Going Multinational Frédérique Sachwald,2013-01-11 At the beginning of the 1990s, Korean firms embarked on an impressive wave of direct investment abroad. This dramatic multinationalization was considered as yet another sign of Korea's remarkable economic performance, especially as a high proportion of the foreign ventures were located in advanced countries. But this unbalanced quest for globalization actually tested the 'Korean model' to its limits; after the 1997 crisis a new policy prepared the way for a surge of inward investment. Using empirical tests and case-studies, this collection shows that Korean groups have invested in developed countries to jump over trade barriers, but also to source advanced technology and marketing capabilities. Moreover, their ambitious strategies have been stimulated by oligopolistic rivalry among the chaebols. From a policy perspective, the book provides an original discussion of national ownership by questioning the substitutability between inward and outward foreign investment and its relationship with the evolution of the national innovation system. By shedding light on the pattern of Korea's internationalization, these essays make a valuable contribution to the theory of international production and provide important insights for the current policy debates on globalization and innovation-led growth.

The Nature of Love Thomas Jay Oord,2010-04-01 God is love. Consequently, shouldn't love exist at the center of Christian theology? When love is at the center, theology is understood differently than it has typically been understood. Some theologians have placed faith at the center, others God's sovereignty, still others-the Church, but Dr. Oord places the emphasis on love. God's love for us, revealed in Christ, in the Church, and in creation, and our love for God and others as ourselves-must be afforded its rightful place. Beginning with the foundation of love is what differentiates the Christian faith from others.a loving God. Dr. Oord defines love as: To love is to act intentionally, in sympathetic/empathetic response to God and others, to promote overall well-being. Is this not what has defined Christians throughout history?

Teresa’s strong desire throughout is to lead readers into a deeper and prevailing life of prayer. She begins with a treatment of the three essentials of the prayer-filled life–fraternal love, detachment from created things, and authentic humility. Building on that foundation, she then teaches on the cherished practices of prayer and contemplation. Finally, she provides a detailed and moving discourse on the Lord’s Prayer. Experience the fervent devotion of St. Teresa, and allow her to help you explore the rewarding discipline of contemplative prayer.
