The Last Hanna Jameson,2019-04-09 This propulsive post-apocalyptic thriller “in which Agatha Christie’s *And Then There Were None* collides with Stephen King’s *The Shining*” (NPR) follows a group of survivors stranded at a hotel as the world descends into nuclear war and the body of a young girl is discovered in one of the hotel’s water tanks. Jon thought he had all the time in the world to respond to his wife’s text message: I miss you so much. I feel bad about how we left it. Love you. But as he’s waiting in the lobby of the L’Hotel Sixieme in Switzerland after an academic conference, still mulling over how to respond to his wife, he receives a string of horrifying push notifications. Washington, DC, has been hit with a nuclear bomb, then New York, then London, and finally Berlin. That’s all he knows before news outlets and social media goes black—and before the clouds on the horizon turn orange. Two months later, there are twenty survivors holed up at the hotel, a place already tainted by its strange history of suicides and murders. Jon and the rest try to maintain some semblance of civilization. But when he goes up to the roof to investigate the hotel’s worsening water quality, he is shocked to discover the body of a young girl floating in one of the tanks, and is faced with the terrifying possibility that there might be a killer among the group. As supplies dwindle and tensions rise, Jon becomes obsessed with discovering the truth behind the girl’s death. In this “brilliantly executed...chilling and extraordinary” post-apocalyptic mystery, “the questions Jameson poses—who will be with you at the end of the world, and what kind of person will you be?—are as haunting as the plot itself.” (Emily St. John Mandel, nationally bestselling author of *Station Eleven*).

Last Looks, Last Books Helen Vendler,2010-03-01 Modern American poets writing in the face of death In *Last Looks, Last Books*, the eminent critic Helen Vendler examines the ways in which five great modern American poets, writing their final books, try to find a style that does justice to life and death alike. With traditional religious consolations no longer available to them, these poets must invent new ways to express the crisis of death, as well as the paradoxical coexistence of a declining body and an undiminished consciousness. In *The Rock*, Wallace Stevens writes simultaneous narratives of winter and spring; in *Ariel*, Sylvia Plath sustains melodrama in cool formality; and in *Day by Day*, Robert Lowell subtracts from plenitude. In *Geography III*, Elizabeth Bishop is both caught and freed, while James Merrill, in *A Scattering of Salts*, creates a series of self-portraits as he dies, representing himself by such things as a Christmas tree, human tissue on a laboratory slide, and the evening/morning star. The solution for one poet will not serve for another; each must invent a bridge from an old style to a new one. Casting a last look at life as they contemplate death, these modern writers enrich the resources of lyric poetry.

Leaders Eat Last Simon Sinek,2017-05-23 Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video *Millennials in the workplace* (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. Officers eat last, he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the

battlefield: Great leaders sacrifice their own comfort--even their own survival--for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a Circle of Safety that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned--about living in the present, building a legacy, and taking full advantage of the time you have--in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. --Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--Really Achieving Your Childhood Dreams--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Duchamp's Last Day Donald Shambroom, 2018-11-20 Published on the fiftieth anniversary of Marcel Duchamp's death, Duchamp's Last Day offers a radical reading of the artist's final hours. Just moments after Duchamp died, his closest friend Man Ray took a photograph of him. His face is wan; his eyes are closed; he appears calm. Taking this image as a point of departure, Donald Shambroom begins to examine the surrounding context--the dinner with Man Ray and another friend, Robert Lebel, the night Duchamp died, the conversations about his own death at that dinner and elsewhere, and the larger question of whether this radical artist's death can be read as an extension of his work. Shambroom's in-depth research into this final night, and his analysis of the photograph, feeds into larger questions about the very nature of artworks and authorship which Duchamp raised in his lifetime. In the case of this mysterious and once long-lost photograph, who is the author? Man Ray or Duchamp? Is it an artwork or merely a record? Has the artist himself turned into one of his own readymades? A fascinating essay that is both intimate and steeped in art history, Duchamp's Last Day is filled with intricate details from decades of research into this peculiar encounter between art, life, and death. Shambroom's book is a wonderful study of one of the greatest artists of the twentieth century.

What Makes Love Last? John Gottman, Nan Silver, 2013-09-10 One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the why behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. A Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the Roach Motel for Lovers. He describes how the outcome of--sliding door moments, small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship--

Can Love Last?: The Fate of Romance over Time Stephen A. Mitchell, 2003-02-17 A beautiful and brilliant reexamination of love and its perils.--Barbara Fisher, Boston Globe Common wisdom has it that love is fragile, but leading psychoanalyst Stephen A. Mitchell argues that romance doesn't actually diminish in long-term relationships--it becomes increasingly dangerous. What we regard as the transience of love is really risk management. Mitchell shows that love can endure, if only we become aware of our self-destructive efforts to protect ourselves from its risks. Those who read this book will love more wisely because of it.--Andrew Solomon,

Marilyn Monroe: The Last Interview Sady Doyle, 2020-10-06 I'm so many people. They shock me sometimes. I wish I was just me! --Marilyn Monroe Nearly sixty years after her death, Marilyn Monroe remains an icon whom everyone loves but no one really knows. The conversations gathered here--spanning her emergence on the Hollywood scene to just days before her death at age 36--show Monroe at her sharpest and most insightful on the thorny topics of ambition, fame, femininity, desire, and more. Together with an introduction by Sady Doyle, these pieces reveal yet another Marilyn: not the tragic heroine she's become in the popular imagination, but a righteously and justifiably angry figure breaking free of the limitations the world forced on her.

Joan Didion: The Last Interview MELVILLE HOUSE, 2022-06-28 The iconic writer whose prose was as influential and as it is unmistakably hers is joined in conversation with Sheila Heti, Hilton Als, Dave Eggers, Hari Kunzru and many more. Some writers define a generation. Some a genre. Joan Didion did both, and much more. Didion rose to prominence with her nonfiction collection, *Slouching Towards Bethlehem*, and she quickly became the writer who captured the zeitgeist of the washed-out, acid hangover of the 60s. But as a bicoastal writer of fiction and nonfiction whose writing ranged from personal essays and raw, intimate memoirs to reportage on international affairs and social justice, Didion is much harder to pin down than her reputation might suggest. This collection encompasses it all, in conversations that delve into her underappreciated mid-career works, her influences, the loss of her husband and daughter, and her most infamous essays. Far from the evasive, terse minimalist that has come to dominate the image of Joan Didion, what this collection reveals is a warm, thoughtful woman whose well earned legacy promises to live on for readers and writers for many generations to come.

The Last Second Catherine Coulter, J.T. Ellison, 2020-03-31 The *New York Times* bestselling Brit in the FBI series continues with this thrilling "popcorn movie in print form" (Associated Press) pitting special agents Nicholas Drummond and Michaela Caine against a private French space agency that has the power to end the world as we know it. Galactus, France's answer to SpaceX, has just launched a communications satellite into orbit, but the payload actually harbors a frightening weapon: a nuclear bomb that can trigger a massive electromagnetic pulse (EMP). When the satellite is in position, Galactus's second-in-command, Dr. Nevaeh Patel, will have the power to lay waste to the world. A former astronaut, Patel believes she is following the directions of the Numen, aliens who saved her life when she space-walked outside the International Space Station. She is convinced that with the Holy Grail—just discovered by the owner of Galactus, eccentric treasure hunter Jean-Pierre Broussard—she can be reunited with the Numen, change the world's destiny, and become immortal with them. The countdown has begun when Special Agents Nicholas Drummond and Michaela Caine are thrown into the pending disaster. They must stop the EMP that would wreak havoc on communication and electronic systems on Earth, resulting in chaos and anarchy. With their high-octane and suspenseful prose, "Coulter and Ellison are a thriller writer's dream team, and *The Last Second* is some of their best work yet" (The Real Book Spy).

The Last Wolf Jim Crumley, 2012-12-10 In 1743, according to legend, the last wolf in Scotland was killed by a huntsman near Inverness. At the time the extinction of wolves in Scotland was celebrated. But since then deer have multiplied in the Highlands, destroying the vegetation on which an array of wildlife depends and creating a barren, treeless landscape. Gradually it has become clear that the entire eco-system has been thrown out of balance by the elimination of a top predator. Now there are calls for a limited reintroduction of wolves into Scotland as a way of healing the damaged land. The wolf has been the victim of black propaganda since ancient times. By tellers of folk tales and historians alike it has been described as a slayer of babies, a robber of graves, a devourer of battlefield dead. In this passionate polemic, Jim Crumley argues that these stories are pure fiction, a distortion of reality which prevents people from thinking rationally about the huge benefits the presence of wolves could bring to Scotland. Now is the time for myths to be dispelled, and for the wolf to return to its old home in the highlands.
