Micro Michael Crichton, Richard Preston, 2011-11-22 In the vein of Jurassic Park, this high-concept thriller follows a group of graduate students lured to Hawaii to work for a mysterious biotech company—only to find themselves cast out into the rain forest, with nothing but their scientific expertise and wits to protect them. In the lush forests of Oahu, groundbreaking technology has ushered in a revolutionary era of biological prospecting, feeding a search for priceless drugs and applications on a scale beyond anything previously imagined. In Cambridge, Massachusetts, seven graduate students at the forefront of their fields are recruited by a pioneering microbiology start-up, Nanigen MicroTechnologies, which dispatches the group to a mysterious lab in Hawaii. But once in the rainforest, the scientists are thrust into a hostile wilderness that reveals surprising dangers at every turn. Armed only with their knowledge of the natural world, they find themselves prey to a technology of radical and unbridled power. An instant classic, *Micro* pits nature against technology in vintage Michael Crichton fashion. Completed by visionary science writer Richard Preston, this boundary-pushing thriller melds scientific fact with pulse-pounding fiction to create yet another masterpiece of sophisticated, cutting-edge entertainment.

Beyond Micro-credit Thomas Fisher, M. S. Sriram, 2002 *Beyond Micro-Credit* sets out how Indian Micro-Finance Initiatives are combining micro-finance with a wide range of development goals, these include not only poverty alleviation through providing savings, credit and insurance services but also promoting livelihoods, empowering women, building people's organizations and changing institutions.

Multimodal Learning toward Micro-Video Understanding Liqiang Nie, Meng Liu, Xueming Song, 2022-05-31 Micro-videos, a new form of user-generated contents, have been spreading widely across various social platforms, such as Vine, Kuaishou, and Tik Tok. Different from traditional long videos, micro-videos are usually recorded by smart mobile devices at any place within a few seconds. Due to its brevity and low bandwidth cost, micro-videos are gaining increasing user enthusiasm. The blossoming of micro-videos opens the door to the possibility of many promising applications, ranging from network content caching to online advertising. Thus, it is highly desirable to develop an effective scheme for the high-order micro-video understanding. Micro-video understanding is, however, non-trivial due to the following challenges: (1) how to represent micro-videos that only convey one or few high-level themes or concepts; (2) how to utilize the hierarchical structure of the venue categories to guide the micro-video analysis; (3) how to alleviate the influence of low-quality caused by complex surrounding environments and the camera shake; (4) how to model the multimodal sequential data, {i.e.}, textual, acoustic, visual, and social modalities, to enhance the micro-video understanding; and (5) how to construct large-scale benchmark datasets for the analysis? These challenges have been largely unexplored to date. In this book, we focus on addressing the challenges presented above by proposing some state-of-the-art multimodal learning theories. To demonstrate the effectiveness of these models, we apply them to three practical tasks of micro-video understanding: popularity prediction, venue category estimation, and micro-video routing. Particularly, we first build three large-scale real-world micro-video datasets for these practical tasks. We then present a multimodal transductive learning framework for micro-video popularity prediction. Furthermore, we introduce several multimodal cooperative learning approaches and a multimodal transfer learning scheme for micro-video venue category estimation. Meanwhile, we develop a multimodal sequential learning approach for micro-video recommendation. Finally, we conclude the book and figure out the future research directions in multimodal learning toward micro-video understanding.

Micro Markets Workbook Robert A. Schwartz, Michael G. Carew, Tatiana Maksimenko, 2010-03-25 A companion Workbook to the text *Micro Markets* Understanding how microeconomics affects the marketplace is essential for any investment professional, however most books simply address microeconomics in its pure theory-based form. *Micro Markets* helped bridge the gap between theory and practice by defining microeconomics in terms of real-world, market applications. Now, the *Micro Markets Workbook* offers you a chance to review the information found in the actual book and solidify your understanding of this discipline. In this study guide, microeconomic concepts are fully reviewed, along with how all of its relevant theory is applicable to today's markets. Helps you learn to perform dynamic microeconomic analysis in practice Tests your knowledge of the information addressed in *Micro Markets*, before you put it to work in real world situations Provides solutions to each chapter of the main book's practice problems If you want to gain a firm understanding of the information outlined in *Micro Markets*, the lessons within this Workbook can help you achieve this goal.

The Micro-macro Link Jeffrey C. Alexander, 1987-01-01 The work of fifteen nationally and internationally known theorists in sociology, this volume demonstrates an exciting new trend in sociological thinking. Each essay proposes a link between the two distinguishable traditions of sociological theory--the microscopic, which stresses the self and the interaction among persons, and the macroscopic, which concentrates on the institutional, cultural, and societal levels. Each mode of analysis has had its champions, and the proponents of each have often taken positions of polemic opposition to one another.

Micro Michael Crichton, Richard Preston, 2012-03-26 Eine Handvoll Studenten, ausgesetzt im Regenwald, auf der Flucht vor technisch veränderten Organismen: ein hintergründiges und hochaktuelles Actionszenario Honolulu, Hawaii. Drei Männer liegen tot auf dem Fußboden eines verschlossenen Büros – keine Anzeichen eines Kampfes, keine Einbruchsspuren, keine Tatwaffe. Nur die extrem feinen, rasiermesserscharfen Schnitte, die die Leichen überziehen, liefern einen ebenso grausigen wie rätselhaften Hinweis auf die Todesursache. In Cambridge, Massachusetts, wird eine Handvoll Studenten, die sich durch besondere Fähigkeiten hervortun, von einem Unternehmen für den Einsatz an der Front der Mikrobiologie rekrutiert. Die streng geheime, höchst profitable Arbeit von Nanigen Micro Technologies führt die Forschungstalente nach Hawaii. Doch hier, weit entfernt von der Sicherheit ihrer Labors, plötzlich sich selbst überlassen im Dschungel, sehen sich die Studenten nicht nur einer erbarmungslosen Natur, sondern auch einer radikalen neuen Technik gegenüber, die die Gruppe schnell beherrschen lernen muss, will sie nicht für immer in den undurchdringlichen Wäldern Oahus verschwinden ...

LEGO Micro Cities Jeff Friesen, 2018-10-30 Create your own custom city with building instructions for over 50 builds from 8 amazing LEGO Micro Cities! Build a beautiful LEGO® city that's small enough to hold in your hands! Filled with striking photos, step-by-step instructions, and countless ideas for customization, LEGO Micro Cities shows you how building small can open up new possibilities for the creative builder. You'll learn everything you need to know to create your own micro city, from building the foundation to adding convincing architectural details that will bring your city to life.

Computation Bernardo A. Huberman, 1992 The laws and methodology of physics are starting to provide powerful insights into the nature and dynamics of computation. This book contains a number of articles that illustrate how fields ranging from quantum mechanics to statistical physics and nonlinear dynamics can help elucidate the nature of computation.

New Micro: Exceptionally Short Fiction James Thomas, Robert Scotellaro, 2018-08-28 A new collection of very short stories selected by Flash Fiction editor James Thomas and Robert Scotellaro. All of the stories in this book are exceptionally short, revealing themselves in no more than 300 words. With a foreword by Robert Shapard and an afterword by Christopher Merrill, this book brings you fresh approaches to an exacting form that demands precision, a species of brevity that is surprisingly expansive. Writers say the pieces are hard to compose, but readers say they are easy to appreciate, a pleasure to envision, a wonder to watch life spun out and painted in small places. Real and surreal, lyrical and prosaic, here are 135 stories by 89 authors, certain to make you think.

Micro Total Analysis Systems 2002 Yoshinobu Baba, Shuichi Shoji, Albert van den Berg, 2002-10-17 The Sixth International Conference on Miniaturized Chemical and Biochemical Analysis Systems, known as /JTAS2002, will be fully dedicated to the latest scientific and technological developments in the field of miniaturized devices and systems for realizing not only chemical and biochemical analysis but also synthesis. The first /JTAS meeting was held in Enschede in 1994 with approximately 160 participants, bringing together the scientists with background in analytical and biochemistry with those with Micro Electro Mechanical Systems (MEMS) in one workshop. We are grateful to Piet Bergveld and Albert van den Berg of MESA Research Institute of the University of Twente for their great efforts to arrange this exciting first meeting. The policy of the meeting was succeeded by late Prof. Dr. Michael Widmer in the second meeting, /JTAS'96 held in Basel with 275 participants. The first two meetings were held as informal workshops. From the third workshop, /JTAS'98 (420 participants) held in Banff, the workshop had become a worldwide conference. Participants continued to increase in /JTAS2000 (about 500 participants) held in Enschede and /JTAS2001 (about 700 participants) held in Monterey. The number of

submitted papers also dramatically increased in this period from 130 in 1998, 230 in 2000 to nearly 400 in 2001. From 2001, /JTAS became an annual symposium. The steering committee meeting held in Monterey, confirmed the policy of former /JTAS that quality rather than quantity would be the key-point and that the parallel-session format throughout the 3.

Laser Beam Micro-milling of Micro-channels in Aerospace Alloys Saied Muhammed Hassan Darwish, Naveed Ahmed, Abdulrahman M. Al-Ahmari, 2017-01-31 This volume is greatly helpful to micro-machining and laser engineers as it offers obliging guidelines about the micro-channel fabrications through Nd:YAG laser beam micro-milling. The book also demonstrates how the laser beam micro-milling behaves when operating under wet conditions (under water), and explores what are the pros and cons of this hybrid technique. From the predictive mathematical models, the readers can easily estimate the resulting micro-channel size against the desired laser parametric combinations. The book considers micro-channels in three highly important research materials commonly used in aerospace industry: titanium alloy Ti-6Al-4V, nickel alloy Inconel 718 and aluminum alloy AA 2024. Therefore, the book is highly practicable in the fields of micro-channel heat exchangers, micro-channel aerospace turbine blades, micro-channel heat pipes, micro-coolers and micro-channel pulsating heat plates. These are frequently used in various industries such as aerospace, automotive, biomedical and micro-electronics.

Micro-Credit Networking for Women Entrepreneurs in Estonia, Latvia and Lithuania Nordic Council of Ministers, 2005 Micro-credit networking means so much more than giving a loan to a group of women who want to start a company: development of business ideas in co-operation with others, training in business economics, book-keeping etc, advisory services and information from professional advisers.

Micro Total Analysis Systems 2001 J. Michael Ramsey, Albert van den Berg, 2012-12-06 The Fifth International Conference on Micro Total Analysis Systems, also known as JTAS 2001, will highlight the latest exciting events in the world of miniaturized devices and systems for performing chemical and biochemical experimentation. This conference has become mandatory for those of us working in this field as it is indeed helping to define our discipline. We are grateful to the people of the MESA Research Institute of the University of Twente, particularly Piet Bergveld and Albert van den Berg, for starting this meeting in 1994. Their original intention was for the JTAS meeting to be a small informal workshop. This workshop flavor was sustained through the second meeting held in Basel in 1996, but already in 1998 at the third meeting in Banff it was clear that the workshop had become a conference with 420 attendees. It was due to this clearly growing interest in microchemical systems that it was decided we should consider gradually moving toward an annual format and prepare for the possibility that the meeting would increase in popularity. Albert van den Berg was still yearning for a workshop at the JTAS 2000 meeting and planned a single session format. Again there was a large increase in submitted abstracts (more than 230 total) and a further increase in attendance. The JTAS steering committee again agreed that we would have to prepare to address the demand the meeting was receiving.

The Design of Micro Credit Contracts and Micro Enterprise Finance in Uganda Winifred Tarinyeba-Kiryabwire, 2010-12-29 Studies have shown that the negative effects of credit market inefficiencies are most felt by smaller firms. Therefore, in countries such as Uganda, where micro enterprises are at the bottom of the economic pyramid, moral hazard and adverse selection severely affect their ability to access formal credit hence limiting their growth potential. Microfinance has been heralded for its use of innovative lending methods to improve access to credit. The last decade has witnessed an unprecedented increase in the outreach of micro lending institutions and the development of financial products suited to the needs of the economically active poor, who often, are unable to obtain credit from mainstream financial institutions. This book analyzes the law and economics theories on access to credit and enterprise finance and based on case studies in Uganda, presents empirical findings of the promise and limits of contractual innovations in micro credit.

Advances in Micro and Nano Manufacturing and Surface Engineering Bijoy Bhattacharyya, Jose Mathew, N. Saravanakumar, G. Rajeshkumar, 2022-09-12 This book presents select proceedings of the 8th International and 29th All India Manufacturing Technology, Design, and Research Conference (AIMTDR 2021). It discusses the latest advances in miniature manufacturing, machining of miniature components, surface engineering, nanomaterials, nanotechnology, industry 4.0, optimization techniques, micro-electric discharge machining, electrochemical micro-machining, thin films, optimization of micro-machining process parameters, machining of nano-composites, characterization using atomic force microscopy, micro tool fabrications, characterization of nano-composites, surface roughness analysis, tribological performance of surface coated materials, and sustainability in manufacturing. The contents of this book are useful for students, researchers, and as well as industry professionals working in the various areas of mechanical engineering.

Micro Radio and the FCC Andrew Opel, 2004-05-30 Micro Radio became a lightning rod for the emerging Media Activism and Reform Movement. Like the environmental movement in the 1960s and 70s that focused on specific issues like nuclear power, the Media Activism Movement discovered a significant formative issue in micro radio at the turn of the millennium. This book is a close examination of the struggle over micro radio. Throughout this research micro radio is viewed as a site of social activity, a unique cultural and historical bond where ideas about the relationship between media and democracy are explored. This work is the first to spotlight this emerging social movement and uses critical historical analysis to provide a description of it. The information in this book shows the struggle over micro radio as the most recent manifestation of a growing social movement, a movement of media activism and reform. As local people took to the airwaves, illegally broadcasting the frivolous to the serious, theoretical concepts such as localism and public access suddenly became grounded in a real world radio show. Micro radio broadcasters were able to demonstrate what is left out of most mainstream media. They showed what could happen when a diverse public is allowed to access the most universal telecommunications of the day. This look at micro radio will be valuable to communications students who are interested in the strategies behind media and social movements, alternative media, and news media practices.

Micro-scaled Products Development via Microforming Ming Wang Fu, Wai Lun Chan, 2014-01-04 'Micro-scaled Products Development via Microforming' presents state-of-the-art research on microforming processes, and focuses on the development of micro-scaled metallic parts via microforming processes. Microforming refers to the fabrication of microparts via micro-scaled plastic deformation and presents a promising micromanufacturing process. When compared to other micromanufacturing processes, microforming offers advantages such as high productivity and good mechanical properties of the deformed microparts. This book provides extensive and informative illustrations, tables and photos in order to convey this information clearly and directly to readers. Although the knowledge of macroforming processes is abundant and widely used in industry, microparts cannot be developed by leveraging existing knowledge of macroforming because the size effect presents a barrier to this knowledge transfer. Therefore systematic knowledge of microforming needs to be developed. In tandem with product miniaturization, the demand on microparts has been increased for their wide applications in many industries, including automotive, bio-medical, aerospace and consumer electronics industries. Micromanufacturing technologies have thus become more and more important. This book is intended for postgraduates, manufacturing engineers and professionals working in the areas of manufacturing and materials processing.

Micro Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has become more evident than ever. They have the capability to inspire, provoke, and ignite change. Such may be the essence of the book **Micro**, a literary masterpiece that delves deep in to the significance of words and their impact on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
