David Copperfield,Richard Wiseman,David Britland

THE MAGIC Rhonda Byrne,2012-03-06 A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

Grimoires Owen Davies,2010 Grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread over the ensuing millennia.

David Copperfield's History of Magic David Copperfield,Richard Wiseman,David Britland,2021-10-26 In this personal journey through a unique performing art, David Copperfield profiles some of the world's most groundbreaking magicians. From the sixteenth-century magistrate who wrote an early book on conjuring, to the roaring twenties and the man who fooled Houdini, to the woman who levitated, vanished, and caught bullets in her bare hands, David Copperfield's History of Magic takes you on a wild journey through the remarkable feats of some of the greatest magicians in history. The result is a sweeping tale that reveals how these astonishing performers were outsiders who used magic to escape class, challenge conventions, transform popular culture, explore the innermost workings of the human mind, and inspire scientific discovery. Their incredible stories are complemented by more than 100 never-before-seen photographs of artifacts from Copperfield's exclusive Museum of Magic, including a sixteenth-century manual on sleight-of-hand; Houdini's straitjackets, handcuffs, and water torture chamber; Dante's famous sawing-in-half apparatus; Alexander's high-tech turban that allowed him to read people's minds; and even some coins that may have magically passed through the hands of Abraham Lincoln. By the end of the book, you'll be sure to share Copperfield's passion for the power of magic. --

Upside-Down Magic (Upside-Down Magic #1) Sarah Mlynowski,Lauren Myracle,Emily Jenkins,2015-09-29 In a world of elite magic academies, weird and wonderful things happen when you're sent off to public school . . . and put in the Upside-Down Magic class. It's never easy when your magic goes wonky.For Nory, this means that instead of being able to turn into a dragon or a kitten, she turns into both of them at the same time-a dritten.For Elliott, the simple act of conjuring fire from his fingertips turns into a fully frozen failure.For Andres, wonky magic means he's always floating in the air, bouncing off the walls, or sitting on the ceiling.For Bax, a bad moment of magic will turn him into a . . . actually, he'd rather not talk about that.Nory, Elliott, Andres, and Bax are just four of the students in Dunwiddle Magic School's Upside-Down Magic class. In their classroom, lessons are unconventional, students are unpredictable, and magic has a tendency to turn wonky at the worst possible moments. Because it's always amazing, the trouble a little wonky magic can cause . . .

Magic is the Occult Knowledge of Natural Law Helena Petrovna Blavatsky,2018-05-29

A Cognitive Theory of Magic Jesper Sørensen,2007 Magic is a universal phenomenon. Everywhere we look people perform ritual actions in which desirable qualities are transferred by means of physical contact and objects or persons are manipulated by things of their likeness. In this book S rensen embraces a cognitive perspective in order to investigate this long-established but controversial topic. Following a critique of the traditional approaches to magic, and basing his claims on classical ethnographic cases, the author explains magic's universality by examining a number of recurrent cognitive processes underlying its different manifestations. He focuses on how power is infused into the ritual practice; how representations of contagion and similarity can be used to connect otherwise distinct objects in order to manipulate one by the other; and how the performance of ritual prompts representations of magical actions as effective. Bringing these features together, the author proposes a cognitive theory of how people can represent magical rituals as purposeful actions and how ritual actions are integrated into more complex representations of events. This explanation, in turn, yields new insights into the constitutive role of magic in the formation of institutionalised religious ritual.

Houdini on Magic Walter Brown Gibson,Morris N. Young,1953 Written by the master magician himself, this fascinating work reveals the secrets behind how Houdini escaped numerous death-defying stunts and exposed a variety of fake spiritualists. He also gives instructions for 44 eye-catching stage tricks, as well as other fascinating material. 155 illustrations.

This Book Is Magic Ashley Evanson,2017-01-17 Make some magic in this colorful, interactive picture book from the author/illustrator of the Hello, World board book series! Do you know that you're a magician? In this interactive book, use your fingers to perform all kinds of magic tricks. Tap a hat to make a bunny appear, recite a spell to make books bigger, say Gone-zo! to make a ship disappear, and much more. But beware: the clever magic tricks don't always turn out the way you'd expect! Reminiscent of Hervé Tullet's Press Here, kids—and adults!—are sure to want to read this book again and again as they perfect their magic skills.

Practice of Magic Draja Mickaharic,1995-01-01 How does magic work? This and many other questions can be answered by reading this book. Mickaharic outlines how to prepare to practice, how the primary instruments of the magician are developed and cared for, and a sample exercise to give you something to practice.

Sandry's Book Tamora Pierce,1999-09 Four young misfits find themselves living in a strictly disciplined temple community where they become friends while also learning to do crafts and to use their powers, especially magic

When We Were Magic Sarah Gailey,2020-03-03 A moving, darkly funny novel about six teens whose magic goes wildly awry from Magic for Liars author Sarah Gailey, who Chuck Wendig calls an “author to watch.” Keeping your magic a secret is hard. Being in love with your best friend is harder. Alexis has always been able to rely on two things: her best friends, and the magic powers they all share. Their secret is what brought them together, and their love for each other is unshakeable—even when that love is complicated. Complicated by problems like jealousy, or insecurity, or lust. Or love. That unshakeable, complicated love is one of the only things that doesn't change on prom night. When accidental magic goes sideways and a boy winds up dead, Alexis and her friends come together to try to right a terrible wrong. Their first attempt fails—and their second attempt fails even harder. Left with the remains of their failed spells and more consequences than anyone could have predicted, each of them must find a way to live with their part of the story.

Controlling Magic Alex Vick,2016-12-27 Far away, on a world of rock and water, live a brother and sister. They have a special talent. So special that, when applied correctly, it enables them to live forever. Androva hasn't visited this world since before the Treaty. It was so horrified by what it found there, it closed the portals and never went back. Right now on Androva, everyone is trying to come up with the best Entertainment Spell for the Spring Festival. And there is also an important question to answer. Just how many magicians should Terra be allowed to have anyway? No-one realises that there is a deadly enemy lurking in the background. An enemy so devious that it can get your own force field to work against you. Jax has been saying he wants to go to Imbera since the end of Seeking Magic. He doesn't realise that Imbera is actually coming for him. Be careful what you wish for... The Legacy of Androva is a series of contemporary fantasy books, for a middle grade audience. The stories are self-contained, with no cliffhangers in between books. Book 1: Stealing Magic Book 2: Capturing Magic Book 3: Seeking Magic Book 4: Controlling Magic Book 5 to be released in the first half of 2017

A Treatise on White Magic Alice A. Bailey,Djwhal Khul,2011-12-13 This book contains the Fifteen Rules for Magic (for soul control), the soul, the White Magician, becoming manifest through its own inherent magical powers. The human being is essentially and inherently divine. The soul is the means whereby humanity evolves a consciousness of divinity, redeems gross matter and liberates the pure flame of spirit from the limitation of form.
