Longevity Diet Valter Longo, 2018-01-31 The internationally renowned, clinically tested, revolutionary diet program to lose weight, fight disease, and live a longer, healthier life. Can what you eat determine how long, and how well, you live? The clinically proven answer is yes, and The Longevity Diet is easier to follow than you'd think. The culmination of 25 years of research on ageing, nutrition, and disease across the globe, this unique combination of an everyday diet and fasting-mimicking diet (FMD) to be done only 3-4 times per year lays out a simple solution to living to a healthy old age through nutrition. FMD does away with the misery and starvation most of us experience while fasting and helps you reap all the beneficial health effects of a restrictive diet while avoiding the negative stressors, like low energy and sleeplessness. Valter Longo, Director of the Longevity Institute at USC and the Program on Longevity and Cancer at IFOM in Milan, developed THE FMD after making a series of remarkable discoveries in mice and humans indicating that specific diets can activate stem cells and promote regeneration and rejuvenation in multiple organs to reduce the risk for diabetes, cancer, Alzheimer's and heart disease. Longo's simple pescatarian daily eating plan and the periodic, fasting-mimicking techniques can both yield impressive results. Low in proteins and sugars and rich in healthy fats and plant-based foods, The Longevity Diet is clinically proven to help you: Lose weight and reduce abdominal fat Make simple changes which can extend the healthy

lifespan Prevent age-related muscle and bone loss
Build your resistance to diabetes, cardiovascular disease, Alzheimer's and cancer Longo's healthy, life span-extending plan is based on an easy-to-adopt pescatarian plan along with the fasting-mimicking diet 4 times a year, and just 5 days at a time. The Longevity Diet is the key to living a longer, healthier, and more fulfilled life.

Emotional attachment to friends? foster families? a boyfriend? Nope! There's no room for any additional baggage. Muir has just one year left before she ages out of the system. One year before she's free. One year to avoid anything--or anyone--that could get in her way. Then she meets Francine. And Kira. And Sean. And everything changes.

Harper had a plan. It went south. Hand this utterly unique contemporary YA to anyone who loves ballet or is a little too wrapped up in their Plan A. (It's okay to fail, people!) Harper Scott is a dancer. She and her best friend, Kate, have one goal: becoming professional ballerinas. And Harper won't let anything—or anyone—get in the way of The Plan, not even the boy she and Kate are both drawn to. Harper is a Scott. She's related to Robert

Falcon Scott, the explorer who died racing Amundsen and Shackleton to the South Pole. Amundsen won because he had a plan, and Harper has always followed his model. So when Harper's life takes an unexpected turn, she finagles (read: lies) her way to the icy dark of McMurdo Station . . . in Antarctica. Extreme, but somehow fitting--apparently she has always been in the dark, dancing on ice this whole time. And no one warned her. Not her family, not her best friend, not even the boy who has somehow found a way into her heart. It will take a visit from Shackleton's ghost--the explorer who didn't make it to the South Pole, but who got all of his men out alive--to teach Harper that success isn't always what's important, sometimes it's more important to learn how to fail successfully. A Kids' Indie Next List Selection Longo makes Harper a standout character of fire, commitment, and sass. --The Bulletin, Starred Review A stunning love letter to ballet and San Francisco, Jennifer Longo's (Six Feet Over It) quirky sophomore novel, Up to This Pointe, is the perfect meld of adorable and heart-wrenching. --Shelf Awareness, Starred Review One of the most breathtaking explorations of navigating heartbreak that I've ever read. This is one for the ages. --Martha Brockenbrough, author of The Game of Love and Death Longo's book brings the reader intimately into Harper's heartbreak and healing in a way that will speak to readers of all ages. --Anna Eklund, University Book Store, Seattle, WA Incisively written. Longo makes it easy to commiserate with Harper as she tries to move past disappointment and envision a new path forward.

–Publishers Weekly A moving love letter to dance, dreams, and San Francisco. –Kirkus Reviews Harper is a well-developed, relatable character. Her inner monologue is witty and dominates most of the novel, giving a unique perspective. . . . A recommended read for determined teens with an interest in following and exploring their dreams. –School Library Journal Harper's temporary Antarctic life is evoked with as much vivid, fascinating detail as her 'second home,' the ballet studio. . . . An affecting, memorable examination of disappointment and loss. –The Horn Book Review Longo's fabulous depiction of McMurdo and the winter residents captures the beauty, humor, and danger of such an isolated existence. An adventure story with lots of heart. –Booklist

Six Feet Over It Jennifer Longo, 2016-01-12 This unforgettable new voice in contemporary YA is perfect for fans of John Green, Libba Bray, and Jennifer Niven. "Like nothing you've read before." –Bustle.com No one is more surprised than Leigh when her father buys a graveyard. Less shocking is the fact that he's too lazy to look farther than the dinner table for employees. Working the literal graveyard shift, she becomes great at predicting headstone choice (mostly granite) and taking notes with one hand while offering Kleenex with the other. Sarcastic and smart, Leigh should be able to quit this stupid after-school job. But her world's been turned upside down by the sudden loss of her best friend and the appearance of Dario, the slightly-too-old-for-her gravedigger. Can Leigh move on, if moving on means it's time to get a life? Funny and heart-wrenchingly beautiful,

Ten Andrej Longo, 2013-05-02 The Mafia and the Ten Commandments meet in these interlinked short stories about the underbelly of Naples. Ten uncovers the raw heart of a city, telling the stories of ordinary people forced to make extraordinary compromises in a place permeated by crime. We encounter a son who finds that he is capable of a terrible act when faced with his mother's suffering 'because someone had to do it'; a girl whose only outlet for the horrors of an adult's abuse is to confide in a stuffed toy; an ancient nightclub singer whose ambition has led him to become a drug tester for a Mafia boss; and Ray-Ban who, during a night of mayhem with his friends, manages to steal the wrong car and pays dearly for it. Each comes to life with painful precision in the hands of Andrej Longo – their fears, regrets, energy and grace. In direct and sometimes brutally raw prose, he conjures a searing new vision of Naples. With the lightest of

brush strokes, Longo builds a vivid portrait of a city, its people, and their dreams of escape.

Relationshifting Angela Longo, 2012-10 Our lives are supposed to be resplendent, radiant, and glorious. Instead, what most of us experience is a life filled with struggle, conflict, and illness. Relationshifting creates a bridge to a new life based upon Dr. Angela Longo's more than forty years of clinical experience. Dr. Longo offers an overview of the eight bottom lines, which she defines as the eight major ways in which we block the flow of positive energy into our lives. She explains how to shift that energy to resplendent living by relationshifting through quantum resplendency-a quantum way of living. The Relationshifting workbook includes explanations and exercises using the following tools: - Heartwaving is an easy-to-use technique used to shift old, unproductive patterns to resplendency. - Bathwaves are Longo's self-created energy patterns based upon her beliefs, attitudes,

thoughts, habits, words, actions, values, and emotions. -Love Letters are messages she sends to herself to guide her to living resplendency. -Triunity shows her she is actually three beings in one-promoting understanding of her larger persona. -Eternalbeing indicates the larger, unique purpose of her life. -Muscle testing helps to assess her perceptions and patterns. -Shifting the Eight Bottom Lines, the eight judgments that keep her from changing her Bathwaves to living resplendency. Relationshifting demonstrates the fact that when you are living in the resplendent way, life is EEEZY-an eternal, emergent, entanglement as a zestful you.

Edmund Berkeley and the Social Responsibility of Computer Professionals Bernadette Longo,2015-09-01
Edmund C. Berkeley (1909 – 1988) was a mathematician, insurance actuary, inventor, publisher, and a founder of the Association for Computing Machinery (ACM). His book *Giant Brains or Machines That Think* (1949) was the first explanation of computers for a general readership. His journal *Computers and Automation* (1951-1973) was the first journal for computer professionals. In the 1950s, Berkeley developed mail-order kits for small, personal computers such as Simple Simon and the Braniac. In an era when computer development was on a scale barely affordable by

universities or government agencies, Berkeley took a different approach and sold simple computer kits to average Americans. He believed that digital computers, using mechanized reasoning based on symbolic logic, could help people make more rational decisions. The result of this improved reasoning would be better social conditions and fewer large-scale wars. Although Berkeley's populist notions of computer development in the public interest did not prevail, the events of his life exemplify the human side of ongoing debates concerning the social responsibility of computer professionals. This biography of Edmund Berkeley, based on primary sources gathered over 15 years of archival research, provides a lens to understand social and political decisions surrounding early computer development, and the consequences of these decisions in our 21st century lives.

Robert Longo Robert Longo, Andrew Durbin, 2017
This catalogue focuses on Robert Longo's recent series of charcoal drawings of well-known Abstract Expressionist paintings. Rendered in charcoal, the original paintings are immediately recognizable, but it is the overlooked or imperceptible details of the complex surface, the tactility of the paint, the brushstrokes and the pattern of the canvas that Longo has made visible in his translation from color to black-and-white, paint to charcoal. Exploring his ambivalence toward painting, Longo's drawings address the historical magnitude of Abstract Expressionism in art historical and cultural contexts. Along with the Abstract Expressionist drawings, the book includes Longo's enormous seven-panel drawing of the U.S.

Capitol building and a 17-foot high black wax surfaced sculpture of an American flag that appears to collapse into or fall through the floor.

The Lawmen of Cherryville Anthony

Longo, 2005-06-17 A strange and puzzling incident, regarded as a high school prank, presents an unusual dilemma for Mayor Barnes and the small restful town of Cherryville. One morning the town awakens to find that their address numbers are mysteriously missing. Every single one of them, gone; taken from private homes, shops, boutiques, city buildings and industrial complexes and for no apparent reason. Normally this kind of theft would be handled by the local law agency, Sheriff Sam and Deputy Basil. However, at a Town Hall Meeting, a meeting called to sooth the nerves of a rattled community, Sheriff Sam becomes extremely frustrated over a number of things; the Mayor's pettiness over jurisdictional responsibilities and the constant carping of the town-hall people. Sam resigns his post as does his trusted Deputy, Basil. Enter Max and Andy, two high school students on summer break, who offer their services to a very reluctant Mayor. Given the opportunity, the two eager temporary lawmen soon discover that the house number theft was not a mere prank but the prelude to a more sinister and complex case; one involving a fifty year old gem theft, infidelity, deceit, and an apparent murder. Their odyssey begins when they investigate the strange and eerie noises emanating from a house referred to by the local community as haunted. The house was abandoned, and then totally neglected, after

the old eccentric owner was apparently kidnapped and never heard from again. However, once inside the house Max and Andy are startled when they hear creaking sounds coming from a room directly above them. There are no footprints or smudge marks on the dusty floor below, so Max asks the obvious How did they get up there. Despite Max's fear, which was bordering on panic, Andy's stubborn curiosity convinces Max to pursue their dangerous voyage up the stairs, to the second floor. And although they pay dearly for their journey they do come away with a few pieces to an ever widening puzzle. The puzzle which was eventually pieced together by the young sleuths established why the address plaques were stolen. They also uncovered a murder, made to look like suicide, and developed an insight into a fifty year old jewel theft and the mystery of the haunted house.
