TAXI Driver ,2002

Streetwise Diego Gambetta, Heather Hamill, 2005-06-30 A taxi driver's life is dangerous work. Picking up a bad customer can leave the driver in a vulnerable position, and erring even once can prove fatal. To protect themselves, taxi drivers must quickly and accurately assess the trustworthiness of complete strangers. In *Streetwise*, Diego Gambetta and Heather Hamill take this predicament as a prototypical example of many trust decisions, where people must act on limited information and judge another person's trustworthiness based on signs that may or may not be honest indicators of that person's character or intent. Gambetta and Hamill analyze the behavior of cabbies in two cities where driving a taxi is especially perilous: New York City, where drivers have been the targets of frequent and violent robberies, and Belfast, Northern Ireland, a divided metropolis where drivers have been swept up in the region's sectarian violence. Based on in-depth ethnographic research, *Streetwise* lets drivers describe in their own words how they seek to determine the threat posed by each potential passenger. The drivers' decisions about whom to trust are treated in conjunction with the sign-management strategies of their prospective passengers—both genuine passengers who try to persuade drivers of their trustworthiness and the villains who mimic them. As the theory that guides this research suggests, drivers look for signs that correlate closely with trustworthiness but are difficult for an impostor to mimic. A smile, a business suit, or a skullcap alone do not reassure drivers, as any criminal could easily wear them. Only if attached to other signs—a middle-aged woman, a business address, or a synagogue—are they persuasive. Drivers are adept at deciphering deceitful signals, but trickery is occasionally undetectable, so they must adopt defensive strategies to minimize their exposure to harm. In Belfast, where drivers are locals and often have histories of paramilitary involvement, macho posturing often serves to deter would-be criminals, while New York cabbies, mostly immigrants who view themselves as outsiders, try simply to minimize the damage from attacks by appeasing robbers and carrying only small amounts of cash. For most people, erring in a trust decision leads to a broken heart or a few dollars lost. For cab drivers, such an error could mean losing their lives. The way drivers negotiate these high stakes offers us vivid insight into how to determine another person's trustworthiness. Written with clarity and color, *Streetwise* invites the reader to ride shotgun with cabbies as they grapple with a question of relevance to us all: which signs of trustworthiness can we really trust? Uber's Disruption of the Taxi Industry in Australia Caroline Mutuku,2018-07-11 Essay from the year 2018 in the subject Business economics - Investment and Finance, grade: 1.5, , language: English, abstract: Uber has disrupted the Australian Taxi industry by dominating the market because it is easy to access and it is also cheap compared to other transport services such as the taxis. This ride sharing business is well funded by the entrants hence challenging the taxi industry. The taxi drivers are concerned that Uber are not regulated (not bound by the same taxi regulatory structures) implying that they are able to compete in uneven playing field thus getting a competitive advantage over the taxi drivers. The taxi drivers argue that Uber drivers escape the regulatory costs hence making them illegal or unfair in the taxi industry. As a result, this ride sharing business is disrupting the taxi industry according to most of the incumbents in these industries.
