Fix J. Albert Mann, 2021-05-11 A BuzzFeed Best YA Book of 2021! A gritty, heart-wrenching novel of disability, pain, belonging, loss, addiction, and friendship. Everything was fine before. When Eve and Lidia could hide their physical differences inside goofy Burger Hut costumes. When Lidia shook Eve up and Eve made Lidia laugh. When Lidia was there. Everything is different now. Cut open . . . rearranged . . . stapled shut, Eve is left alone to recover in a world of pain and a body she no longer recognizes. Her only companions being a bottle of Roxanol and an infuriating (but cute) neighbor, Eve strikes up a relationship—and makes a pact—with the devil. Sacrificing pieces of a place she doesn't know to return to a place she does. What will she discover when she unravels her past? And is having Lidia back worth the price? In verse and prose, *Fix* paints a riveting picture of a teen struggling to find herself and move forward with her life in a sea of opioids, regret, grief, and hope.

The Fix Michelle P. King, 2020-03-03 In the vein of #Girlboss and *Nice Girls Don't Get the Corner Office*, discover how to thrive at work from the head of the Global Innovation Coalition for Change at UN Women with this “passionate, practical roadmap for addressing inequality and finally making our workplaces work for women” (Arianna Huffington). For years, we've been telling women that in order to succeed at work, they have to change themselves first—lean in, negotiate like a man, don't act too nice or you'll never get the corner office. But after sixteen years working with major Fortune 500 companies as a gender equality expert, Michelle King has realized one simple truth—the tired advice of fixing women doesn't fix anything. The truth is that workplaces are gendered; they were designed by men for men. Because of this, most organizations unconsciously carry the idea of an “ideal worker,” typically a straight, white man who doesn't have to juggle work and family commitments. Based on King's research and exclusive interviews with major companies and

thought leaders, *The Fix* reveals why denying the fact that women are held back just because they are women—what she calls gender denial—is the biggest obstacle holding women back at work and outlines the hidden sexism and invisible barriers women encounter at work every day. Women who speak up are seen as pushy. Women who ask for a raise are seen as difficult. Women who spend hours networking don't get the same career benefits as men do. Because women don't look like the ideal worker and can't behave like the ideal worker, they are passed over for promotions, paid less, and pushed out of the workforce, not because they aren't good enough, but because they aren't men. In this fascinating and empowering book, King outlines the invisible barriers that hold women back at all stages of their careers, and provides readers with a clear set of takeaways to thrive despite the sexist workplace, as they fight for change from within. Gender equality is not about women, and it is not about men—it is about making workplaces work for everyone. Together, we can fix work, not women.

Fix It! Grammar: the Nose Tree [Book 1 Teacher/Student Combo] Pamela White, 2014

The Foot Fix Yamuna Zake, 2021-01-12 This book will empower you to get your feet functioning as they should do, without any medical intervention. Includes a 4-week plan of quick-and-easy exercises to get your feet back into shape, plus solutions for specific foot issues, from plantar fasciitis to fallen arches. This is a uniquely helpful and accessible guide to taking control of your own foot health by holistic health innovator Yamuna Zake. We don't need doctors, orthotics or even surgery to relieve common foot problems, such as plantar fasciitis, bunions, neuromas, arthritis, hammertoes, and flat feet. By learning a correct gait that uses the entire foot to distribute weight, we can relieve and prevent common foot problems without any medical intervention. The book offers an easy-to-follow 4-week program of routines that take just 15 minutes a day during the program and

allows readers to fix their feet and take ownership of their body. Each of the four weeks focuses on a different part of the foot: the heel, the arch, the ball and the toes. There are 3-4 exercises in each section and readers try them all and can choose to focus on those exercises in each section that they enjoy most. This programme is then supported with mindful foot practices to ensure bad habits don't return. Six common foot problems are also explored, including their causes (specific incorrect walking patterns) and ways of preventing and relieving them (exercises plus mindful practices). You won't find any medical concepts or terminology in this book, nor do you need to learn complicated foot anatomy. The whole program is based on what you already know: walking. You'll learn how to walk and stand correctly and to use every part of your feet as nature intended. That's all you need to do!

The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative Florence Williams, 2017-02-07 Highly informative and remarkably entertaining. —Elle From forest trails in Korea, to islands in Finland, to eucalyptus groves in California, Florence Williams investigates the science behind nature's positive effects on the brain. Delving into brand-new research, she uncovers the powers of the natural world to improve health, promote reflection and innovation, and strengthen our relationships. As our modern lives shift dramatically indoors, these ideas—and the answers they yield—are more urgent than ever.

The Big Fix Hal Harvey, Justin Gillis, 2023-06-06 A “smart, honest, and down-to-earth” (Elizabeth Kolbert) citizen's guide to the seven urgent changes that will really make a difference for our climate. If you think the only thing you can do to combat climate change is to install a smart thermostat or cook plant-based meat, you're thinking too small. In *The Big Fix*, energy policy advisor Hal Harvey and longtime New York Times reporter Justin Gillis offer a new, hopeful way to engage with one of the

greatest problems of our age. Writing in a lively, accessible style, the pair illuminate how the really big decisions that affect our climate get made—whether by the most obscure public utilities commissions or in the lofty halls of state capitols—and reveal how each of us can influence these decisions to deliver change. The pair focus on the seven areas of our political economy where ambitious but practical changes will have the greatest effect: from what kind of power plants to build to how much insulation new houses require to how efficient cars must be before they're allowed on the road. Equal parts pragmatic and inspiring—and “full of illustrative stories and compelling evidence” (Al Gore)—*The Big Fix* provides an action plan for anyone serious about holding our governments accountable and saving our threatened planet.

The Quick Fix Jesse Singal, 2021-04-06 An investigative journalist exposes the many holes in today's bestselling behavioral science, and argues that the trendy, TED-Talk-friendly psychological interventions that are so in vogue at the moment will never be enough to truly address social injustice and inequality. With their viral TED talks, bestselling books, and counter-intuitive remedies for complicated problems, psychologists and other social scientists have become the reigning thinkers of our time. Grit and “power posing” promised to help overcome entrenched inequalities in schools and the workplace; the Army spent hundreds of millions of dollars on a positive psychology intervention geared at preventing PTSD in its combat soldiers; and the implicit association test swept the nation on the strength of the claim that it can reveal unconscious biases and reduce racism in police departments and human resources departments. But what if much of the science underlying these blockbuster ideas is dubious or fallacious? What if Americans' longstanding preference for simplistic self-help platitudes is

exerting a pernicious influence on the way behavioral science is communicated and even funded, leading respected academics and the media astray? In *The Quick Fix*, Jesse Singal examines the most influential ideas of recent decades and the shaky science that supports them. He begins with the California legislator who introduced self-esteem into classrooms around the country in the 1980s and the Princeton political scientist who warned of an epidemic of youthful “superpredators” in the 1990s. In both cases, a much-touted idea had little basis in reality, but had a massive impact. Turning toward the explosive popularity of 21st-century social psychology, Singal examines the misleading appeal of entertaining lab results and critiques the idea that subtle unconscious cues shape our behavior. As he shows, today’s popular behavioral science emphasizes repairing, improving, and optimizing individuals rather than truly understanding and confronting the larger structural forces that drive social ills. Like Anand Giridharadas’s *Winners Take All*, *The Quick Fix* is a fresh and powerful indictment of the thought leaders and influencers who cut corners as they sell the public half-baked solutions to problems that deserve more serious treatment.

The Fix David Baldacci, 2017-04-20 Amos Decker, David Baldacci's unique special agent, who suffered a head injury that resulted in giving him the gift of a remarkable memory, takes on another case in *The Fix*. Walter Dabney is a family man. A loving husband and the father of four grown daughters, he’s built a life many would be proud of. But then the unthinkable happens. Standing outside the FBI Headquarters in Washington, DC, Dabney shoots school teacher Anne Berkshire in cold blood before turning the gun on himself. One of the many witnesses is Amos Decker; a man who forgets nothing and sees what most miss. Baffled by what appears to be a seemingly senseless and random killing, Decker is thrust into the investigation to determine what drove this family man to pull the trigger. As part of an FBI special task force, Decker and the team delve into the

lives of Dabney and Berkshire to find a connection that doesn't seem to exist. What they do find are secrets that stretch back a lifetime and reveal a current plot of impending destruction that will send the world reeling, placing Decker and his team squarely in the crosshairs. The Fix is the third in the Amos Decker series, following The Last Mile. Continue the investigative thrillers with The Fallen.

The Fix Michael Massing, 2000-05-31 Massing confronts the failure of the war on drugs and documents the much greater potential for reclaiming drug addicts that can be had by treatment and support rather than criminalization, and at a lower cost than building ever more prisons and militarizing drug source countries in Latin America.

Fix the Pumps Darcy S. O'Neil, 2010-05 Fix the Pumps is a historical account of the golden era of soda fountains including over 450 recipes that made soda America's most popular drink.

The Doughnut Fix Jessie Janowitz, 2018-04-03 Superfudge meets The Lemonade War in this funny, heartwarming series debut about change, adventure, family, and of course, doughnuts. Tristan isn't Gifted or Talented like his sister Jeanine, and he's always been okay with that because he can make a perfect chocolate chip cookie and he lives in the greatest city in the world. But his life takes a turn for the worse when his parents decide to move to middle-of-nowhere Petersville—a town with one street and no restaurants. It's like suddenly they're supposed to be this other family, one that can survive without bagels and movie theaters. His suspicions about his new town are confirmed when he's tricked into believing the local general store has life-changing chocolate cream doughnuts, when in fact the owner hasn't made them in years. And so begins the only thing that could make life in Petersville worth living: getting the recipe, making the doughnuts, and bringing them back to the town through his very own doughnut stand. But Tristan will soon discover that when starting a business, it helps to be both Gifted

and Talented, and It's possible he's bitten off more than he can chew... A perfect book for: Children with the entrepreneurial spirit! Parents and teachers looking to inspire a growth mindset! Young foodies looking for fun recipes!

Fix by Force Jason Warne,2012-03 Spencer doesn't have a choice. He can't choose to be different than what he is—the son of the town's worst enemy, the weakling who can't stand up for himself, the loser without friends. He can't change the way things are. Or maybe he can. Immediate confidence. Rapid change. Instant hope. These are the things Spencer believes he needs to fix his life, and that is what the steroids promise—a quick fix. But promises can be broken and shortcuts are often treacherous, and Spencer must decide if those risks are worth the perceived rewards—if “artificial” hope is strong enough for him to be fixed, by force.

The Fix Vol. 3 Nick Spencer,2018-09-05 Roy makes a big breakthrough in his murder investigation, while Mac is out for justice. Collects THE FIX #9-12

The Fix Damian Thompson,2012-05-24 Addictions to iphones, painkillers, cupcakes, alcohol and sex are taking over our lives.

American Fix Ryan Hampton,2018-08-28 Nearly every American knows someone who has been affected by the opioid crisis. Addiction is a trans-partisan issue that impacts individuals from every walk of life. Millions of Americans, tired of watching their loved ones die while politicians ignore this issue. Where is the solution? Where is the hope? Where's the outrage? Ryan Hampton is a young man who has made addiction and recovery reform his life's mission. Through the wildly successful non-profit organization Facing Addiction, Hampton has been rocketed to the center of America's rising recovery movement—quickly emerging as the de facto leader of the national conversation on addiction. He understands firsthand how easy it is to develop a dependency on opioids, and how destructive it can quickly become. Now, he is waging a permanent campaign to change our way of thinking

about and addressing addiction in this country. In *American Fix*, Hampton describes his personal struggle with addiction, outlines the challenges that the recovery movement currently faces, and offers a concrete, comprehensive plan of action towards making America's addiction crisis a thing of the past.

Why Work Sucks and How to Fix It Cali Ressler, Jody Thompson, 2008-05-29 Do you hate cramming all of your errands into the weekend? Do you resent having to beg permission to watch your kid's weekday soccer game? Are you tired of seeing people who aren't very good at their jobs get promoted because they arrive early and stay late? There's got to be a better way—and there is! Cali Ressler and Jody Thompson show that everyone benefits when we change the focus from hours to outcomes. It's just that our traditional definition of work—Monday through Friday, nine to five—doesn't make sense in the always-on global economy. So, Ressler and Thompson created the Results-Only Work Environment. In a ROWE, you control when, where, and how long you work. As long as you meet your objectives, the way you spend your time is entirely up to you. Suddenly, work isn't a place you go, it's a thing you do. In a ROWE, there are no mandatory meetings or fixed schedules. You stop doing any activity that wastes time, and no one criticizes you for "leaving early" or "coming in late." If you do your best work at midnight or on Sundays, go for it! ROWE sounds like a fantasy, but Ressler and Thompson have already made it a reality at Best Buy, a Fortune 100 company. They have proven that ROWE not only makes employees happier but also delivers better results. And now the authors are helping companies implement ROWE nationwide. Infused with passion and common sense, *Why Work Sucks and How to Fix It* will change the way you think about your job, your company, and your quality of life. Read it and join the revolution!

All That I Can Fix Crystal Chan, 2019-06-11 "A superbly entertaining read." —Kirkus Reviews (starred review) "Will win

over teens.” —School Library Journal (starred review) A teen boy’s world gets turned upside-down when a zoo of exotic animals takes over his small town in this wickedly funny, heartbreakingly honest novel that’s perfect for fans of David Arnold. In Makersville, Indiana, people know all about Ronney—he’s from that mixed-race family with the dad who tried to kill himself, the pill-popping mom, and the genius kid sister. If having a family like that wasn’t bad enough, the local eccentric at the edge of town decided one night to open up all the cages of his exotic zoo—lions, cheetahs, tigers—and then shoot himself dead. Go figure. Even more proof that you can’t trust adults to do the right thing. Overnight, news crews, gun control supporters, and gun rights advocates descend on Makersville, bringing around-the-clock news coverage, rallies, and anti-rallies with them. With his parents checked out, Ronney is left tending to his sister’s mounting fears of roaming lions, stopping his best friend from going on a suburban safari, and shaking loose a lonely boy who follows Ronney wherever he goes. Can Ronney figure out a way to hold it together as all his worlds fall apart? From acclaimed author Crystal Chan comes an incisive tale of love, loyalty, and the great leaps we take to protect the people and places we love most.
