Sven Lindqvist

Exterminate Them Clifford E. Trafzer, Joel R. Hyer, 1999-01-31 Popular media depict miners as a rough-and-tumble lot who diligently worked the placers along scenic rushing rivers while living in roaring mining camps in the foothills of the Sierra Nevada Mountains. Trafzer and Hyer destroy this mythic image by offering a collection of original newspaper articles that describe in detail the murder, rape, and enslavement perpetrated by those who participated in the infamous gold rush. It is a mercy to the Red Devils, wrote an editor of the Chico Courier, to exterminate them. Newspaper accounts of the era depict both the barbarity and the nobility in human nature, but while some protested the inhumane treatment of Native Americans, they were not able to end the violence. Native Americans fought back, resisting the invasion, but they could not stop the tide of white miners and settlers. They became strangers in a stolen land.

"Exterminate All the Brutes" Sven Lindqvist, 2021-03-30 Now part of the eponymous HBO docuseries written and directed by Raoul Peck, "Exterminate All the Brutes" is a brilliant intellectual history of Europe's genocidal colonization of Africa—and the terrible myths and lies that it spawned "A book of stunning range and near genius. . . . The catastrophic consequences of European imperialism are made palpable in the personal progress of the author, a late-twentieth-century pilgrim in Africa. Lindqvist's astonishing connections across time and cultures, combined with a marvelous economy of prose, leave the reader appalled, reflective, and grateful." —David Levering Lewis "Exterminate All the Brutes," Sven Lindqvist's widely acclaimed masterpiece, is a searching examination of Europe's dark history in Africa and the origins of genocide. Using Joseph Conrad's Heart of Darkness as his point of departure, the award-winning Swedish author takes us on a haunting tour through the colonial past, interwoven with a modern-day travelogue. Retracing the steps of European explorers, missionaries, politicians, and historians in Africa from the late eighteenth century onward, "Exterminate All the Brutes" exposes the roots of genocide in Africa through Lindqvist's own journey through the Saharan desert. As he shows, fantasies not merely of white superiority but of actual extermination—"cleansing" the earth of the so-called lesser races—deeply informed the colonialism and racist ideology that ultimately culminated in Europe's own Holocaust. Conquerors' stories are the ones that inform the self-mythology of the West—whereas the lives and stories of those displaced, enslaved, or killed are too often ignored and forgotten. "Exterminate All the Brutes" forces a crucial reckoning with a past that still echoes in our collective psyche—a reckoning that compels us to acknowledge the exploitation and brutality at the heart of our modern, globalized society. As Adam Hochschild has written, "Lindqvist's work leaves you changed."

*Exterminate All the Brutes* Sven Lindqvist, 2002 Exterminate All the Brutes is a unique study of Europe's dark history in Africa, written both in the form of a travel diary and as a historical examination of European imperialism and racism over the past two centuries.

Less Than Human David Livingstone Smith, 2011-03-01 Winner of the 2012 Anisfield-Wolf Book Award for Nonfiction A revelatory look at why we dehumanize each other, with stunning examples from world history as well as today's headlines Brute. Cockroach. Lice. Vermin. Dog. Beast. These and other monikers are constantly in use to refer to other humans—for political, religious, ethnic, or sexist reasons. Human beings have a tendency to regard members of their own kind as less than human. This tendency has made atrocities like the Holocaust, the genocide in Rwanda, and the slave trade possible, and yet we still find it in phenomena such as xenophobia, homophobia, military propaganda, and racism. Less Than Human draws on a rich mix of history, psychology, biology, anthropology and philosophy to document the pervasiveness of dehumanization, describe its forms, and explain why we so often resort to it. David Livingstone Smith posits that this behavior is rooted in human nature, but gives us hope in also stating that biological traits are malleable, showing us that change is possible. Less Than Human is a chilling indictment of our nature, and is as timely as it is relevant.

*The Dead Do Not Die* Sven Lindqvist, 2014-06-03 Sven Lindqvist is one of our most original writers on race, colonialism, and genocide, and his signature approach—uniting travelogues with powerful acts of historical excavation—renders his books devastating and unforgettable. Now, for the first time, Lindqvist's most beloved works are available in one beautiful and affordable volume with a new introduction by Adam Hochschild. The Dead Do Not Die includes the full unabridged text of Exterminate All the Brutes, called a book of stunning range and near genius by David Levering Lewis. In this work, Lindqvist uses Joseph Conrad's Heart of Darkness as a point of departure for a haunting tour through the colonial past, retracing the steps of Europeans in Africa from the late eighteenth century onward and thus exposing the roots of genocide via his own journey through the Saharan desert. The full text of Terra Nullius is also included, for which Lindqvist traveled 7,000 miles through Australia in search of the lands the British had claimed as their own because it was inhabited by lower races, the native Aborigines—nearly nine-tenths of whom were annihilated by whites. The shocking story of how no man's land became the province of the white man was called the most original work on Australia and its treatment of Aborigines I have ever read . . . marvelous by Phillip Knightley, author of Australia.

*Blood and Soil* Ben Kiernan, 2008-10-01 A book of surpassing importance that should be required reading for leaders and policymakers throughout the world For thirty years Ben Kiernan has been deeply involved in the study of genocide and crimes against humanity. He has played a key role in unearthing confidential documentation of the atrocities committed by the Khmer Rouge. His writings have transformed our understanding not only of twentieth-century Cambodia but also of the historical phenomenon of genocide. This new book—the first global history of genocide and extermination from ancient times—is among his most important achievements. Kiernan examines outbreaks of mass violence from the classical era to the present, focusing on worldwide colonial exterminations and twentieth-century case studies including the Armenian genocide, the Nazi Holocaust, Stalin's mass murders, and the Cambodian and Rwandan genocides. He identifies connections, patterns, and features that in nearly every case gave early warning of the catastrophe to come: racism or religious prejudice, territorial expansionism, and cults of antiquity and agrarianism. The ideologies that have motivated perpetrators of mass killings in the past persist in our new century, says Kiernan. He urges that we heed the rich historical evidence with its telltale signs for predicting and preventing future genocides.

**Extermination** Don Pendleton, 2011-10-01 When Stony Man is called to battle, the crisis is real and immediate. Cybernetics experts run logistics from the war room of a secret facility known only to the President. The commando teams of Able Team and Phoenix Force lead the ground fight—consummate soldiers dedicated to protecting the innocent. The world isn't aware of Stony Man, but Stony Man remains vigilant: guarding that fine line between hell and earth. Small farming towns across America, Europe and Asia have come under attack by a virulent new biochemical cocktail that

induces the ravages of starvation in less than a day. The group behind it promises to decimate the human population unless its twisted demands are met by government heads. As this radical anti-industrial group launches its deadly countdown, Stony Man works feverishly to stop the horrifying plague from spreading—before a global megacull leaves only a handful of people to weep for the earth.

*The Final Solution* Gerald Reitlinger,1961  
*Exterminate/Regenerate* John Higgs,2025-04-10 Doctor Who behaves in a way quite unlike any other fictional character. For sixty years the Doctor has sat at the heart of British culture and rewired the imaginations of generations. Yet no one person invented this strange character, and no one person controls them. They emerged from the space between many minds, able to evolve and adapt to our fast-changing world more skilfully than any other fiction. The story of Doctor Who is a story of change, mystery and the role of imaginary characters in our lives. It is also the story of the thousands of people who have given part of themselves - and sometimes, too much of themselves - in order to bring this folk hero to life. Ncuti Gatwa, Russell T Davies and Disney+ are currently placing this glorious, imaginative and perfectly ludicrous British character at the heart of global culture, so it is time to acknowledge that the life of Doctor Who is far stranger, profound and uncanny than we usually assume.

How to Exterminate the Black Woman Monica Prince,2020-03 Poetry. Drama. African & African American Studies. Women's Studies. In a country grappling with its bloody history and uncertain future, HOW TO EXTERMINATE THE BLACK WOMAN illuminates the struggle of the Black woman trying to thrive in a society seeking to consume and erase her. Set after the murder of Sandra Bland, or Trayvon Martin, or Emmett Till, this choreopoem takes place in the collective memory of American Black women, represented by Angela fractured into six emotions: fear, loss, silence, expectation, fury, and new. Through chanted sestinas, yoga-inspired dances, and a chorus of the subconscious, HOW TO EXTERMINATE THE BLACK WOMAN confronts readers and audiences with the terrors and triumphs that mark Black women in the United States, from burying their murdered children and surviving rape to going natural and falling in love. More than just #BlackGirlMagic, this choreopoem casts a literary spell, demanding empathy, action, and humanity from the stage.

War of Extermination Hannes Heer,Klaus Naumann,2004-11 This volume contains the most important contributions by distinguished historians who have thoroughly demolished this Wehrmacht myth. The picture that emerges from this collection is a depressing one and raises many questions about why ordinary men got involved as perpetrators and bystanders in an unprecedented program of extermination of racially inferior men, women, and children in Eastern Europe and the Soviet Union during the Second World War.--Pub. desc.
