Helping Edgar H. Schein,2011-02-07 A Strategy+Business Best Leadership Book of the Year: An “uncommonly wise” analysis of the psychological and social dynamics of helping relationships (Warren Bennis, author of On Becoming a Leader). Helping is a fundamental human activity, but it can also be a frustrating one. All too often, to our bewilderment, our sincere offers of help are resented, resisted, or refused—and we often react the same way when people try to help us. Why is it so difficult to provide or accept help? How can we make the whole process easier? Many words are used for helping: assisting, aiding, advising, caregiving, coaching, consulting, counseling, guiding, mentoring, supporting, teaching, and more. In this seminal book on the topic, corporate culture and organizational development guru Ed Schein analyzes the social and psychological dynamics common to all types of helping relationships, explains why help is often not helpful, and shows what any would-be helpers must do to ensure that their assistance is both welcomed and genuinely useful. He shows how to navigate the delicate acts of asking for or offering help; avoid pitfalls; mitigate power imbalances; and establish a solid foundation of trust—and how these techniques can be applied to teamwork and organizational leadership. From the bestselling author of Organizational Culture and Leadership, and illustrated with examples from many types of relationships—husbands and wives, doctors and patients, consultants and clients—Helping is a concise, definitive analysis of what it takes to establish successful, mutually satisfying helping relationships.

You Need Help! Mark S Komrad,2012-07-31 If you feel that a friend or loved one has a problem and needs professional help, this step-by-step guide will give you the tools to approach, engage, and support him or her. Just about everyone knows a relative, friend, or coworker who is exhibiting signs of emotional or behavioral turmoil. Yet figuring out how to reach out to that person can feel insurmountable. We know it is the right thing to do, yet many of us hesitate to take action out of fear of conflict, hurt feelings, or damaging the relationship. Through a rich combination of user-friendly tools and real-life stories, Mark S. Komrad, MD, offers step-by-step guidance and support as you take the courageous step of helping a friend who might not even recognize that he or she is in need. He guides you in developing a strong course of action, starting by determining when professional help is needed, then moves you through the steps of picking the right time, making the first approach, gathering allies, selecting the right professional, and supporting friends or relatives as they go through the necessary therapeutic process to resolve their problems. Included are scripts based on Komrad’s work with his own patients, designed to help you anticipate next steps and arm you with the tools to respond constructively and compassionately. You will also find the guidance and information needed to understand mental illness and get past the stigma still associated with it, so you can engage and support your loved one with insight and compassion in his or her journey toward emotional stability and health.

The Book of Help Megan Griswold,2020-05-19 LOS ANGELES TIMES BESTSELLER • WINNER OF THE NAUTILUS BOOK AWARD • “In a world full of spiritual seekers, Megan Griswold is an undisputed all-star. What a delightful journey!”—Elizabeth Gilbert, #1 New York Times bestselling author of Big Magic and Eat, Pray, Love The Book of Help traces one woman’s life-long quest for love, connection, and peace of mind. A heartbreakingly vulnerable and tragically funny memoir-in-remedies, Megan Griswold’s narrative spans four decades and six continents—from the glaciers of Patagonia and the psycho-tropics of Brazil, to academia, the Ivy League, and the study of Eastern medicine. Megan was born into a family who enthusiastically embraced the offerings of New Age California culture—at seven she asked Santa for her first mantra and by twelve she was taking weekend workshops on personal growth. But later, when her newly-wedded husband calls in the middle of the night to say he’s landed in jail, Megan must accept that her many certificates, degrees and licenses had not been the finish line she’d once imagined them to be, but instead the preliminary training for what would prove to be the wildest, most growth-insisting journey of her life.

HELP! Oliver Burkeman,2011-01-06 How do you solve the problem of human happiness? It’s a subject that has occupied some of the greatest philosophers of all time, from Aristotle to Paul McKenna – but how do we sort the good ideas from the terrible ones? Over the past few years, Oliver Burkeman has travelled to some of the strangest outposts of the ‘happiness industry’ in an attempt to find out. In Help!, the first collection of his popular Guardian columns, Burkeman presents his findings. It’s a witty and thought-provoking exploration that punctures many of self-help’s most common myths, while also offering clear-headed, practical and of ten counter-intuitive advice on a range of topics from stress, procrastination and insomnia to wealth, laughter, time management and creativity. It doesn’t claim to have solved the problem of human happiness. But it might just bring us one step closer.

Help Me! Marianne Power,2019-01-15 “Consistently entertaining . . . she writes with unflinching honesty . . . Bridget Jones meets Buddha in this plucky, heartwarming, comical debut memoir.” –Kirkus Reviews (starred review) For years journalist Marianne Power lined her bookshelves with dog-eared copies of definitive guides on how to live your best life, dipping in and out of self-help books when she needed them most. Then, one day, she woke up to find that the life she hoped for and the life she was living were worlds apart—and she set out to make some big changes. Marianne decided to finally find out if her elusive “perfect existence” –the one without debt, anxiety, or hangover Netflix marathons, the one where she healthily bounced around town and met the cashmere-sweater-wearing man of her dreams—really did lie in the pages of our best known and acclaimed self-help books. She vowed to test a book a month for one year, following its advice to the letter, taking what she hoped would be the surest path to a flawless new her. But as the months passed and Marianne’s reality was turned upside down, she found herself confronted with a different question: Self-help can change your life, but is it for the better? With humor, audacity, disarming candor and unassuming wisdom, in Help Me Marianne Power plumbs the trials and tests of being a modern woman in a “have it all” culture, and what it really means to be our very best selves. “Equal parts touching and hilarious, Power’s account of the year she spent following the tenets of self-help books will make you feel better about your own flawed life.” –People

Help! Thomas Brothers,2018-10-23 The fascinating story of how creative cooperation inspired two of the world’s most celebrated musical acts. The Beatles and Duke Ellington’s Orchestra stand as the two greatest examples of collaboration in music history. Ellington’s forte was not melody—his key partners were not lyricists but his fellow musicians. His strength was in arranging, in elevating the role of a featured soloist, in selecting titles: in packaging compositions. He was also very good at taking credit when the credit wasn’t solely his, as in the case of Mood Indigo, though he was ultimately responsible for the orchestration of what Duke University musicologist Thomas Brothers calls one of his finest achievements. If Ellington was often reluctant to publicly acknowledge how essential collaboration was to the Ellington sound, the relationship between Lennon and McCartney was fluid from the start. Lennon and McCartney wrote for each other as primary audience. Lennon’s preference for simpler music meant that it begged for enhancement and McCartney was only too happy to oblige, and while McCartney expanded the Beatles’ musical range, Lennon did the same thing with lyrics. Through his fascinating examination of these two musical legends, Brothers delivers a portrait of the creative process at work, demonstrating that the cooperative method at the foundation of these two artist-groups was the primary reason for their unmatched musical success. While clarifying the historical record of who wrote what, with whom, and how, Brothers brings the past to life with a lifetime of musical knowledge that reverberates through every page, and analyses of songs from Lennon and McCartney’s Strawberry Fields Forever to Billy Strayhorn’s Chelsea Bridge. Help! describes in rich detail the music and mastery of two cultural leaders whose popularity has never dimmed, and the process of collaboration that allowed them to achieve an artistic vision greater than the sum of their parts.

The Last Self-Help Book You'll Ever Need Paul Pearsall,2009-03-17 Although the tenets of self-help have been attacked before, Pearsall is the first psychologist to expose these deeply entrenched ideas to scientific scrutiny. And unlike other debunking books, The Last Self-Help Book You'll Ever Need goes beyond skepticism to propose a set of life-affirming (and refreshingly contrarian) axioms that can help anyone lead the Good Life.

Reinforcements Heidi Grant,2018-06-12 Humans have a natural instinct to help others. Imagine walking up to a stranger on the subway and asking them for their seat. What about asking a random person on the street if you could borrow their phone? If the idea makes you squeamish, you're not alone--social psychologists have found that doing these very things makes most of us almost unbearably uncomfortable. But here's the funny thing: even though we hate to ask for help, most people are wired to be helpful. And that's a good thing, because every day in the modern, uber-collaborative workplace, we all need to know when and how to call in the cavalry. However, asking people for help isn't intuitive; in fact, a lot of our instincts are wrong. As a result, we do a poor job of calling in the reinforcements we need, leaving confused or even offended colleagues in our wake. This pragmatic book explains how to get it right. With humor, insight, and engaging storytelling, Heidi Grant, PhD, describes how to elicit helpful behavior from your friends, family, and colleagues--in a way that leaves them feeling genuinely happy to lend a hand. Whether you're a first-time manager or a seasoned leader, getting people to pitch in is what leadership is. Fortunately, people have a natural instinct to help other human beings; you just need to know how to channel this urge into what it is you specifically need them to do. It's not manipulation. It's just management.

Your Sacred Self Wayne W. Dyer,2009-10-13 The bestselling author of Your Erroneous Zones, Pulling Your Own Strings, and Wisdom of the Ages combines psychological insights and guidelines for achieving spiritual fulfillment to present a three-step program designed to help readers look inside themselves to find a new sense of self-awareness and spiritual joy. Developing the sacred self, Wayne Dyer explains, brings an understanding of our place in the world and a sense of satisfaction in ourselves and others. In Your Sacred Self, Dyer offers a program that helps listeners establish a spiritually-oriented, rather than an ego-oriented, approach to life. Step by step, Dyer shows us how to progress from emotional awareness to psychological insight to spiritual alternatives in order to change our experience of life from the need to acquire to a sense of abundance; from a sense of one's self as sinful and inferior to a sense of one's self as divine; from a need to achieve and acquire to an awareness that detachment and letting go bring freedom. Your Sacred Self is an inspiring, hopeful, illuminating guide that can help everyone live a happier, richer, more meaningful life.

I Want to Help! Diane Adams,2012 The irrepressible heroine of I Can Do It Myself! is back and ready for school. Emily Pearl already knows a lot. She can count to fourteen. She can write her own name. She can tell what is different and what is the same. And she's still quite sure she can do things herself. Not only that, she wants to be the perfect helper for her new teacher, Ms. Glenn. Help Them Grow Or Watch Them Go Beverly Kaye,Julie Winkle Giulioni,2012 Kaye and Giulioni identify three broad types of conversations that have the power to motivate employees more deeply than any well-intentioned development event or process to help with career development.

The Hoarder in You Robin Zasio,2012-11-13 We all have treasured possessions—a favorite pair of shoes, a much-beloved chair, an ever-expanding record collection. But sometimes, this emotional attachment to our belongings can spiral out of control and culminate into a condition called compulsive hoarding. From hobbyists and collectors to pack rats and compulsive shoppers—it is close to impossible for hoarders to relinquish their precious objects, even if it means that stuff takes over their lives and their homes. According to psychologist Dr. Robin Zasio, our fascination with hoarding stems from the fact that most of us fall somewhere on the hoarding continuum. Even though it may not regularly interfere with our everyday lives, to some degree or another, many of us hoard. The Hoarder In You provides practical advice for decluttering and organizing, including how to tame the emotional pull of acquiring additional things, make order out of chaos by getting a handle on clutter, and create an organizational system that reduces stress and anxiety. Dr. Zasio also shares some of the most serious cases of hoarding that she's encountered, and explains how we can learn from these extreme examples—no matter where we are on the hoarding continuum.

How Can I Help? Ram Dass,Paul Gorman,2011-12-21 Discover how giving of yourself can lead to some of the most joyous moments in your life—in a book that “deserves a special place on that shelf reserved for truly practical wisdom (Harold Kushner, author of When Bad Things Happen to Good People). Not a day goes by without our being called upon to help one another—at home, at work, on the street, on the phone... We do what we can. Yet so much comes up to complicate this natural response: Will I

have what it takes? How much is enough? How can I deal with suffering? And what really helps, anyway? In this practical helper's companion, the authors explore a path through these confusions, and provide support and inspiration for us in our efforts as members of the helping professions, as volunteers, as community activists, or simply as friends and family trying to meet each other's needs. Here too are deeply moving personal accounts: A housewife brings zoo animals to lift the spirits of nursing home residents; a nun tends the wounded on the first night of the Nicaraguan revolution; a police officer talks a desperate father out of leaping from a roof with his child; a nurse allows an infant to spend its last moments of life in her arms rather than on a hospital machine. From many such stories and the authors' reflections, we can find strength, clarity, and wisdom for those times when we are called on to care for one another.

Don't Help Ronald Rogers,1988 The authors bring extensive clinical experience to the leading edge of treatment and counseling in a wonderfully readable book of enormous value to everyone concerned. A superb reinterpretation of alcoholism treatment.
