The Future of News Philip S. Cook,Douglas Gomery,Lawrence Wilson Lichty,1992 Analyzing these and other trends, The Future of News offers a thoughtful and provocative preview of the media's role in the twenty-first century.

Stop Reading the News Rolf Dobelli,2021-01-07 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling The Art of Thinking Clearly, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.

Broken News Chris Stirewalt,2022-08-23 One of America's most experienced and exemplary journalists has written an unsparing analysis of the dreadful consequences -- for journalism and the nation -- of 'how the news lost a race to the bottom with itself.' -- George F. Will In this national bestseller, Chris Stirewalt, a former Fox News political editor, takes readers inside America's broken newsrooms that have succumbed to the temptation of "rage revenue." One of America's sharpest political analysts, Stirewalt employs his trademark wit and insight to reveal how these media organizations slant coverage -- and why that drives political division and rewards outrageous conduct. The New York Times wrote that Stirewalt's book is an often candid reflection on the state of political journalism and his time at Fox News, where such post-mortem assessments are not common... Broken News is a fascinating, deeply researched, conversation-provoking study of how the news is made and how it must be repaired. Stirewalt goes deep inside the history of the industry to explain how today's media divides America for profit. And he offers practical advice for how readers, listeners, and viewers can (and should) become better news consumers for the sake of the republic.

Breaking the News Alex Marlow,2021-05-18 From the editor in chief of Breitbart News, the New York Times bestselling "must-read" (Sean Hannity) investigation into how the establishment media became weaponized against Donald Trump and his supporters on behalf of the political left. In this timely and "important book" (Glenn Beck), Marlow explains how the establishment press destroyed its own credibility with a relentless stream of "fake news" designed to smear Donald Trump and his supporters while advancing a leftist agenda. He also reveals key details on how our information gatekeepers truly operate and why America's "fake news" moment might never end. Breitbart—and Trump—began banging the drum about "fake news" during the 2016 election, and it resonated with millions of voters because they intuitively knew the corporate media was willing to say or write anything to achieve their political ends. It's a battle cry that continues to this day. Deeply researched and eye-opening, Breaking the News rips back the curtain on the inner workings of how the establishment media weaponizes information to achieve their political and cultural ends.

News for All Thomas C. Leonard,1995 In News for All, Leonard provides a fascinating account of the love-hate relationship we have always had with the news, from the early nineteenth century to the present. America's insatiable appetite for news played a critical role in the growth of democracy, but never before have the readers, rather than the periodicals, been examined in detail. News for All bridges this critical gap, bringing to life the nation's cantankerous love affair with the press.

The NeWS Book James Gosling,David S.H. Rosenthal,Michelle J. Arden,2012-12-06 This book is an introduction to NeWS: the Networked, Extensible, Window System from Sun Microsystems. It is oriented towards people who have a basic knowledge of programming and window systems who would like to understand more about window systems in general and NeWS in particular. A significant portion of the book is devoted to an overview and history of window systems. While there is enough detail here to allow readers to write simple NeWS applications, the NeWS Reference Manual [SUN87a] should be consulted for a more complete treatment. This book was written to refer to the NeWS 1. 1 product, available from Sun and also available from several non-Sun suppliers. Shortly after this book is published, Sun will be releasing the next version of NeW- the X11/NeWS merged window system. Chapter 10 is dedicated to an overview of that product, but X11/NeWS deserves a book of its own. All the code examples in this book have been tested on both NeWS and the X11/NeWS merge. Should there be another edition of this book, we will discuss some of the new development being done in the user interface tool kit area on NeWS. Significantly, the NeWS Development Environment (NDE) is now being developed at Sun; NDE promises to eclipse existing user interface toolkit designs and window programming environments.

About to Die Barbie Zelizer,2010-12-01 Due to its ability to freeze a moment in time, the photo is a uniquely powerful device for ordering and understanding the world. But when an image depicts complex, ambiguous, or controversial events--terrorist attacks, wars, political assassinations--its ability to influence perception can prove deeply unsettling. Are we really seeing the world as it is or is the image a fabrication or projection? How do a photo's content and form shape a viewer's impressions? What do such images contribute to historical memory? About to Die focuses on one emotionally charged category of news photograph--depictions of individuals who are facing imminent death--as a prism for addressing such vital questions. Tracking events as wide-ranging as the 1906 San Francisco Earthquake, the Holocaust, the Vietnam War, and 9/11, Barbie Zelizer demonstrates that modes of journalistic depiction and the power of the image are immense cultural forces that are still far from understood. Through a survey of a century of photojournalism, including close analysis of over sixty photos, About to Die provides a framework and vocabulary for understanding the news imagery that so profoundly shapes our view of the world.

Breaking News Alan Rusbridger,2018-11-27 An urgent account of the revolution that has upended the news business, written by one of the most accomplished journalists of our time Technology has radically altered the news landscape. Once-powerful newspapers have lost their clout or been purchased by owners with particular agendas. Algorithms select which stories we see. The Internet allows consequential revelations, closely guarded secrets, and dangerous misinformation to spread at the speed of a click. In Breaking News, Alan Rusbridger demonstrates how these decisive shifts have occurred, and what they mean for the future of democracy. In the twenty years he spent editing The Guardian, Rusbridger managed the transformation of the progressive British daily into the most visited serious English-language newspaper site in the world. He oversaw an extraordinary run of world-shaking scoops, including the exposure of phone hacking by London tabloids, the Wikileaks release of U.S.diplomatic cables, and later the revelation of Edward Snowden's National Security Agency files. At the same time, Rusbridger helped The Guardian become a pioneer in Internet journalism, stressing free access and robust interactions

with readers. Here, Rusbridger vividly observes the media's transformation from close range while also offering a vital assessment of the risks and rewards of practicing journalism in a high-impact, high-stress time.

Good News, Bad News Jeff Mack,2012-06-22 Good news, Rabbit and Mouse are going on a picnic. Bad news, it is starting to rain. Good news, Rabbit has an umbrella. Bad news, the stormy winds blow the umbrella (and Mouse!) into a tree. So begins this clever story about two friends with very different dispositions. Using just four words, Jeff Mack has created a text with remarkable flair that is both funny and touching, and pairs perfectly with his energetic, and hilarious, illustrations. Good news, this is a book kids will clamor to read again and again!

She wants more than anything to help in a BIG way, but maybe she can start with one small act of kindness instead . . . and then another, and another.Small things can compound, after all, to make a world of difference. The Breaking News by Sarah Lynne Reul touches on themes of community, resilience, and optimism with an authenticity that will resonate with readers young and old.

News for All the People: The Epic Story of Race and the American Media Juan González,Joseph Torres,2011-10-31 A landmark narrative history of American media that puts race at the center of the story. Here is a new, sweeping narrative history of American news media that puts race at the center of the story. From the earliest colonial newspapers to the Internet age, America's racial divisions have played a central role in the creation of the country's media system, just as the media has contributed to—and every so often, combated—racial oppression. News for All the People reveals how racial segregation distorted the information Americans received from the mainstream media. It unearths numerous examples of how publishers and broadcasters actually fomented racial violence and discrimination through their coverage. And it chronicles the influence federal media policies exerted in such conflicts. It depicts the struggle of Black, Latino, Asian, and Native American journalists who fought to create a vibrant yet little-known alternative, democratic press, and then, beginning in the 1970s, forced open the doors of the major media companies. The writing is fast-paced, story-driven, and replete with memorable portraits of individual journalists and media executives, both famous and obscure, heroes and villains. It weaves back and forth between the corporate and government leaders who built our segregated media system—such as Herbert Hoover, whose Federal Radio Commission eagerly awarded a license to a notorious Ku Klux Klan organization in the nation's capital—and those who rebelled against that system, like Pittsburgh Courier publisher Robert L. Vann, who led a remarkable national campaign to get the black-face comedy Amos 'n' Andy off the air. Based on years of original archival research and up-to-the-minute reporting and written by two veteran journalists and leading advocates for a more inclusive and democratic media system, News for All the People should become the standard history of American media.

News in America Frank Luther Mott,1962

Manufacturing the News Mark Fishman,2014-11-17 There is little argument that mass media news projects a particular point of view. The question is how that bias is formed. Most media critics look to the attitudes of reporters and editors, the covert news policy of a publisher, or the outside pressures of politicians and advertisers. Manufacturing the News takes a different tack. Mark Fishman's research shows how the routine methods of gathering news, rather than any hidden manipulators, determine the ideological character of the product. News organizations cover the world mainly through “beats,” which tend to route reporters exclusively through governmental agencies and corporate bureaucracies in their search for news. Crime, for instance, is covered through the police and court bureaucracies; local politics through the meetings of the city council, county commissioners, and other official agencies. Reporters under daily deadlines come to depend upon these organizations for the predictable, steady flow of raw news material they provide. It is part of the function of such bureaucracies to transform complex happenings into procedurally defined “cases.” Thus the information they produce for newswriters represents their own bureaucratic reality. Occurrences which are not part of some bureaucratic phase are simply ignored. Journalists participate in this system by publicizing bureaucratic reality as hard fact, while accounts from other sources are treated as unconfirmed reports which cannot be published without time-consuming investigation. Were journalists to employ different methods of news gathering, Fishman concludes, a different reality would emerge in the news—one that might challenge the legitimacy of prevailing political structures. But, under the traditional system, news reports will continue to support the interests of the status quo independently of the attitudes and intentions of reporters, editors, and news sources.

The American Journalist David Hugh Weaver,G. Cleveland Wilhoit,1991

Big Town, Big Time ,1998-12 The 100th anniversary of the creation of Greater New York via consolidation of what had previously been dozens of separate communities. These are the greatest moment in New York City history, recreated from the news and picture files of the New York Daily News. From Typhoid Mary to the opening of Yankee Stadium to the unforgettable blackout, it's a time to remember. This 224 page book is a colorful panoply of politics, culture, crime, sports, etc.... The personalities, the events, the flow of time. The Daily News, for so long the eyes and the ears of the city, chronicles the past and brings it back to life in Big Town Big Time!

Beyond News Mitchell Stephens,2014-02-04 For a century and a half, journalists made a good business out of selling the latest news or selling ads next to that news. Now that news pours out of the Internet and our mobile devices—fast, abundant, and mostly free—that era is ending. Our best journalists, Mitchell Stephens argues, instead must offer original, challenging perspectives—not just slightly more thorough accounts of widely reported events. His book proposes a new standard: “wisdom journalism,” an amalgam of the more rarified forms of reporting—exclusive, enterprising, investigative—and informed, insightful, interpretive, explanatory, even opinionated takes on current events. This book features an original, sometimes critical examination of contemporary journalism, both on- and offline. And it finds inspiration for a more ambitious and effective understanding of journalism in examples from twenty-first-century articles and blogs, as well as in a selection of outstanding twentieth-century journalism and Benjamin Franklin's eighteenth-century writings. Most attempts to deal with journalism's current crisis emphasize technology. This book emphasizes mindsets and the need to rethink what journalism has been and might become.

News for the Rich, White, and Blue Nikki Usher,2021-07-06 As cash-strapped metropolitan newspapers struggle to maintain their traditional influence and quality reporting, large national and international outlets have pivoted to serving readers who can and will choose to pay for news, skewing coverage toward a wealthy, white, and liberal audience. Amid rampant inequality and distrust, media outlets have become more out of touch with the democracy they purport to serve. How did journalism end up in such a predicament, and what are the prospects for achieving a more equitable future? In News for the Rich, White, and Blue, Nikki Usher recasts the challenges facing journalism in terms of place, power, and inequality. Drawing on more than a decade of field research, she illuminates how journalists decide what becomes news and how news organizations strategize about the future. Usher shows how newsrooms remain places of power, largely white institutions growing more elite as journalists confront a shrinking job market. She details how Google, Facebook, and the digital-advertising ecosystem have wreaked havoc on the economic model for quality journalism, leaving local news to suffer. Usher also highlights how the handful of likely survivors—well-funded media outlets such as the New York Times—increasingly appeal to a global, “placeless” reader. News for the Rich, White, and

Blue concludes with a series of provocative recommendations to reimagine journalism to ensure its resiliency and its ability to speak to a diverse set of issues and readers.
