David Hooper, Bernard Cafferty

Mate Tucker Max, Geoffrey Miller, 2015-09-15 The #1 bestselling pioneer of fratire and a leading evolutionary psychologist team up to create the dating book for guys. Whether they conducted their research in life or in the lab, experts Tucker Max and Dr. Geoffrey Miller have spent the last 20+ years learning what women really want from their men, why they want it, and how men can deliver those qualities. The short answer: become the best version of yourself possible, then show it off. It sounds simple, but it's not. If it were, Tinder would just be the stuff you use to start a fire. Becoming your best self requires honesty, self-awareness, hard work and a little help. Through their website and podcasts, Max and Miller have already helped over one million guys take their first steps toward Ms. Right. They have collected all of their findings in Mate, an evidence-driven, seriously funny playbook that will teach you to become a more sexually attractive and romantically successful man, the right way: No seduction techniques, No moralizing, No bullshit. Just honest, straightforward talk about the most ethical, effective way to pursue the win-win relationships you want with the women who are best for you. Much of what they've discovered will surprise you, some of it will not, but all of it is important and often misunderstood. So listen up, and stop being stupid!

Broken Mate Jen L. Grey, 2021-10-31 Some things are inevitable, even with a fated mate. As the future alpha of the Silver Wolves, my life was carefully planned: stay hidden and learn to fight. But that didn't happen. My pack was slaughtered and now I'm running for my life. In my search for safety, I discover something else. My fated mate. The handsome jerk alpha can offer me something that no one else can--protection. The more I try to fight our mate bond, the more fate pushes us together, but I fear the price may be too much for both of us. As a hidden enemy hunts me, difficult decisions must be made. Choices that will alter my life forever or end it completely.

The Myth of Normal Gabor Maté, MD, 2022-09-13 The

instant New York Times bestseller By the acclaimed author of *In the Realm of Hungry Ghosts*, a groundbreaking investigation into the causes of illness, a bracing critique of how our society breeds disease, and a pathway to health and healing. In this revolutionary book, renowned physician Gabor Maté eloquently dissects how in Western countries that pride themselves on their healthcare systems, chronic illness and general ill health are on the rise. Nearly 70 percent of Americans are on at least one prescription drug; more than half take two. In Canada, every fifth person has high blood pressure. In Europe, hypertension is diagnosed in more than 30 percent of the population. And everywhere, adolescent mental illness is on the rise. So what is really "normal" when it comes to health? Over four decades of clinical experience, Maté has come to recognize the prevailing understanding of "normal" as false, neglecting the roles that trauma and stress, and the pressures of modern-day living, exert on our bodies and our minds at the expense of good health. For all our expertise and technological sophistication, Western medicine often fails to treat the whole person, ignoring how today's culture stresses the body, burdens the immune system, and undermines emotional balance. Now Maté brings his perspective to the great untangling of common myths about what makes us sick, connects the dots between the maladies of individuals and the declining soundness of society—and offers a compassionate guide for health and healing. Cowritten with his son Daniel, *The Myth Of Normal* is Maté's most ambitious and urgent book yet.

Work Mate Marry Love Debora L. Spar, 2020-08-18 A crucial guide to life before—and after—Tinder, IVF, and robots. What will happen to our notions of marriage and parenthood as reproductive technologies increasingly allow for newfangled ways of creating babies? What will happen to our

understanding of gender as medical advances enable individuals to transition from one set of sexual characteristics to another, or to remain happily perched in between? What will happen to love and sex and romance as our relationships migrate from the real world to the Internet? Can people fall in love with robots? Will they? In short, what will happen to our most basic notions of humanity as we entangle our lives and emotions with the machines we have created? In *Work Mate Marry Love*, Harvard Business School professor and former Barnard College president Debora L. Spar offers an incisive and provocative account of how technology has transformed our intimate lives in the past, and how it will do so again in the future. Surveying the course of history, she shows how marriage as we understand it resulted from the rise of agriculture, and that the nuclear family emerged with the industrial revolution. In their day, the street light, the car, and later the pill all upended courtship and sex. Now, as we enter an era of artificial intelligence and robots, how will our deepest feelings and attachments evolve? In the past, the prevailing modes of production produced a world dominated by heterosexual, mostly-monogamous, two-parent families. In the future, however, these patterns are almost certain to be reshaped, creating entirely new norms for sex and romance, and for the construction of families and the raising of children. Steering clear of both techno-euphoria and alarmism, Spar offers a bold and inclusive vision of how our lives might be changed for the better.

Rejecting My Lycan Mate Tessa Lilly, 2023-05-30
I, Madeline Clark, reject... I started speaking, but Alpha Dimitri stopped me by placing his hand over my mouth. He pulled me closer to him and growled. I'm not accepting your rejection, Madeline, he growled. You are my mate. You are the greatest gift that the Goddess has ever given me. I am not letting you go. My heart was hammering against my rib cage. His scent overwhelmed my senses. He leaned in and rubbed his nose up and down my jaw. My skin was on fire. Every part of my body desired to be touched by him. I can't let you go, my love, he mumbled. I've waited for you my whole life. His lips brushed against the marking spot on my neck, and I almost burst into flames. Convincing him to accept my rejection would be the hardest thing I ever had to do. Madeline is a 17-year-old girl who still hasn't shifted into her wolf. Her father abandoned her mother when she was very young. She has been bullied and laughed at all the time. After she lost her mom, the person who loved her the most, Madeline is completely distraught and broken. Her father comes back to take her back to his pack. Madeline is against it, but her financial situation forces her to go with him. Dimitri is a Lycan wolf, the Alpha of his very successful pack. He is 22 years old, and he still hasn't found his mate. When Madeline arrives at his pack, he is very surprised to discover that she is his mate. He is also frustrated because she is his stepsister who hasn't shifted yet. She can't recognize him as her mate. Madeline

struggles in the new pack. She doesn't have the best relationship with her stepmother. She can't wait to turn 18 and leave. What will happen when Madeline finds out who her mate is? What will Dimitri do after she rejects him? Will he be able to convince her to stay? This is book 1 of the story
