a tumblr book Allison McCracken,Alexander Cho,Louisa Stein,Indira N Hoch,2020-10-26 This book takes an extensive look at the many different types of users and cultures that comprise the popular social media platform Tumblr. Though it does not receive nearly as much attention as other social media such as Twitter or Facebook, Tumblr and its users have been hugely influential in creating and shifting popular culture, especially progressive youth culture, with the New York Times referring to 2014 as the dawning of the “age of Tumblr activism.” Perfect for those unfamiliar with the platform as well as those who grew up on it, this volume contains essays and artwork that span many different topics: fandom; platform structure and design; race, gender and sexuality, including queer and trans identities; aesthetics; disability and mental health; and social media privacy and ethics. An entire generation of young people that is now beginning to influence mass culture and politics came of age on Tumblr, and this volume is an indispensable guide to the many ways this platform works.

GIFs Tilman Baumgärtel,2020-09-24 Die GIF-Animation ist – obwohl technisch längst veraltet – zur digitalen Volkskunst avanciert. Tilman Baumgärtel zeigt die vielfältigen Funktionen der bewegten Bilder: vom kreativen Selbstausdruck bis hin zum Einsatz in komplexen Kommunikationssituationen. Die GIF-Animation hat nicht nur ihre eigenen Klassiker, sondern auch eine höchst profitable GIF-Industrie hervorgebracht. Sie ist eines der ältesten Bildformate aus der Frühzeit des Internets. Schon Mitte der 90er Jahre wurden im Netz Animationen als kurze Loops veröffentlicht. Obwohl technisch veraltet, hat die GIF-Animation nichts von ihrer Popularität eingebüßt. Im Gegenteil: Sie hat eine Art eigene Ausdrucksform entwickelt, die ein wichtiges Element der Kommunikation in den Sozialen Medien ist.

Code for What? Clifford Lee,Elisabeth Soep,2023-01-10 Coding for a purpose: helping young people combine journalism, data, design, and code to

make media that makes a difference. Educators are urged to teach “code for all”—to make a specialized field accessible for students usually excluded from it. In Code for What? Clifford Lee and Elisabeth Soep instead ask the question, “code for what?” What if coding were a justice-driven medium for storytelling rather than a narrow technical skill? What if “democratizing” computer science went beyond the usual one-off workshop and empowered youth to create digital products for social impact? Lee and Soep answer these questions with stories of a diverse group of young people in Oakland, California, who combine journalism, data, design, and code to create media that make a difference. These teenage and young adult producers created interactive projects that explored gendered and racialized dress code policies in schools; designed tools for LGBTQ+ youth experiencing discrimination; investigated facial recognition software and what can be done about it; and developed a mobile app to promote mental health through self-awareness and outreach for support, and more, for distribution to audiences that could reach into the millions. Working with educators and media professionals at YR Media, an award-winning organization that helps young people from underserved communities build skills in media, journalism, and the arts, these teens found their own vibrant answers to “why code?” They code for insight, connection and community, accountability, creative expression, joy, and hope.
