Stephen King Tony Magistrale,2009-12-21 This analysis of the work of Stephen King explores the distinctly American fears and foibles that King has celebrated, condemned, and generally examined in the course of his wildly successful career. Stephen King: America's Storyteller explores the particular American-ness of Stephen King's work. It is the first major examination to follow this defining theme through King's 40-year career, from his earliest writings to his most recent novels and films made from them. Stephen King begins by tracing Stephen King's rise from his formative years to his status as a one of the most popular writers in publishing history. It then takes a close look at the major works from his canon, including *The Shining*, *The Stand*, *It*, *Dolores Claiborne*, and *The Dark Tower*. In these works and others, author Tony Magistrale focuses on King's deep rooted sense of the American experience, exemplified by his clear-eyed presentation of our historical and cultural foibles and scars; his gallery of unlikely friendships that cross race, age, and class boundaries; and his transcendent portrayals of uniquely American survival instincts, fellowship, and acts of heroism from the least likely of sources.

Blaze continued with a very subtle smirk, making Ace grit his teeth. Who would not...you are Blaze Arden Vaughn...the epitome of perfection...everybody's dream guy Ace sarcastically responded, a smirk grazed his lips. His jaw clenched in annoyance not with Blaze but with himself. So Ace Anderson, want to try, a Blaze Arden Vaughn for tonight? Blaze smirked as he casually ask. Taming Cannabis David A. Guba Jr,2020-09-23 Despite having the highest rates of cannabis use in the continent, France enforces the most repressive laws against the drug in all of Europe. Perhaps surprisingly, France was once the epicentre of a global movement to medicalize cannabis, specifically hashish, in the treatment of disease. In Taming Cannabis David Guba examines how nineteenth-century French authorities routinely blamed hashish consumption, especially among Muslim North Africans, for behaviour deemed violent and threatening to the social order. This association of hashish with violence became the primary impetus for French pharmacists and physicians to tame the drug and deploy it in the homeopathic treatment of mental illness and epidemic disease during the 1830s and 1840s. Initially heralded as a wonder drug capable of curing insanity, cholera, and the plague, hashish was deemed ineffective against these diseases and fell out of repute by the middle 1850s. The association between hashish and Muslim violence, however, remained and became codified in French colonial medicine and law by the 1860s: authorities framed hashish as a significant cause of mental illness, violence, and anti-state resistance among indigenous Algerians. As the French government looks to reform the nation's drug laws to address the rise in drug-related incarceration and the growing popular demand for cannabis legalization, Taming Cannabis provides a timely and fascinating exploration of the largely untold and living history of cannabis in colonial France.
