**Nemesis** Philip Roth, 2011-10-04 NATIONAL BESTSELLER • Set in a close-knit Newark neighborhood during a terrifying polio outbreak in 1944, a “book [that] has the elegance of a fable and the tragic inevitability of a Greek drama” (The New Yorker)—from the Pulitzer Prize-winning author of American Pastoral. Bucky Cantor is a vigorous, dutiful twenty-three-year-old playground director during the summer of 1944. A javelin thrower and weightlifter, he is disappointed with himself because his weak eyes have excluded him from serving in the war alongside his contemporaries. As the devastating disease begins to ravage Bucky’s playground, Roth leads us through every inch of emotion such a pestilence can breed: fear, panic, anger, bewilderment, suffering, and pain. Moving between the streets of Newark and a pristine summer camp high in the Poconos, *Nemesis* tenderly and startlingly depicts Cantor’s passage into personal disaster, the condition of childhood, and the painful effect that the wartime polio epidemic has on a closely-knit, family-oriented Newark community and its children.

**Nemesis** Brendan Reichs, 2017-03-21 Orphan Black meets Lord of the Flies in this riveting new thriller from the co-author of the Virals series. It's been happening since Min was eight. Every two years, on her birthday, a strange man finds her and murders her in cold blood. But hours later, she wakes up in a clearing just outside her tiny Idaho hometown—alone, unhurt, and with all evidence of the horrifying crime erased. Across the valley, Noah just wants

to be like everyone else. But he's not. Nightmares of murder and death plague him, though he does his best to hide the signs. But when the world around him begins to spiral toward panic and destruction, Noah discovers that people have been lying to him his whole life. Everything changes in an eye blink. For the planet has a bigger problem. The Anvil, an enormous asteroid threatening all life on Earth, leaves little room for two troubled teens. Yet on her sixteenth birthday, as she cowers in her bedroom, hoping not to die for the fifth time, Min has had enough. She vows to discover what is happening in Fire Lake and uncovers a lifetime of lies: a vast conspiracy involving the sixty-four students of her sophomore class, one that may be even more sinister than the murders.

**Nemesis** Scott Ciencin, Denise Ciencin, 2004 Even if it takes an eternity, he will make amends. Weakest link When an old friend from graduate school contacts Fred for help with her job at a top scientific facility, Fred feels a mixture of dread about renewing ties to her past and wistfulness for the quiet life she might have led entrenched in her research. But the night they are supposed to meet, her friend is gunned down, the seemingly innocent victim of a mob hit gone wrong. Fred is inconsolable. Although Angel and the others want to help, they have been called upon to solve a rash of murders among a group of wizards. These wizards are the only ones preventing an apocalyptic breach of the walls separating our reality from other, more-deadly worlds. Fred decides to leave the investigation and take her friend's

place as a researcher in order to uncover the truth behind her murder. But when the worlds of scientific research and the supernatural collide, Fred may be the only one who can solve the case and stop the coming apocalypse.

**Nemesis** Anna Banks, 2016-10-04 The princess didn't expect to fall in love-- with her nemesis. Princess Sepora of Serubel is the last Forger in all the five kingdoms. The spectorium she creates provides energy for all, but now her father has found a way to weaponize it, and his intentions to incite war force her to flee from his grasp. She escapes across enemy lines into the kingdom of Theoria, but her plans to hide are thwarted when she is captured and placed in the young king's servitude. Tarik has just taken over rulership of Theoria, and must now face a new plague sweeping through his kingdom and killing his citizens. The last thing he needs is a troublesome servant vying for his attention. But mistress Sepora will not be ignored. When the two finally meet face-to-face, they form an unlikely bond that complicates life in ways neither of them could have imagined. Sepora's gift could save Tarik's kingdom from the Quiet Plague. But should she trust her growing feelings for her nemesis, or should she hide her gifts at all costs? A thrilling futuristic fantasy in which the fate of the world's energy source is in the hands of a prince and princess who are rivals, by the New York Times- bestselling author of the Syrena Legacy.

**Operation Nemesis** Eric Bogosian, 2015-04-21 A masterful account of the assassins who hunted down the perpetrators of the Armenian Genocide In 1921,

a tightly knit band of killers set out to avenge the deaths of almost one million victims of the Armenian Genocide. They were a humble bunch: an accountant, a life insurance salesman, a newspaper editor, an engineering student, and a diplomat. Together they formed one of the most effective assassination squads in history. They named their operation Nemesis, after the Greek goddess of retribution. The assassins were survivors, men defined by the massive tragedy that had devastated their people. With operatives on three continents, the Nemesis team killed six major Turkish leaders in Berlin, Constantinople, Tiflis, and Rome, only to disband and suddenly disappear. The story of this secret operation has never been fully told, until now. Eric Bogosian goes beyond simply telling the story of this cadre of Armenian assassins by setting the killings in the context of Ottoman and Armenian history, as well as showing in vivid color the era's history, rife with political fighting and massacres. Casting fresh light on one of the great crimes of the twentieth century and one of history's most remarkable acts of vengeance, Bogosian draws upon years of research and newly uncovered evidence. Operation Nemesis is the result--both a riveting read and a profound examination of evil, revenge, and the costs of violence.

**Nemesis** Isaac Asimov, 2008-11-19 "A totally new and original work that stretches his talents to their fullest . . . welcome back, champ!"—The Detroit News In the twenty-third century pioneers have escaped the crowded earth for life in self-sustaining orbital colonies. One of the colonies,

Rotor, has broken away from the solar system to create its own renegade utopia around an unknown red star two light-years from Earth: a star named Nemesis. Now a fifteen-year-old Rotorian girl has learned of the dire threat that nemesis poses to Earth's people—but she is prevented from warning them. Soon she will realize that Nemesis endangers Rotor as well. And so it will be up to her alone to save both Earth and Rotor as—drawn inexorably by Nemesis, the death star—they hurtle toward certain disaster.

**Nemesis, the Roman State and the Games** Michael B. Hornum, 1993 This re-evaluation of the place of Nemesis in the Roman World shows that the goddess was associated less with the lower classes than with the emperor and state. It also reveals her as particularly connected with the munus and venatio as the result of a function peculiar to these games.

Hitler, 1936-45 Ian Kershaw, 2000 In this volume, Ian Kershaw introduces Adolf Hitler at the apex of his power, idolized by millions of Germans for bringing the nation out of economic catastrophe. The Nazi party, the armed forces, the industrial cartels, and the civil servants are all working towards the Fuhrer. Meanwhile, Hitler is poised to realize his

Mephistophelean vision : the subjugation of Europe under the Thousand Year Reich and, in the process, the annihilation of the Jews. For three years, Hitler and his relentless armies pluge the European continent into a bloodbath, as German soldiers, accompanied by fanatical SS units, slaughter conquered troops and civilians alike. Then, as Allied might prevails, Kershaw reveals a Hitler transformed from invincible warlord to desperate gambler, ultimately bring destruction to his country and ending his life in a bunker under the ruins of Berlin. Based on immense research, including the use of many previously untapped sources, Hitler, 1936-1945--Page 4 of cover.

**Nemesis** William Bernhardt, 2009-09-29 In Chicago, Eliot Ness created "the Untouchables," the fabled team of federal agents who finally put Al Capone behind bars. Now, in the fall of 1935, Ness has been moved to Cleveland to become the city's director of public safety. But as Ness starts his new job, a grisly serial killer starts a career of his own. One by one, bodies are found, each one decapitated and dissected with a doctor's skill and a madman's bent. The police are baffled and the population is terrorized over the so-called "Torso Killer." Though it's not his turf, Ness is forced to take over the case, but the more energy he pours into the investigation, the more it takes over his life and even his untouchable reputation. Because in Cleveland, there is only one true untouchable: a killer who has the perfect hiding place and the perfect plan for destroying Eliot Ness.

**Nemesis** Peter Evans, 2009-03-17 Peter Evans's biography of Aristotle

Onassis, Ari, met with great acclaim when it was published in 1986. Ari provided the world with an unprecedented glimpse of the Greek shipping magnate's orbit of dizzying wealth, twisted intrigues, and questionable mores. Not long after the book appeared, however, Onassis's daughter Christina and his longtime business partner Yannis Georgakis hinted to Evans that he had missed the real story -- one that proved Onassis's intrigues had deadly results. I must begin, Georgakis said, with the premise that, for Onassis, Bobby Kennedy was unfinished business from way back... His words launched Evans into the heart of a story that tightly bound Onassis not to Jackie's first husband, but to his ambitious younger brother Bobby. A bitter rivalry emerged between Bobby and Ari long before Onassis and Jackie had even met. Nemesis reveals the tangled thread of events that linked two of the world's most powerful men in their intense hatred for one another and uncovers the surprising role played by the woman they both loved. Their power struggle unfolds against a heady backdrop of international intrigue: Bobby Kennedy's discovery of the Greek shipping magnate's shady dealings, which led him to bar Onassis from trade with the United States; Onassis's attempt to control much of Saudi Arabia's oil; Onassis's untimely love affair with Jackie's married sister Lee Radziwill; and his bold invitation to First Lady Jackie to join him on his yacht -- without the president. Just as the self-made Greek tycoon gloried in the chance to stir the wrath of the Kennedys, they struggled unsuccessfully to break his spell over the woman who held the key to all

of their futures. After Jack's death, Bobby became ever closer to Camelot's holy widow, and fought to keep her from marrying his sworn rival. But Onassis rarely failed to get what he wanted, and Jackie became his wife shortly after Bobby was killed. Through extensive interviews with the closest friends, lovers, and relatives of Onassis and the Kennedys, long-time journalist Evans has uncovered the shocking culmination of the Kennedy-Onassis-Kennedy love triangle: Aristotle Onassis was at the heart of the plot to kill Bobby Kennedy. Meticulously tracing Onassis's connections in the world of terrorism, Nemesis presents compelling evidence that he financed the assassination -- including a startling confession that has gone unreported for nearly three decades. Along the way, this groundbreaking work also daringly paints these international icons in all of their true colors. From Evans's deeply nuanced portraits of the charismatic Greek shipping magnate and his acquisitive iconic bride to his probing and revelatory look into the events that shaped an era, Nemesis is a work that will not be soon forgotten.

**Nemesis** Bill Napier, 2017-11-06 Five days to save the world. A shocking CIA report confirms Russia has deflected an asteroid on to a collision course with the United States. An elite team of the world's top astronomers have five days to identify the asteroid – codename Nemesis – and stop it. If they fail, the President will retaliate with a massive nuclear strike. But with time running out, British asteroid expert Oliver Webb discovers that its course was once predicted in an obscure seventeenth-century manuscript, the only copy of which has gone mysteriously missing... Nemesis is an ingenious and utterly gripping thriller, perfect for fans of Dan Brown, Scott Mariani and Andy McDermott. Praise for Nemesis 'The most exciting book I have ever read' Arthur C.
