**Grading for Equity** Joe Feldman, 2018-09-25 Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed. . . . This must-have book will help teachers learn to implement improved, equity-focused grading for impact. -Zaretta Hammond, Author of Culturally Responsive Teaching & The Brain Crack open the grading conversation Here at last—and none too soon—is a resource that delivers the research base, tools, and courage to tackle one of the most challenging and emotionally charged conversations in today's schools: our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students. With *Grading for Equity*, Joe Feldman cuts to the core of the conversation, revealing how grading practices that are accurate, bias-resistant, and motivational will improve learning, minimize grade inflation, reduce failure rates, and become a lever for creating stronger teacher-student relationships and more caring classrooms. Essential reading for schoolwide and individual book study or for student advocates, *Grading for Equity* provides A critical historical backdrop, describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity, control students, and endorse a fixed mindset about students' academic potential—practices that are still in place a century later A summary of the research on motivation and equitable teaching and learning, establishing a rock-solid foundation and a true north orientation toward equitable grading practices Specific grading practices that are more equitable, along with teacher examples, strategies to solve common hiccups and concerns, and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes, Grading practices are a mirror not just for students, but for us as their teachers. Each one of us should start by asking, What do my grading practices say about who I am and what I believe? Then, let's make the choice to do things differently . . . with *Grading for Equity* as a dog-eared reference.

**T'was the Night Before Fifth Grade** Jeff Lisy,2015-06-01 This book is about a fifth grade boy who is new to school and is nervous about starting fifth grade. His name is John and he is feeling anxious and frightened at his new school, until one student makes John feel accepted by her kindness and generosity. Sometimes all we need is a friend to help guide us in the right direction. I came up with the idea for this book when I was reading Christmas stories to my kids one night before they went to bed. I thought to myself, I am a fifth grade teacher and I could write a book to help kids feel more accepted and safe in a new situation. To keep this book more personal to me, I asked my friend and the art teacher at my school, Abe Lee to illustrate the book. It was fun and entertaining to work with Abe on this book.
