Without My Asking Robert Cording,2019 In poems that range from New England to the Southwest, Without My Asking, takes its cue from Psalms 90's petition--teach us to number our days. That biblical sense of limits--of what we can know and not know--and, ultimately, the mystery of before and after that encloses our existence is the center around which these poems turn, both seasonally and from day-to-day. In poems that attend to the events of our lives--from the deaths of parents to hummingbirds at a bird feeder--these poems work to utter Yes to all that happens, that peculiar affirmative that recognizes, as Elizabeth Bishop says, Life's like that . . . also death.

Essays in Moral Skepticism Richard Joyce,2016-01-28 Moral skepticism is the denial that there is any such thing as moral knowledge. Some moral skeptics deny that moral judgments are beliefs; some allow that moral judgments are beliefs but claim that they are all untrue; others claim that all moral judgments are unjustified. Since the publication of *The Myth of Morality* in 2001, Richard Joyce has explored the terrain of moral skepticism and, perhaps more than any other living philosopher, has been willing to advocate versions of this radical view. Joyce's attitude toward morality is analogous to an atheist's attitude toward religion: he claims that in making moral judgments speakers attempt to state truths (e.g., that breaking promises is usually wrong) but that the world simply isn't furnished with the properties and relations necessary to render such judgments true. Moral thinking, he argues, probably emerged as a human adaptation, but one whose usefulness derived from its capacity to bolster social cohesion rather than its ability to track truths about the world. This forms the basis of Joyce's 'evolutionary debunking argument,' according to which evidence that a certain kind of judgment can be explained with no reference to its truth may reveal those judgments to lack warrant. *Essays in Moral Skepticism* gathers together a dozen of Joyce's most significant papers from the last decade, following the developments in his ideas, presenting responses to critics, and charting his exploration of the complex landscape of modern moral skepticism.

What's Breath Got to Do With It Offer Dan,2024-03-01 Those who "laugh last" are the ones who postpone the last

breath and breathe well until the day comes. My mom practiced Yoga and was a breathwork instructor. I started juggling my breath at the age of nine. Five decades later, I decided to write about my methods, personal experiences, and intimate memoirs, sharing my insights. The book is a culmination of persistent knowledge-seeking guided by science and cross-examined by personal observations; the approach sidesteps from the trodden path in presentation and interpretation. Even though Air is light, the subject of breathing can be heavy, burdened with myths and mystic words. I aim to simplify tangled topics yet deeply penetrate the matters discussed. The added humor should assist in digesting the fiber of understanding respiration. Here's a summary of what's covered:

- Basic explanations of the biology and chemistry of breathing.
- Indications to assess personal effects of different breathing practices.
- Practical ways to evaluate an individual's breathing profile.
- Breathing exercises for physical and mental wellness.
- Breathing tools for responding to immediate situations.

Chances are my breathing practices will affect you differently than they affect me. Therefore, I intend to provide you with the know-hows and ways to tweak my practices so they may better suit you as an individual. Along the way, I will answer many questions like the ones below Why do traumatic events register differently when screaming out as opposed to holding the breath? How can synchronizing smiles with inhaling augment the effect of breathing exercises? How can video recordings of night sleeping make mouth-taping redundant? How does a 'breathing clock' improve body language synchronization when speaking to an audience? How does 'Dying man's breathing' assist in overcoming cravings? How can the respiratory 'dead space' bring a person back to life when performing mouth-to-mouth resuscitation? How to breathe when experiencing motion sickness? Why the breathing equation is changed when feeling seasick (motion + tilting)? How to breathe when getting a mouth burn from overeating chili? Why is it better to breathe the exact opposite way when overdosing on wasabi or mustard? For many, something that costs nothing is worthless; others believe the best things in life are free. Air is free yet extremely valuable, especially when it's in short supply. One thing's certain; you will get more out of this eBook than what you paid for—guaranteed! All profits from the sales of printed copies will be donated to charity.
