-ROM contains all of the UML models and Java™ code for a complete application, Java™ 2 Platform, Standard Edition, Version 1.4.1, and links to the Web sites for vendors of UML 2 tools.

The Joint Chiefs of Staff and the War in Vietnam, 1960-1968: 1960-1968 Graham A. Cosmas,2009

No Sacrifice Too Great Gregory Fontenot,2023-06-21 The U.S. 1st Infantry Division (1st ID), familiarly known as the Big Red One, adapted to dynamic battlefield conditions throughout the course of its deployment during World War II by innovating and altering behavior, including tactics, techniques, and procedures. Both the Division's leaders and soldiers accomplished this by thinking critically about their experiences in combat and wasting little time in putting lessons learned to good use. Simply put, they learned on the job—in battle and after battle—and did so quickly. In telling the Division's WWII story, which includes an extensive photographic essay featuring many previously unpublished images, Gregory Fontenot includes the stories of individual members of the Big Red One, from high-ranking officers to enlisted men fresh off the streets of Brooklyn, both during and after the conflict. Colonel Fontenot's rare ability to combine expert analysis with compelling narrative history makes *No Sacrifice Too Great* an absorbing read for anyone interested in the military history of the United States.

Khobar Towers Perry D. Jamieson,2008 Tells the story of only a few of hundreds of airmen who were at the Khobar Towers that night -- Tuesday, June 25, 1996. It recounts what they were doing

just prior to the bombing and what happened to them immediately after, providing an idea of activities of airmen on a summer night during Operation Southern Watch. Provides experiences from mechanics on the flightline at King Abdul Aziz Air Base to the security of policemen on the roof of Building 131 at the Khobar Towers.
