**Mogul** K.J. Rodgers,2016-07-22 What if a device installed in our bodies could make us our best selves? What if all of the Earth's wild animals lived next door with a fence as the only barrier? What if 'freedom' no longer existed? And nobody else thought it was wrong? In the First Republic of Equality (FRE), the Consul controls every aspect of the citizens' lives. What they know. How they eat. Where they go. Every regulation serves the common good. Regan Salvatore has spent her sixteen years trying to be good to others, follow the rules, make her family proud. She's never thought twice about the way things are. For the last year, Regan’s been busy falling for her boyfriend, Grant Halden. He's a computer prodigy who has been away all summer working on a secret Consul project with his father. On the first day of school, Regan meets a new student from the farmlands. Beau Conway immediately intrigues her. Every time she talks to Beau, Regan finds herself looking at the world in a different light. He teaches her about forbidden history, wide open spaces, and making her own choices. Regan starts to wonder if humanity deserves something more.

Regan, her family, and friends notice the beginnings of societal decay. Little do they know, the country is on the verge of collapse. The Consul develops a plan to save it: Mogul. Researchers boast that this breakthrough in technology and medicine can enhance any person's aptitudes and ensure optimal health. Grant assures her that she can trust the Consul. Yet Regan is compelled to do what she believes is right. With forgotten ideas permeating her mind, Regan quests to find the truth- but is it already too late?

Mogul, Mom, & Maid Liz O'Donnell,2016-10-21 The state of working women has been declared and debated since the days of Rosie the Riveter. The headlines, and the statistics behind them, however, don't tell the whole story. The truth is, many women today are breadwinners; and these breadwinners are struggling. They are caught in a perfect storm of male-dominated culture at work, traditional social norms at home, and outdated schedules in the school. Mogul, Mom, & Maid takes an honest look at how women are balancing home life and career. The pressures of child rearing, coupled with an unfulfilling corporate culture, are too great to be ignored. Author Liz O'Donnell goes beyond statistics and tells the stories of women all across America who are juggling careers, motherhood, marriage, and households. Mogul, Mom, & Maid looks at the choices women are making, the options they have, and the impact these decisions have on themselves, their families, and the businesses that employ them.

The Real Estate Mogul Domico,Robert,2012-07-18 When I got out of the service at age 21 ,I decided I was going to make my fortune in Real Estate , so I purchased with my discharge pay a large house with 7 bedrooms and two bathrooms and made my first rooming house. I converted the porch and the Dining room into 2 more

bedrooms, making a total of 9 bedrooms which I rented out in whose days for \$50.00 a week each. I didnt give anyone use of the kitchen and I didnt allow anyone to have company, you just went directly to your room and basically went to sleep and that was it. I allowed no food in rooms or any loud noise after 10 PM. It was a great place if you had a job and you were making minimum wage. My mortgage payment was \$250.00 a month , my electric bill was \$165.00, My gas bill averaged 150 a month year around and because I had a well and septic tank , even getting them pumped out and serviced a couple times a year, only cost me an average of \$35.00 a month. My Insurance ran me only \$50.00 a month, about \$25.00 a month for maintenance, so the expenses were \$ 670.00 per month. My Income was \$1330.00 a month on my first property net. There I was back in the late 1950s making over \$17,000 a year ,not working for anybody. It was very important to get a lot of information about your tenants such as next of kin, Mother and fathers name and address, social security #,Employers Name, Landlord history, last job ect. I always had an application ready for them to full out. That way if they do any damage to your property you can chase them down.

**The Boy Genius and the Mogul** Daniel Stashower,2002-05-07 The world remembers Edison, Ford, and the Wright Brothers. But what about Philo T. Farnsworth, the inventor of television, an innovation that did as much as any other to shape the twentieth century? That question lies at the heart of *The Boy Genius and the Mogul*, Daniel Stashower's captivating chronicle of television's true inventor, the battle he faced to capitalize on his breakthrough, and the powerful forces that resulted in the collapse of his dreams. The son of a Mormon farmer, Farnsworth was born in 1906 in a single-room log cabin on an isolated homestead in Utah. The Farnsworth family farm had no radio, no telephone, and no electricity. Yet, motivated by the stories of scientists and inventors he read about in the science magazines of the day, young Philo set his sights on becoming an inventor. By his early teens, Farnsworth had become an inveterate tinkerer, able to repair broken farm equipment when no one else could. It was inevitable that when he read an article about a new idea -- for the transmission of pictures by radio waves--that he would want to attempt it himself. One day while he was walking through a hay field, Farnsworth took note of the straight, parallel lines of the furrows and envisioned a system of scanning a visual image line by line and transmitting it to a remote screen. He soon sketched a diagram for an early television camera tube. It was 1921 and Farnsworth was only fourteen years old. Farnsworth went on to college to pursue his studies of electrical engineering but was forced to quit after two years due to the death of his father. Even so, he soon managed to persuade a group of California investors to set him up in his own research lab where, in 1927, he produced the first all-electronic television image and later patented his invention. While Farnsworth's invention was a landmark, it was also the beginning of a struggle against an immense corporate power that would consume much of his life. That corporate power was embodied by a legendary media mogul, RCA President and NBC founder David Sarnoff, who claimed that his chief scientist had invented a mechanism for television prior to Farnsworth's. Thus the boy genius and the mogul were locked in a confrontation over who would control the future of television technology and the vast fortune it represented. Farnsworth was enormously outmatched by the media baron and his army of lawyers and public relations people, and, by the 1940s, Farnsworth would be virtually forgotten as television's actual inventor, while Sarnoff and his chief scientist would receive the credit. Restoring Farnsworth to his rightful place in history, *The Boy Genius and the Mogul* presents a vivid portrait of a self-taught scientist whose brilliance allowed him to capture light in a bottle. A rich and dramatic story of one man's perseverance and the remarkable events leading up to the launch of television as we know it, *The Boy Genius and the Mogul* shines new light on a major turning point in American history.

**TV Format Mogul** Albert Moran,2013-01-06 Since the late 1990s, when broadcasters began adapting such television shows as *Big Brother*, *Survivor*, and *Who Wants to Be a Millionaire?* for markets around the world, the global television industry has been struggling to come to grips with the prevalence of program franchising across international borders. In *TV Format Mogul*, Albert Moran traces the history of this phenomenon through the lens of Australian producer Reg Grundy's transnational career. Program copycatting, Moran shows, began long before its most recent rise to prominence. Indeed, he reveals that the practice of cultural and commercial cloning from one place to another, and one time to another, has occurred since the early days of broadcasting. Beginning in the late 1950s, Grundy brought non-Australian shows to Australian audiences, becoming the first person to take local productions to an overseas market. By following Grundy's career, Moran shows how adaptation and remaking became the billion-dollar business they are today. An exciting new contribution from Australia's foremost scholar of television, *TV Format Mogul* will be a definitive history of program franchising.

*Donald Trump* Sara Mcintosh Wooten,2017-07-15 For years, Donald Trump was a real-estate magnate known for his overblown, opulent lifestyle. His brash but entertaining antics made him a best-selling author and host of the long-running television reality shows *The Apprentice* and *Celebrity Apprentice*. But the stakes grew higher in 2016 when he shocked many by beating out a huge field of contenders to secure the Republican Party nomination for president. This compelling biography traces the businessman's privileged childhood through his successes and failures, to the most important race of his life.
