If the Heart Is Lean Margaret Luongo,2008-09 The sixteen stories in Margaret Luongo's *If the Heart Is Lean* etch sharp portraits of people in odd and sometimes surreal situations who thus have the opportunity to view their lives from a unique perspective. In *Chestnut Season*, a young woman stalled in traffic sees her future self parked beside her; in *Boyfriends*, the recently deceased protagonist endures eulogies by her ex-beaus and husbands; in *Mrs. Fargo*, a young man faces a reckoning with his first-grade teacher, a suicide, for whom he's harbored a crush and whom he hopes to impress with his worldly successes. The short-short *Buoyant* introduces Elise, nine months pregnant, as she drifts down the Santa Fe River, trying to jettison her suddenly circumscribed existence. Desperate to impress upon his students the seriousness of life, the professor in *Pedagogy* boils his head, discovering in the end a lesson learned too late. Other stories touch upon issues of identity, following characters who find themselves in the wrong places, or who find themselves too late. At the advice of their marriage counselor, the couple in *What Nina Wants* take on the personas of Charles Mingus and Nina Simone, speeding down the Pacific Coast Highway in a rented MG, with a loaded gun and an electric bass. In a small town in 1970s New Jersey, the protagonist of *Embankment* can't decide if she's on a date or has been abducted. Do That Everywhere finds the teen-aged Cami on the verge of becoming her mother -- promiscuous and bitter. In *Glen Echo*, a badass womanizer wonders who he is now that he's married an Italian-American Bridezilla. Through compact, tightly woven prose, vivid imagery, and a variety of arresting narrative techniques, *If the Heart Is Lean* zeroes in on the humorous and painful lives of people who are mysteries to themselves.

*Before I Go* Eric T. Perry,2013-02-14 Dr. Charles Cassidy, once a bright student with a promising career in medicine, experienced a loss that would forever change his life. He diverted his brilliant mind from practicing medicine to research where he would develop Carcinatrope, a drug thought to be a cure for cancer it was not. Though highly controversial, it would still change medicine and the lives of the terminally ill, forever. Ethan Pridgen, fianc and father of two, would need this help to fulfill his dying wish. *Before I Go* is a powerful look at terminal illness and euthanasia. It raises the question of not only how we live, but also as a society how we die. I have poured all of my heart and soul into this novel. My hopes are that those who read and enjoy this book will recommend it to everyone they know. I hope you continue to read my work as it is published and am excited about the release of my next publication, *The Eunuch*, that will be coming toward the end of 2013. I look forward to having you follow me on twitter @ Perrrytales1 and on my website at [www.perrrytales1.com](http://www.perrrytales1.com) as this novel continues to grow. Thank you for allowing me to share this part of me with you. I hope you enjoy the ride.

**Using a Competency Development Process Model in Higher Education** Nancy Latham,Johnna Darragh Ernst,Tiffany Freeze,Stephanie Bernoteit,Bradford White,2023-07-03 What if educational programs designed curriculum with the end in mind, teaching and assessing only the knowledge and skills necessary for success in the workplace and broader life applications? Competency-Based Education (CBE) provides an answer to questions such as this one that key stakeholders such as employers, learners, parents, and educators are asking. In this book, the authors offer a Competency Development Process Model (CDPM) with unique features that emphasize the interdependence of competencies, assessments, and a robust learning journey within a fully developed career pathway. Two case examples are used throughout the book to contextualize the CDPM. There are seven steps of the model: ·Step 1: Define the Problem·Step 2: Establish the Competency Framework·Step 3: Draft the Competency Statements·Step 4: Establish Competency Measurability·Step 5: Develop Competency Assessments·Step 6: Adopt and Implement Competencies in Learning Journey and Credentialing Systems·Step 7: Evaluate Impact Over TimeThe model addresses the importance of situating competencies within a professional learning context using a backward design approach. In doing so, the model aims to elevate the work of designing competencies from merely developing a list of expectations to in-depth analysis and design, with the goal of developing competencies that can be readily used for assessment and career pathway development.Each step in the CDPM is treated as a chapter, and each chapter identifies the central question that must be answered, provides an overview of the tasks in the step, and illustrates the steps in action through the two case examples. Each chapter concludes with “Your Turn”—guiding questions for the reader to apply the step to their own context.
