**One Bullet Away** Nathaniel Fick, 2006 An ex-Marine captain shares his story of fighting in a recon battalion in both Afghanistan and Iraq, beginning with his brutal training on Quantico Island and following his progress through various training sessions and, ultimately, conflict in the deadliest conflicts since the Vietnam War.

*Underdogs* Aaron B. O'Connell, 2012-10-29 Exploring the growth of the Marines from disadvantaged to elite force, this history "offers an excellent analysis of how the marines became the Marines." (Publishers Weekly) The Marine Corps has always considered itself a breed apart. This undying faith in its own exceptionalism is what has made the Marines one of the sharpest, swiftest tools of American military power. Aaron O'Connell focuses on the period from World War II to Vietnam, when the Marine Corps transformed itself from America's least respected to its most elite armed force. Venerating sacrifice and suffering, privileging the collective over the individual, Corps culture was saturated with romantic and religious overtones that had enormous marketing potential in a postwar America energized by new global responsibilities. Capitalizing on this, the Marines curried the favor of the nation's best reporters, befriended publishers, courted Hollywood and Congress, and built a public relations infrastructure that would eventually brand it as the most prestigious military service in America. But as O'Connell suggests, the Corps' triumphs did not come without costs, including a culture of violence that sometimes spread beyond the battlefield. "A significant and original contribution to both the military history of the Cold War and the ongoing conversation about the militarization of American culture." —Beth Bailey, author of *America's Army: Making the All-Volunteer Force* "Takes readers inside the culture of the Corps." —Nathaniel Fick, author of *One Bullet Away: The Making of a Marine Officer* "Insightful." —Library Journal "A powerful account of the relationship between fighting war and preserving peace, viewed through the lens of the stories that built support for both." —Kirkus Reviews "Absorbing." —The Wall Street Journal

*The Marines* Edwin Howard Simmons, J. Robert Moskin, 2009-10-01 A comprehensive word-and-picture history of the United States Marine Corps. The Corps is a relatively small service but has truly fought from the shores of Tripoli to the halls of the Montezumas.

*Commanding the Pacific* Stephen Taaffe, 2021-09-15 The Marine Corps covered itself in glory in World War II with victories over the Japanese in hard-fought battles such as Guadalcanal, Tarawa, and Iwo Jima. While these battles are well known, those who led the Marines into them have remained obscure until now. In *Commanding the Pacific: Marine Corps Generals in World War II*, Stephen R. Taaffe analyzes the fifteen high-level Marine generals who led the Corps' six combat divisions and two corps in the conflict. He concludes that these leaders played an indispensable and unheralded role in organizing, training, and leading their men to victory. Taaffe insists there was nothing inevitable about the Marine Corps' success in World War II. The small pre-war size of the Corps meant that its commandant had to draw his combat leaders from a small pool of officers who often lacked the education of their Army and Navy counterparts. Indeed, there were fewer than one hundred Marine officers with the necessary rank, background, character, and skills for its high-level combat assignments. Moreover, the Army and Navy froze the Marines out of high-level strategic decisions and frequently impinged on Marine prerogatives. There were no Marines in the Joint Chiefs of Staff or at the head of the Pacific War's geographic theaters, so the Marines usually had little influence over the island targets selected for them. In addition to bureaucratic obstacles, constricted geography and vicious Japanese opposition limited opportunities for Marine generals to earn the kind of renown that Army and Navy commanders achieved elsewhere. In most of its battles on

small Pacific War islands, Marine generals had neither the option nor inclination to engage in sophisticated tactics, but they instead relied in direct frontal assaults that resulted in heavy casualties. Such losses against targets of often questionable strategic value sometimes called into question the Marine Corps' doctrine, mission, and the quality of its combat generals. Despite these difficulties, Marine combat commanders repeatedly overcame challenges and fulfilled their missions. Their ability to do so does credit to the Corps and demonstrates that these generals deserve more attention from historians than they have so far received.

**America's Marine Sanctuaries** NAT'L MARINE SANCTUARY FDN,2020-10-20 An extraordinary illustrated overview of the National Marine Sanctuary System and a guide to its fourteen protected underwater locations America's Marine Sanctuaries tells the story of fourteen underwater places so important they are under special protection, together forming the US National Marine Sanctuary System. These sanctuaries, spanning more than 620,000 square miles and ranging from the Florida Keys to the Great Lakes and to the Hawaiian Islands, are critical and breathtaking marine habitats that provide homes to endangered and threatened species. They also preserve America's rich maritime heritage and act as living laboratories for science, research, education, and conservation, offering outdoor recreation experiences for all ages. Through 175 full-color photographs and lively narrative, America's Marine Sanctuaries showcases each of the marine sanctuaries and the creatures that live there, from whales and manatees to Hawaiian monk seals and Laysan ducks, as well as sunken ships from the Ghost Fleet and USS Monitor to Shipwreck Alley. The book underscores how marine sanctuaries have shaped the nation's development, survival, and identity, and celebrates these protected underwater treasures for all they can tell us about our communities, our country, and our world.

**The US Marine Corps since 1945** Lee E Russell,2012-06-20 Lee E Russell utilises his expert knowledge to guide us through the post-WWII history of the Marines, chronicling their involvement in Korea, Vietnam, Lebanon and Grenada. The account includes such remarkable exploits as the gruelling Chosin Reservoir campaign, which proved a supreme test of courage and discipline with the Marines isolated and overwhelmingly outnumbered in an unhospitable terrain where temperatures reached as low as -35F at night they nevertheless emerged unbeaten and the siege of Khe Sanh during the Vietnam conflict, providing a comprehensive overview of the history, organisation, appearance and equipment of these famous troops

**Guide to Marine Life** Marty Snyderman,Clay Wiseman,1996 A layman's guide to identifying and understanding the marine life while scuba diving.

The 9th Engineer Battalion, First Marine Division, in Vietnam Jean Shellenbarger,2000 The combat engineers of the First Marine Division, 9th Engineer Battalion, risked their lives daily in Vietnam as they cleared the roads of mines, repaired and paved the famous Highway 1, disarmed booby traps, built bridges

and culverts, and destroyed enemy bunkers and tunnels. Despite their sacrifices and pain, the combat engineers in Vietnam have heretofore largely been ignored. This is the first oral (or other) history of the 9th Engineers, the only Marine battalion formed specifically to go to Vietnam. More than 35 men of the 9th talk about why they joined the Marines and their experiences in basic training. They speak candidly and compellingly about their five years (1966 to 1970) in country. The soldiers also discuss what it was like to come home and get on with their lives.

Time in the Barrel James P. Coan, 2018-11-13 A Marine's highly personal memoir reliving the hellish days of a pivotal conflict of the Vietnam War Con Thien, located only two miles from the demilitarized zone dividing North and South Vietnam, was a United States Marine Corps firebase that was the scene of fierce combat for months on end during 1967. Staving off attacks and ambushes while suffering from ineffectual leadership from Washington as well as media onslaughts, courageous American Marines protected this crucial piece of land at all costs. They would hold Con Thien, but many paid the ultimate price. By the end of the war, more than 1,400 Marines had died and more than 9,000 sustained injuries defending the "Hill of Angels." For eight months, James P. Coan's five-tank platoon was assigned to Con Thien while attached to various Marine infantry battalions. A novice second lieutenant at the time, the author kept a diary recording the thoughts, fears, and frustrations that accompanied his life on "The Hill." Time in the Barrel: A Marine's Account of the Battle for Con Thien offers an authentic firsthand account of the daily nightmare that was Con Thien. An enticing and fascinating read featuring authentic depictions of combat, it allows readers to fully grasp the enormity of the fierce struggle for Con Thien. The defenders of Con Thien were bombarded with hundreds of rounds of incoming rockets, mortars, and artillery that pounded the beleaguered outpost daily. Monsoon downpours turned the red laterite clay soil into a morass of oozing mud, flooded bunkers and trenches, and made Con Thien a living hell. Being at Con Thien came to be ruefully referred to by the Marines stationed there as time in the barrel" because they were targets as easy as fish in a barrel. More than a retelling of military movements, Coan's engrossing narratives focus on the sheer sacrifice and misery of one Marine's experience in Vietnam. Through his eyes, we experience the abysmal conditions the Marines endured, from monsoon rainstorms to the constant threat of impending attack. Climatic moments in history are captured through the rare, personal perspective of one particularly astute and observant participant.

**Earned in Blood** Thurman Miller, 2013-05-21 Born in the Appalachian Mountains of West Virginia in 1919, Thurman Miller was the sixteenth of eighteen children in a family so poor, the local coal miner's kids looked down on them. His father was a subsistence farmer and it was rare for the Miller family to have enough food for everyone. But for Thurman, Appalachia was not just a region: it was a culture, a frame of mind, a being. Fighting, playing, and hiding in the hills would soon serve him well. In 1940 he enlisted and served in World War II with the legendary unit K-3-5 of the First Marine Division. He was involved in some of the most horrific and famous battles in the Pacific Theater, including Guadalcanal and New Britain, where as Gunny Sergeant he sent men to their deaths and narrowly escaped it himself. From harrowing battlefield experiences to the loss of comrades, his powerful combat experiences would stay with him forever. Upon returning stateside, he taught at the prestigious Officer Candidate School at Camp Lejeune, preparing young officers for the horrific battles to come on Okinawa and Iwo Jima. After the war,

suffering badly from the malaria and other diseases he contracted in the Pacific and unable to find work, Miller took a job in the coal mines in his home state of West Virginia, where he toiled in darkness for thirty-seven years. The blackness of the mines fed the terrors he lived with since the battlefield and the backbreaking labor ate away at his already compromised body. Bowed but unbroken, Miller survived because of his strength and lifelong devotion to his beloved wife of sixty-five years—a relationship that shines brightly in this distinctly American journey. With uncommon wisdom, intelligence, and humility, this member of the Greatest Generation spins a gripping tale through peace and war, work and family, love and redemption across ten tumultuous decades.
